Pitt Street Station – Out of Hours work notification

August 2023

Sydney Metro is Australia's biggest public transport program.

Services started in May 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown, with new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

By 2030, Sydney will have a network of four metro lines, 46 stations, and 113km of new metro rail. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

Pitt Street Station is strategically located at the junction of Sydney's southern CBD and the Midtown retail precinct, close to mixed employment, residential, entertainment, cultural and events-based activities within the southern Sydney CBD and Chinatown.

The metro station at Pitt Street will serve the retail areas on George and Pitt streets, the civic and entertainment uses on George Street and the emerging southern Sydney CBD residential developments between Park Street and Belmore Park. The station will provide relief to Town Hall Station, and allow interchange onto other modes of public transport including light rail and buses.

When and where we'll be working

We'll be working at Pitt Street, Park Street, Bathurst Street and Castlereagh Street.

Some work will be completed outside of standard construction hours between Tuesday 1 August and Thursday 31 August. These work hours will be:

- Between 6pm and 7am, Monday to Friday
- Between 7am and 8am and 6pm and 7am Saturday
- Between 7am and 6pm and 7am Sunday.

Standard work hours are Monday to Friday, 7am to 6pm and Saturday, 8am to 6pm.

Systems Connect work at Pitt Street Station

Systems Connect will continue 24/7 fit-out in the station box, mechanical and electrical installation such as tunnel ventilation systems (TVS), drainage equipment and cables throughout the station. Testing and commissioning activities of electrical services, including power, communications and signalling equipment and systems, ventilation systems and dynamic train testing in the tunnels will also continue this month.

	concrete deliveries, pumping into site and vibratory finishing works
	modifications to site sheds, hoarding and hoarding graphics/signage
	installing external façade panels on the buildings

What to expect during out-of-hours work

Some of this out-of-hours work will be noisy. We aim to manage our work and apply mitigation measures to avoid impacts to the community and the environment..

This includes:

- · Completing the noisiest work before 10pm
- Only using necessary equipment for each task
- Turning off equipment when not in use
- Equipping all machinery with non-tonal movement alarms (squawkers) instead of beeping alarms
- Scheduling breaks between noisy works for respite

There may be changed traffic and pedestrian conditions. Traffic control and directional signage will be in place for the safety of workers and the community. Local access will be maintained at all times.
