

## Notification – Wiley Park

Upcoming rail shutdown: 24 September – 9 October 2022

**The T3 Bankstown Line will be closed between Sydenham and Birrong from 24 September to 9 October 2022 for metro upgrade work.**

Opal enabled rail replacement bus services will be provided during this time.

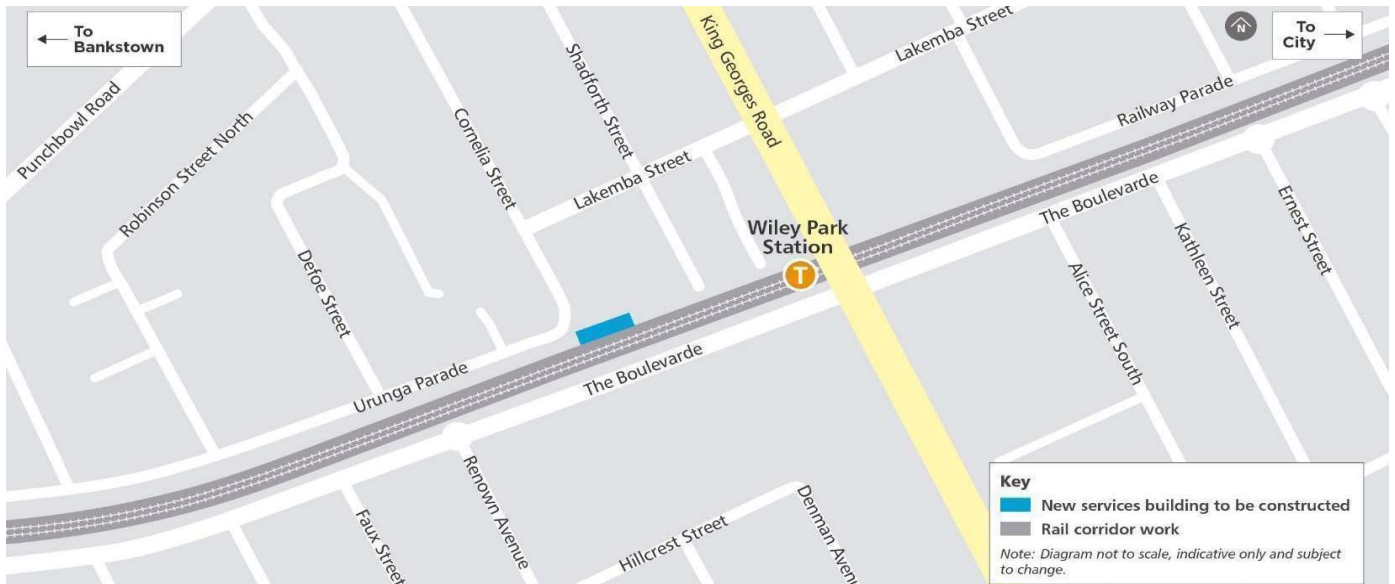

You can plan your trip at [transportnsw.info](http://transportnsw.info) and on real time apps. Kerbside changes will also be in place around the affected train stations for temporary bus zones. Please check signage before parking your car.

As you may be aware, ongoing protected industrial action at Sydney Trains since late 2021 has resulted in a range of planned activities along the Bankstown Line being postponed. Some of these previously postponed activities have been scheduled to take place during the upcoming rail shutdown in the school holidays, **between 8pm Friday 23 September and 5am Monday 10 October 2022.**

Please note that the proposed scope of work during the shutdown may still be impacted by potential industrial action. This is because most of Sydney Metro's work requires power isolation to provide safe access to the rail corridor - which must be issued by Sydney Trains.

**Work will be undertaken continuously throughout the shutdown** along the rail corridor and around Wiley Park station. Planned work activities during the shutdown include:

| Date / time  | Details of out-of-hours (including night) work   |
|--|--|
| <p><b>Between 8pm Friday 23 September and 5am Monday 10 October 2022</b></p> | <ul style="list-style-type: none"> <li>• Cable pulling in the rail corridor</li> <li>• Installation of structural steel and glazing</li> <li>• Ongoing Northern Plaza remediation works</li> <li>• Concourse building, strengthening, roofing and facade works</li> <li>• Platform 1 and 2 building construction works and furniture footing installations</li> <li>• Mechanical, plumbing, and electrical installations</li> <li>• Installation of platform furniture and platform balustrade</li> <li>• Various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations, de-vegetation and surveys for drainage, utilities, and fencing.</li> <li>• Delivery of plant and material including preparatory activities for upcoming work</li> <li>• Concrete work associated with installing galvanised steel troughing (GST), new cable routes and bridge upgrades.</li> </ul> |

The types of equipment we will use for this work will include heavy machinery (including but not limited to excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, elevated work platforms, concrete pumps, cranes, cable pulling equipment, road sweeper, compactors, lighting towers, forklifts, chainsaws, and water carts), and hand and power tools.

Sydney Metro use a range of mitigation measures to minimise the impacts of construction noise and vibration, such as noise monitoring, using noise blankets and acoustic enclosures, selecting quieter tools where possible and using non-tonal reversing alarms on trucks. In some situations, respite options and alternative accommodation may be offered to local residents.

If you are eligible for respite or alternative accommodation, we will communicate this directly with you.

### Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Chris** or email [linewideMetro@transport.nsw.gov.au](mailto:linewideMetro@transport.nsw.gov.au). For all other works please ask for **Elizabeth** or email [SouthwestMetro@transport.nsw.gov.au](mailto:SouthwestMetro@transport.nsw.gov.au).

**Thank you for your cooperation while we complete this essential work.**
