

Project update - Sydney Metro Trains Facility expansion

October 2022

Sydney Metro is Australia’s biggest public transport project. Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central Station.

By 2030, Sydney will have a network of four metro lines, 46 stations and 113km of new metro rail.

Sydney Metro is revolutionising how Australia’s biggest city travels, connecting Sydney’s north west, west, south west and greater west to fast, reliable turn-up-and-go metro services with fully accessible stations.

Sydney Metro Trains Facility (SMTF) expansion

The Sydney Metro Trains Facility expansion is progressing well, with trains from the existing fleet continuing to test newly installed communications and signalling equipment in recent months.

An overview of activities planned for October 2022 is provided below.

Day work Project standard working hours are from 7am to 6pm Monday to Sunday	
Location	Detail
Sydney Metro Trains Facility	<ul style="list-style-type: none"> • October activities will include: <ul style="list-style-type: none"> ○ testing and commissioning of the new communications and signalling systems ○ installation of cables in the Administration and Maintenance Building ○ access for vehicles will mainly be via the delivery entrance gate off Tallawong Road, north of the main entrance to the facility.

Out of hours work (night) Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours between 6pm and 7am		
Date / time	Location	Detail
From 10pm Friday 7 October to 6am Monday 10 October 2022 From 12.30am to 4.30am from 3 to 31 October 2022	Sydney Metro Trains Facility	<ul style="list-style-type: none"> • Activities will include: <ul style="list-style-type: none"> ○ train testing operating between SMTF and Chatswood (10pm to 6am only).

City & Southwest

Equipment to be used will include trucks, power tools and hand tools.

Some work may be noisy, and every step will be taken to minimise noise. Where lights are required, they will be directed away from residences. The site compound will be used predominantly during the day, with occasional night access. We will liaise with directly impacted residents as work progresses.

Keeping you informed

Sydney Metro is continuing to undertake work across its projects in accordance with current Government advice and is implementing physical distancing and travel and hygiene measures to protect employees and members of the community.

We encourage you to provide a contact email or phone number so we can add you to our distribution list for updates on this work. To be included on our list or if you have any questions about this work, please contact **1800 171 386** or email sydneymetro@transport.nsw.gov.au.
