

Notification – Westmead

2 May 2023

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro has been granted planning approval to construct twin underground rail tunnels between Westmead and Hunter Street in the Sydney CBD for Sydney Metro West.

Survey investigations

Survey investigations will be carried out from **Tuesday 9 May to Friday 19 May**, weather and site conditions permitting, along Alexandra Avenue, Railway Parade, Hawkesbury Road, Priddle Street and Hassall Street. These investigations are non-intrusive and noise from this work is expected to be minimal. A map showing the work area is over the page.

Work will involve:

- Surveying using hand-held equipment and tripod
- Setting up traffic controls on roads and/or footpaths where necessary.

Work hours

Most of the survey work will be undertaken during standard construction hours, **Monday to Friday 7am to 6pm**.

Some work may need to be undertaken outside standard construction hours, **Sunday to Thursday 7pm to 5am**, to minimise disruption to local traffic and to ensure the safety of motorists, pedestrians and workers.

What to expect:

- Small crews occupying areas of the footpath to carry out the survey work
- Access to footpaths and buildings will be maintained at all times
- Traffic control and directional signage may be used for the safety of works and the community.

Equipment used:

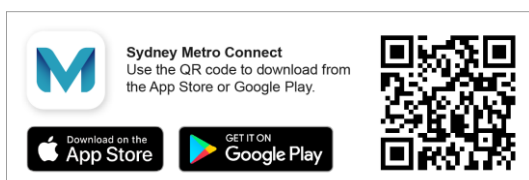

Equipment used for this work includes but is not limited to; hand-held scanner, tripod, temporary fencing and light vehicles.
