

Notification – Clyde and surrounds

8 October 2022

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro has been granted planning approval to construct twin underground rail tunnels between Westmead and Hunter Street in the Sydney CBD for Sydney Metro West.

Gamuda Australia and Laing O'Rourke Consortium (GLC) has been awarded the contract to deliver nine kilometres of twin metro rail tunnels between Westmead and Sydney Olympic Park, excavation for two new metro stations, a stabling and maintenance facility at Clyde and a precast facility at Eastern Creek.

Out-of-hours work at Clyde

To minimise interruption to local traffic and to ensure the safety of motorists, pedestrians and workers around the site, some work must be undertaken outside standard construction hours.

Out-of-hours work will involve:

- Ongoing construction of the diaphragm wall and support works in preparation for shaft excavation and tunnelling at Rosehill Services Facility **24 hours a day, Monday to Friday** until early **December 2022**.
- Delivering and unloading of materials and machinery including spoil stockpiling at Clyde Stabling and Maintenance Facility between **6pm and 6am on Mondays, Thursdays and Fridays** from **Monday 10 October to Monday 31 October 2022**, weather and site conditions permitting.
- Delivering oversized machinery and equipment to site between **6pm and 7am** from **Monday 10 October to Monday 31 October 2022**. Deliveries will be unloaded during standard construction hours.
- Decommissioning utilities on site along James Ruse Drive on **one night** between **7pm and 5am** from **Monday 17 October and Friday 21 October 2022**, weather and site conditions permitting. Temporary closure of one southbound lane on James Ruse Drive will be required near the work area.
- Upgrading water utilities on Wentworth Street on **two nights** between **6pm and 7am** from **Monday 17 October to Friday 21 October**, weather and site conditions permitting. This will involve:
 - saw-cutting, potholing and excavation
 - removing spoil and stockpiling onsite
 - backfilling and restoring impacted areas

Out-of-hours deliveries are in line with Road Occupancy Licence; and Transport for NSW requirements to work in the road corridor and for the movement of oversized vehicles. We will keep you informed as out-of-hours work activities progress.

Temporary interruption to water supply at Clyde

A temporary water outage will be required during the utility upgrade planned for the week of **Monday 17 October to Friday 21 October 2022**. This will impact water supply for two nights only to properties on Wentworth Street, Martha Street and Kendall Street. Impacted properties will be contacted separately in advance of the work.

Standard construction hours work:

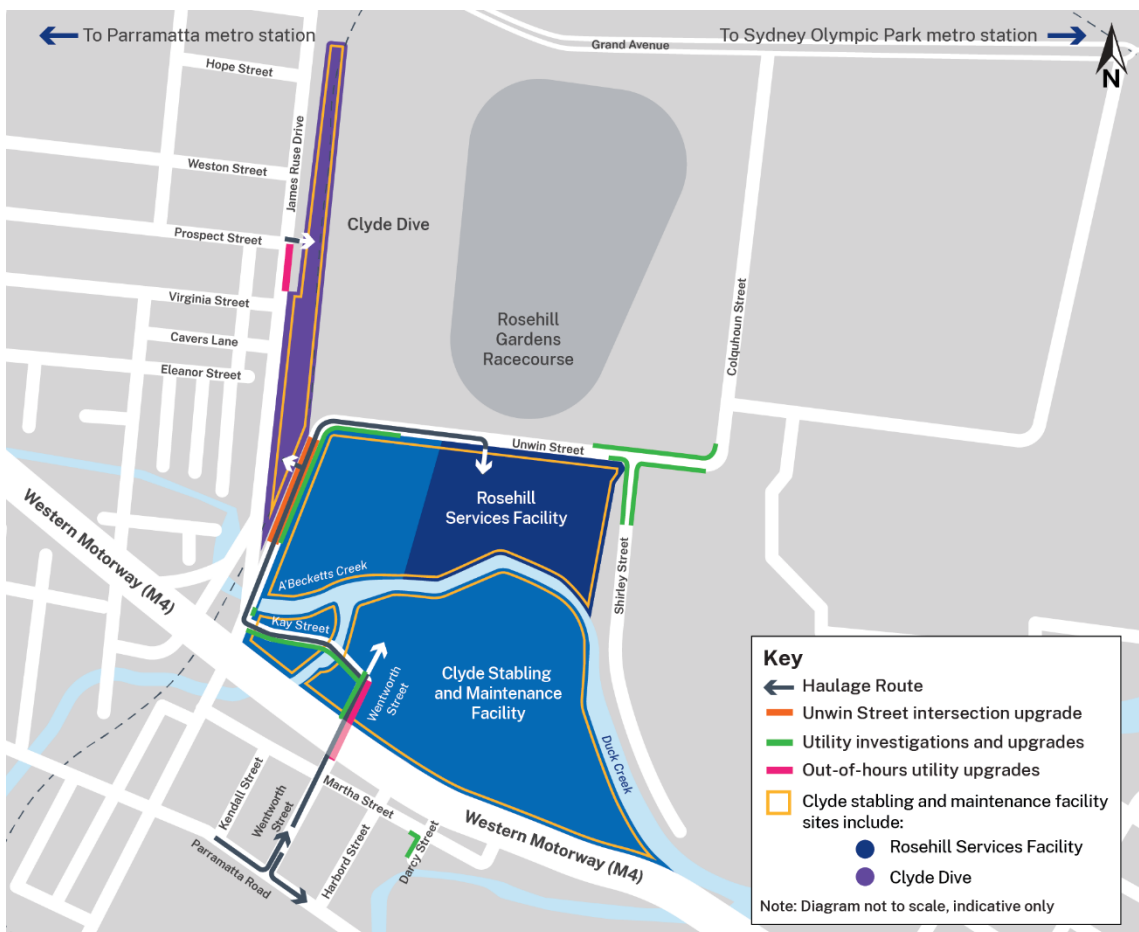

GLC will continue work during standard construction hours from **Monday to Friday 7am to 6pm and Saturday 8am to 6pm**. To view the monthly construction update for October, visit sydneymetro.info or scan the QR code overleaf.

What to expect:

- Some activities will generate noise and this will be minimised as much as possible
- During night works, lights will be directed to the work areas and away from residents
- Access to property and businesses will be maintained at all times
- Increased traffic during delivery of machinery and equipment
- Signage and traffic control will be in place to assist motorists, pedestrians and cyclists with changes to traffic conditions. This may include contraflow traffic flow, stop-slow traffic controls, stop-go traffic controls, temporary removal of parking or partial road closures.

Equipment used: Equipment used for this work will include but is not limited to hand tools, cranes, generators, trucks and dogs, survey equipment, light vehicles, drill rigs, dust scrubbers, compressors, excavators (including hydraulic hammer and pulveriser attachments), diesel generators, concrete agitators, concrete pumps, vacuum excavation trucks, tipper trucks, vibratory roller, chainsaws, mulchers, temporary fencing, road saw and traffic control devices, line-marking truck and a sheet piling rig.

Clyde stabling and maintenance facility work areas

Contact us

Please contact Olivia from GLC's Community team on **1800 612 173** or by email if you have any questions, complaints or would like to provide feedback about the work, including respite periods. We will continue to keep you updated on the progress of work in your area.

If you would prefer to receive updates by email, please send a request to metrotunnelsGLC@transport.nsw.gov.au and we will add you to the distribution list.

Thank you for your cooperation while we complete these essential works.
