

Notification – Martin Place Station

October 2022

Sydney Metro is Australia's biggest public transport project.

Services started in May 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown, with new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central. By 2030, Sydney will have a network of four metro lines, 46 stations, and 113km of new metro rail.

Macquarie Group is delivering the new Sydney Metro Martin Place integrated station development and has appointed Lendlease as its design and construction contractor.

Systems Connect (an unincorporated joint venture between CPB Contractors and UGL Limited) is delivering line-wide work including installing metro rail track, power systems and infrastructure to turn the excavated tunnels into a working railway between Chatswood and Sydenham. Line-wide work also includes the permanent systems, services and buildings required for Sydney Metro operations between Chatswood and Bankstown.

Upcoming access changes

The pedestrian walkway at Martin Place between Elizabeth Street and Castlereagh Street will be temporarily relocated on **29 October 2022 (weather and site conditions permitting)** to enable construction of the new metro station at Martin Place to continue. Access will remain through Martin Place for pedestrians and commuters at all times.

A new temporary pedestrian walkway will be located through the centre of the South site, approximately 10 metres adjacent to the existing walkway.

Access to Commonwealth Bank (50 Martin Place) will be temporarily unavailable via the main entrance doors. Patrons wishing to access Commonwealth Bank may do so via the entrance doors located on Elizabeth Street and Castlereagh Street. Wayfinding signage will be in place to assist pedestrians.

What to expect:

- Access to Martin Place Station will be maintained at all times.
- Bus services will not be impacted.
- Access to Commonwealth Bank (50 Martin Place) will change, with the main entrance no longer available. Patrons can enter the 50 Martin Place building via the entrance doors on either Elizabeth Street or Castlereagh Street. Wayfinding signage will be in place to assist pedestrians.
- Access to businesses, buildings and driveways will be maintained at all times.
