

## Work notification – Barangaroo Station

March 2023

### Sydney Metro is Australia’s biggest public transport project

Services started in May 2019 in the city’s north west with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown, with new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central. By 2030, Sydney will have a network of four metro lines, 46 stations, and a 113 kilometre of new metro rail.

Systems Connect (an unincorporated joint venture between CPB Contractors and UGL Limited) is delivering line-wide work including installing metro rail track, power systems and infrastructure to turn the excavated tunnels into a working railway between Chatswood and Sydenham. Line-wide work also includes the permanent systems, services and buildings required for Sydney Metro operations between Chatswood and Bankstown.

### Hickson Road out-of-hours work (OOHW) – sub yard demobilisation

In preparation for the closure of Hickson Road shaft, the temporary power installation will be deenergised and removed. This work will occur for up to three consecutive nights between 6pm and 5am on Friday 10th March to Monday 13th March 2023. Depending on the progress of the work, we may need to continue work between Friday, 17th March and Monday 20th March 2023, and we will advise our neighbours accordingly.

The work will involve temporary removal and reinstatement of security fencing and concrete barriers, removal of a 500-kilowatt variable speed drive fan, skid mounted transformer, distribution board and containerised substation from the sub yard and loading on to transport, as well as packing up and reopening of Hickson Road.

### Temporary lane closure

To undertake this work safely, a temporary lane closure will be in place on Hickson Road, with single lane traffic flow between 10pm and 5am between 10<sup>th</sup> and 13<sup>th</sup> March. Traffic control will be present to enable continuous two-way traffic flow for the duration of work. Regular traffic conditions will be reinstated in the morning on conclusion of each shift.

Out-of-hours work	
Date/time	Detail
<b>6pm Friday 10<sup>th</sup> March – 5am Saturday 11<sup>th</sup> March 2023</b>	<ul style="list-style-type: none"> <li>• Temporary removal of security fencing and concrete barriers</li> <li>• Unloading of the skip bin</li> <li>• Removal of the sub yard wooden hoarding</li> <li>• Removal of 500kW variable speed drive fan from sub yard and skid mounted transformer, and loading on to transport</li> </ul>
<b>6pm Saturday 11<sup>th</sup> March – 5am Sunday 12<sup>th</sup> March 2023</b>	<ul style="list-style-type: none"> <li>• Reinstatement of security fencing and jersey curb barriers</li> <li>• Removal of the LV distribution board and containerised substation, and loading on to transport</li> </ul>
<b>6pm Sunday 12<sup>th</sup> March – 5am Monday 13<sup>th</sup> March 2023 (contingency)</b>	<ul style="list-style-type: none"> <li>• Demobilisation of walkways and cable trays</li> <li>• Recovery of skip bin and loading on to transport</li> <li>• Packing up and demobilisation of the worksite and reopening Hickson Road.</li> </ul>

## What to expect

- Equipment used will include handheld and electric tools, power drills, vibratory equipment, bobcats, forklifts, mobile/Franna cranes, telehandlers, Elevated Work Platforms, lighting towers, light trucks and heavy vehicles and tippers.
- **Some of this work will be noisy.** The project team will take every step possible to minimise noise. A range of mitigation measures are in place to meet the project's approval conditions and reduce noise, including using only the necessary equipment for each task, turning off equipment when not in use. All machinery will have non-tonal movement alarms. Noise monitoring will be undertaken on during out of hours work, to ensure noise levels are within approved levels **Highly impacted residents will be notified separately.**
