

Monthly Update - Sydenham Station

December 2022

Sydney Metro is Australia's biggest public transport project.

Services started in May 2019 in the city's northwest with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

By 2030, Sydney will have a network of four metro lines, 46 stations and 113km of new metro rail.

Sydney Metro is revolutionising how Australia's biggest city travels, connecting Sydney's northwest, west, southwest and greater west to fast, reliable turn-up-and-go metro services with fully accessible stations.

John Holland Pty Ltd and Laing O'Rourke Australia Construction Pty Ltd were awarded the contract for major railway work at Sydenham as part of Sydney Metro, including upgrades at Sydenham Station and inside the rail corridor. MTR Australia has also been working at the station to install the platform edge barrier system on platforms 1 and 2.

Standard work hours

The following activities will be undertaken during standard construction hours from **Monday to Friday 7am-6pm and Saturday 8am to 1pm**
