

Monthly Update - Sydenham Station

February 2023

Sydney Metro is Australia's biggest public transport project.

Services started in May 2019 in the city's northwest with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

By 2030, Sydney will have a network of four metro lines, 46 stations and 113km of new metro rail.

Sydney Metro is revolutionising how Australia's biggest city travels, connecting Sydney's northwest, west, southwest and greater west to fast, reliable turn-up-and-go metro services with fully accessible stations.

John Holland Pty Ltd and Laing O'Rourke Australia Construction Pty Ltd were awarded the contract for major railway work at Sydenham as part of Sydney Metro, including upgrades at Sydenham Station and inside the rail corridor. MTR Australia has also been working at the station to install the platform edge barrier system on platforms 1 and 2.

Standard work hours

The following activities will be undertaken during standard construction hours from **Monday to Friday 7am-6pm and Saturday 8am to 1pm**

Location	Planned activities in February 2023
Sydenham Station	<ul style="list-style-type: none"> • Minor finishing works • Energisation of equipment • Testing and Commissioning • GAK foundation installation work on Platform 6 • Minor cable service route and fencing work • Gate installation work at the Western Services Building and on Platform 6 • Platforms 1 and 2 track and platform works

Out of hours

The following activities will be undertaken out of hours on **Saturday 4 and Sunday 5 February 2023 from 6am to 6pm**

Location	Planned out of hours activities
Rail corridor	<ul style="list-style-type: none"> • Installation of cables and fibre

What to expect

- These works are not expected to be noisy. Equipment will include excavator, truck, hand tools and power tools.

Sydenham Station pedestrian footbridge

The new pedestrian footbridge at Sydenham Station is now partially open with access to platforms 3, 4, 5 & 6 via the Burrows Avenue entrance. The pedestrian footbridge will be fully operational when Sydney Metro services begin in 2024, and customers will be able to easily interchange from metro services on platforms 1 and 2 to other existing platforms at the station.

Once the station is fully operational, Sydney Metro services will be available every four minutes during peak times.

Thank you for your cooperation while we complete this essential work.
