

Notification – Orchard Hills and St Clair

27 February 2023

Sydney Metro is Australia's biggest public transport project.

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. A city-shaping project, the 23-kilometre new railway will connect the Western Sydney Aerotropolis in the south with St Marys in the north – where customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport opens for passenger services.

Quickway was awarded the Advance Enabling works contract for Sydney Metro – Western Sydney Airport in 2020.

Watermain investigation works: Luddenham Road, Mamre Road and Solander Drive

Site and survey investigations for watermain upgrade will commence on Luddenham and Mamre Roads and Solander Drive from **Monday 6 March, for up to 2 weeks**, weather and site conditions permitting, pending NSW Public Health Advice.

Work will be completed during standard construction hours Monday to Friday 7am to 6pm and Saturday 8am to 1pm. Surrounding businesses and residents will be notified in advance of any out-of-hours work.

Please see map overleaf for the work location.

Work will include:

- Survey marking areas for tree clearing, within limits, identified in the work areas on the map
- Installing pickets, flags and fencing to mark the area
- Ecologist inspecting survey and investigation areas
- Excavating trial holes along the watermain route
- Reinstating the work area, once work is complete.

What to expect:

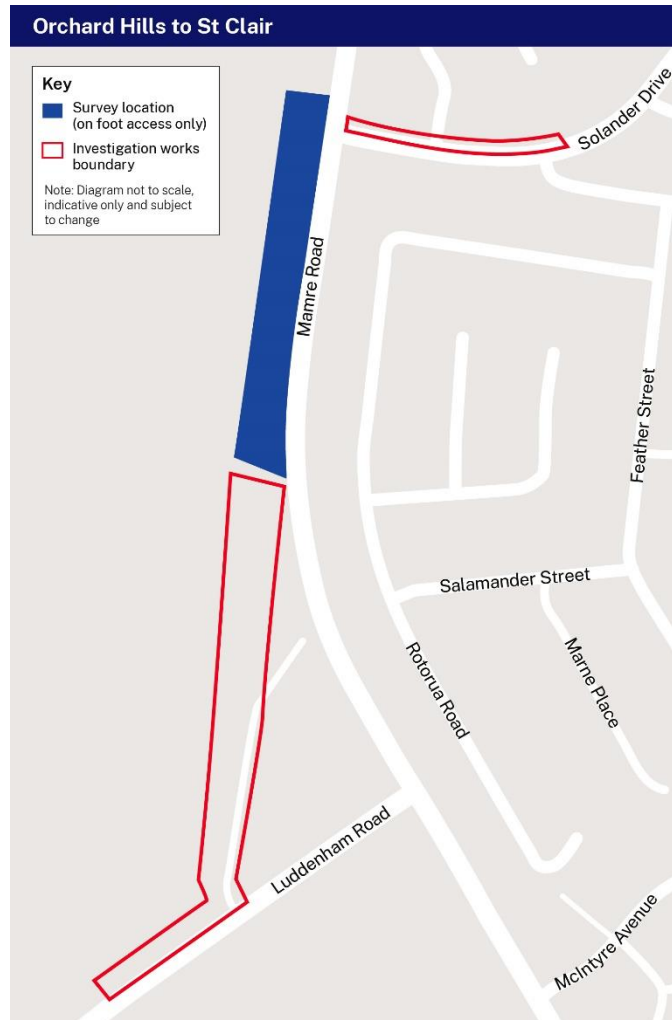

- Work will generate some noise during construction hours and our team will minimise impacts, where possible
- Trenching and potholing on the roadsides along Luddenham Road up to Mamre Road and from Solander Drive to Naoli Place
- Survey works including data collection from existing kerb lines, trees, overheads, other assets and features along Mamre Road
- Traffic control will be in place and increased vehicle movements on surrounding roads
- Access to driveways and buildings will be maintained at all times
- There will be no disruption to utility services.

Equipment used:

Equipment for this work includes but is not limited to: excavators, trucks including delivery, vacuum and bogie trucks, hand tools and survey work equipment and light vehicles.

Changes to traffic and pedestrian and cyclist routes:

During the work, traffic control will be in place to assist motorists, cyclists and pedestrians with any changes to traffic conditions. This may include contraflow traffic flow and stop-slow traffic controls. The times of these changes will vary and are dependent on road authority approvals.

Contact us:

Your local Place Manager for Sydney Metro – Western Sydney Airport is Catherine. Catherine will be your main contact for questions and enquiries regarding the project and can be contacted on **1800 717 703**.

If you'd like to receive these updates by email, please contact Catherine who can add you to the distribution list. Our email is: sydneymetrowsa@transport.nsw.gov.au

Thank you for your cooperation while we complete these essential works.
