

## Notification – Westmead

8 November 2022

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Gamuda Australia and Laing O'Rourke Consortium (GLC) has been awarded the contract to deliver nine kilometres of twin metro rail tunnels between Westmead and Sydney Olympic Park, excavation for two new metro stations, a stabling and maintenance facility at Clyde and a precast facility at Eastern Creek.

### Ongoing out of hours work at Westmead

Tunnelling contractor, GLC will be conducting trenching work outside of standard construction hours **between 6pm and 7am Mondays to Fridays from Monday 14 November to Wednesday 30 November 2022**, weather and site conditions permitting. Trenching will continue in stages around the Westmead site and along the new power supply alignment until late 2022.

This work is planned out-of-hours to minimise disruption to local traffic and ensure the safety of motorists, pedestrians and workers around the site. We will keep you updated as work progresses.

#### Out-of-hours work will involve:

- Trenching in the footpath and road along Park Parade and Alexandra Avenue to investigate underground services prior to installing the new power supply to the site.
- Trenching on Hawkesbury Road, Alexandra Avenue, Hassall Street and Bailey Street to locate and disconnect underground water mains and sewer lines into the site area. This is not expected to affect residential services.
- Conducting geotechnical investigations on Alexandra Avenue.
- Vehicle movements to and from site to access, deliver and remove materials and equipment.

Maintenance works will continue on utility assets around the site and will be notified separately.

#### What to expect:

- During night work noise blankets will be used where possible to minimise disturbance and lights will be directed to the work areas and away from residents.
- Noise, vibration and dust monitoring will be in place to ensure compliance with strict environmental conditions.
- A temporary increase in traffic during delivery of machinery and equipment.
- Once trenching is complete, the impacted areas will be backfilled and temporarily restored. Permanent restoration will occur after the power supply cable has been installed and tested.
- Utility works will not affect any residential services such as water, power, communications.

#### Standard construction hours work:

GLC will continue to work during standard construction hours from **Monday to Friday 7am to 6pm and Saturday 8am to 6pm**. Additional activities to be completed in November will involve tree trimming on Alexandra Avenue and Hassall Street, see map overleaf.

To view the monthly update for November, visit [sydneymetro.info](http://sydneymetro.info) or scan the QR code overleaf.

## Changes to traffic and pedestrian routes:

Property and driveway access will be maintained at all times. To facilitate access to work areas and safely operate machinery, there will be periods of:

- Temporary lane closures and pedestrian diversions in place on Hassall Street, Bailey Street, Hawkesbury Road, Alexandra Avenue, Park Parade and Pitt Street.
- Temporary removal of parking during geotechnical investigations, tree trimming, utility work and trenching on Hassall Street, Bailey Street, Alexandra Avenue, Hawkesbury Road, Park Parade, Railway Parade and Pitt Street.
- Temporary signage and traffic control in place to assist motorists, pedestrians and cyclists with changes to traffic conditions. Allow some extra time for your journey.
- Access to bus stops will be maintained.

**Equipment used:** Equipment used for work includes but is not limited to excavators, survey instruments, lighting towers, vacuum trucks, plate compactors, drilling rigs, grinders, hand tools, saws, tippers and light vehicles.

## GLC work areas Westmead

## Contact us

Please contact Tania from the GLC community team on **1800 612 173** if you have any questions, complaints or would like to provide feedback about the work, including appropriate respite periods.

We will continue to keep you updated on the progress of work in your area. If you would prefer to receive updates by email, please send a request to **metrotunnelsGLC@transport.nsw.gov.au** and we will add you to the distribution list.

Thank you for your cooperation while we complete this essential work.
