

Notification – Badgerys Creek

9 September 2022

Sydney Metro is Australia's biggest public transport project.

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. A city-shaping project, the 23-kilometre new railway will connect the Western Sydney Aerotropolis in the south with St Marys in the north – where customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport opens for passenger services.

Out-of-hours work: installation of temporary water mains

The installation of water mains along Badgerys Creek Road and Longleys Road, Badgerys Creek commenced in mid-March to provide water for the construction of the Sydney Metro – Western Sydney Airport project.

Work to install a temporary water main near the intersection of Badgerys Creek Road and Longleys Road, Badgerys Creek will be carried out during standard construction hours **7am to 6pm, Monday to Friday** and **8am to 1pm, Saturday**. To minimise impacts to essential services and traffic some work will also be carried outside of standard construction hours between **Friday, 23 September 2022** and **Monday, 26 September 2022, 8pm to 5am**, weather and site conditions permitting.

Please see map overleaf for the work location.

Work will include:

- Potholing, geotechnical and site investigations
- Trenching and under boring along and across Badgerys Creek Road to install temporary water mains
- Using the site compound to store equipment and material for the work
- Reinstating the work area, once work is complete.

What to expect:

- Work will generate some noise and dust during construction hours and our team will minimise impacts, where possible
- Increased vehicle movements on surrounding roads
- Access to driveways and buildings will be maintained at all times
- There will be no disruption to utility services.

Equipment used:

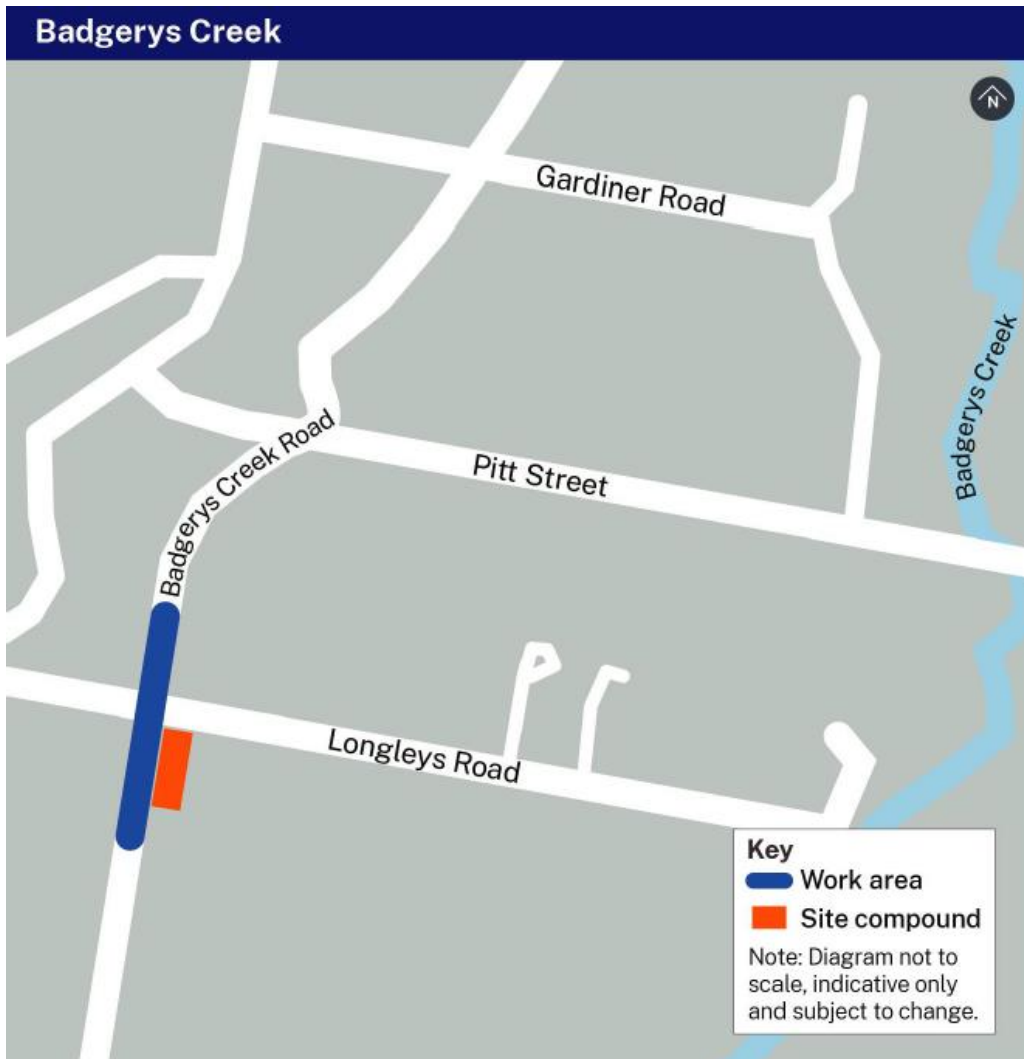

Equipment for this work includes but is not limited to: excavators, cranes, trucks including delivery and vacuum trucks, light towers, under boring equipment and light vehicles.

Changes to traffic and pedestrian and cyclist routes:

During the work, traffic control will be in place to assist motorists, cyclists and pedestrians with any changes to traffic conditions. This may include contraflow traffic flow and stop-slow traffic controls. The times of these changes will vary and are dependent on road authority approvals.

Contact us:

Your local Place Manager for Sydney Metro – Western Sydney Airport is Catherine Ryan. Catherine will be your main contact for questions and enquiries regarding the project and can be contacted on **1800 717 703**.

If you'd like to receive these updates by email, please contact Catherine who can add you to the distribution list. Our email is: sydneymetrowsa@transport.nsw.gov.au

Thank you for your cooperation while we complete these essential works.
