

Notification – Clyde and surrounds

9 November 2022

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro has been granted planning approval to construct twin underground rail tunnels between Westmead and Hunter Street in the Sydney CBD for Sydney Metro West.

Gamuda Australia and Laing O'Rourke Consortium (GLC) has been awarded the contract to deliver nine kilometres of twin metro rail tunnels between Westmead and Sydney Olympic Park, excavation for two new metro stations, a stabling and maintenance facility at Clyde and a precast facility at Eastern Creek.

Out-of-hours work at Clyde

To minimise interruption to local traffic and to ensure the safety of motorists, pedestrians and workers around the site, some work must be undertaken outside standard construction hours.

Due to the location and traffic conditions, the installation of concrete barriers on James Ruse Drive between Prospect Street and Virginia Street will be completed between **6pm and 7am** over **three nights** from **Wednesday 16 November to Wednesday 23 November 2022**.

As planned and recently notified, out-of-hours work will involve:

- Ongoing construction of diaphragm wall and support works at Rosehill Services Facility **24 hours a day, Monday to Sunday** until early **December 2022**.
- Delivering and unloading of materials and machinery including spoil stockpiling at Clyde Stabling and Maintenance Facility between **8pm and 5am** on **Mondays to Fridays** from **Wednesday 9 November to Wednesday 30 November 2022**, weather and site conditions permitting.
- Oversized machinery and equipment deliveries to site between **6pm and 7am** from **Wednesday 9 November to Wednesday 30 November 2022**. Deliveries will be unloaded during standard construction hours.
- Maintenance works will continue on utility assets around the Clyde site and will be notified separately.

Out-of-hours deliveries are in line with Road Occupancy Licence; and Transport for NSW requirements to work in the road corridor and for the movement of oversized vehicles. We will keep you informed as out-of-hours work activities progress.

Standard construction hours work:

Tunnelling contractor GLC will continue work during standard construction hours from **Monday to Friday 7am to 6pm and Saturday 8am to 6pm**. To view the monthly construction update for November, visit sydneymetro.info or scan the QR code overleaf.

What to expect:

- Some activities will generate noise and this will be minimised as much as possible
- During night works, lights will be directed to the work areas and away from residents
- Access to property and businesses will be maintained at all times
- Increased traffic during delivery of machinery and equipment
- Hazardous material removal work is being undertaken in accordance with SafeWork NSW guidelines
- Signage and traffic control will be in place to assist motorists, pedestrians and cyclists with changes to traffic conditions. This may include contraflow traffic flow, stop-slow traffic controls, stop-go traffic controls.
- Temporary removal of parking spaces during utility investigations and upgrades.

Equipment used: Equipment used for this work will include but is not limited to hand tools, cranes, generators, trucks and dogs, survey equipment, light vehicles, drill rigs, dust scrubbers, compressors, excavators (including hydraulic hammer and pulveriser attachments), diesel generators, concrete agitators, concrete pumps, vacuum excavation trucks, tipper trucks, vibratory roller, chainsaws, mulchers, temporary fencing, road saw and traffic control devices, line-marking truck and a sheet piling rig.

Clyde stabling and maintenance facility work areas

Contact us

Please contact Olivia from GLC’s Community team on **1800 612 173** or by email if you have any questions, complaints or would like to provide feedback about the work, including respite periods. We will continue to keep you updated on the progress of work in your area.

If you would prefer to receive updates by email, please send a request to **metrotunnelsGLC@transport.nsw.gov.au** and we will add you to the distribution list.

Thank you for your cooperation while we complete these essential works.

-  **1800 612 173** Community information line open 24 hours
-  **metrotunnelsGLC@transport.nsw.gov.au**
-  Sydney Metro West, PO Box K659, Haymarket NSW 1240
-  If you need an interpreter, contact TIS National on **131 450** and ask them to call **1800 612 173**
