

Notification – Punchbowl to Bankstown

April 2023

Sydney Metro is Australia’s biggest public transport project.

By 2030, Sydney will have a network of four metro lines, 46 stations and 113km of new metro rail.

Sydney Metro is revolutionising how Australia’s biggest city travels, connecting Sydney’s north west, south west and greater west to fast, reliable turn-up-and-go metro services with fully accessible stations.

Passenger services from Chatswood to Sydenham will commence in 2024, then on to Bankstown within 12 months.

In April, work will continue along the corridor and at Punchbowl Station (weather and site conditions permitting). Work will be undertaken during standard construction hours, **Monday to Friday 7am-6pm** and **Saturday 8am-6pm**. You may also notice an increase in plant and materials being removed from our sites as contractors complete their scope along the alignment.

Location	Details of work during standard construction hours (daytime)
Punchbowl to Bankstown (along the rail corridor)	<ul style="list-style-type: none"> • Various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities and fencing • Modification and upgrade work to bridges along the rail alignment including Stacey Street bridge • Delivery of plant and material including preparatory activities for upcoming out-of-hours work • Demobilisation of temporary site compounds at Punchbowl along The Boulevarde between Dudley Street and Rosemont Street S and at Bankstown along North Terrace between West Terrace and The Appian Way • Cable pulling within the rail corridor
Punchbowl Station and surrounding areas & Concourse	<ul style="list-style-type: none"> • Lift installation work • Station and concourse building fit-out • Landscaping work to The Boulevarde side of Punchbowl Station and Rest Park • Construction of retaining block wall on south plaza next to the service stairs • Mechanical service work in building station • Asphalt work in lifts
Services building site off Urunga Parade, adjacent to the rail line	<ul style="list-style-type: none"> • Building fit-out • Landscaping and associated activities • Fencing installation • Ongoing termination work • Local cabling for padmounts
Punchbowl substation, off South Terrace near Scott Street	<ul style="list-style-type: none"> • Detailed excavations, bringing in and removing materials • Traffic controllers to facilitate truck movements onto South Terrace • Installing conduits, drainage and cables • Installation of glazed tile panels and anti-graffiti paint • Drainage work on South Terrace and site investigation of existing services • Mechanical and electrical fit-out • Installation of vehicle gate to substation • Streetscaping including driveways, kerbs, footpaths, permanent fencing, plus landscaping • Installation of steel structure in substation

From time to time we may finish work later than 6pm as we complete concrete pours. This will entail finishing off poured concrete using manual and powered floats and may continue until 10pm. This may occur on up to four separate evenings during the month. The noise impact will be low.

Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties in proximity to scheduled work will be notified prior to work starting. Planned out-of-hours work following the shutdown are detailed in the table over the page.

Date / time	Details of out-of-hours (including night) work
<p>Mid-week between 6pm and 7am Monday 3 to Friday 28 April 2023 (for no more than 3 nights per week)</p>	<ul style="list-style-type: none"> • Various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities and fencing • Delivery of plant and material including preparatory activities for upcoming out-of-hours work • Concrete work associated with installing new cable routes and bridge upgrades • Modification and upgrade work to culverts and bridges along the alignment and Stacey Street bridge • Temporary alternate lane closures along Stacey Street bridge • Resurfacing activities associated with installing the new hi-rail access pad inside the rail corridor along Urunga Parade between Dudley Street and Rosemont Street N
<p>Upcoming rail possessions:</p> <ul style="list-style-type: none"> • Friday 14 April to Sunday 16 April • Thursday 20 April to Sunday 23 April 	<ul style="list-style-type: none"> • Platform building fit-out and asphalt work • Installation of platform furniture and interim cameras • Removal of light poles and redundant services • Brick heritage platform wall and concourse glazing installation • North canopy roofing and concourse ceiling installation • External and internal concourse cladding and finishes and downpipe installation for roofing and lifts • Trackside equipment installation within the rail corridor • Structural steel frame and earthing installation • Continuation of galvanised steel troughing installation • Excavation, laying of conduits and backfilling at western end of the station • Installation of steel structures at Punchbowl substation • Installation of tiles, rectification of defects and painting at Punchbowl substation • High voltage cabling in rail corridor between Punchbowl and Bankstown • Traction negative bar installation at Punchbowl Station • Installing new cable routes and cable pulling • Installing fixtures and fittings to overhead wire structures • Various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations, de-vegetation and surveys for drainage, utilities, and fencing • Modification and upgrade work to bridges along the rail alignment including Stacey Street bridge, involving temporary alternate lane closures along Stacey Street bridge • Temporary lane closure and removal of parking along South Terrace between East Terrace and Stacey Street bridge and North Terrace between Stacey Street bridge and Lady Cutler Avenue (lane closure at North Terrace between 10am to 3pm)
<p>From 8am Saturday 29 April to 6pm Sunday 30 April</p>	<ul style="list-style-type: none"> • Installation of drainage pipes crossing South Terrace

Equipment used for the above work will include excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, sucker trucks, delivery vehicles, borehole drillers, rollers, generators, whacker packers, dump trucks, wood chippers, mulchers, grass cutters, telehandlers, crane trucks, drilling rigs, lifting machinery, elevated work platforms, bobcats, concrete pumps, cable pulling equipment, compactors, lighting towers, forklifts, chainsaw, water carts, vibrating plates, crane 400T, franna crane, elevated work platform, concrete pump, excavator and hand and power tools.

Access to buildings and driveways will be maintained at all times. Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers. **Where temporary footpath changes, car parking removal or lane closures are required for works, traffic control, pedestrian detours and signage will be in place to assist the community.**

Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Alana/Grace** or email LinewideMetro@transport.nsw.gov.au. For all other works please ask for **Claire** or email SouthwestMetro@transport.nsw.gov.au. **Thank you for your cooperation while we complete this essential work.**

 **1800 171 386** Community information line open 24 hours
