

Monthly update – Sydenham Station

August 2023

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown, with new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central. By 2030, Sydney will have a network of four metro lines, 46 stations, and 113km of new metro rail.

John Holland Pty Ltd and Laing O’Rourke Australia Construction Pty Ltd were awarded the contract for major railway work at Sydenham as part of Sydney Metro, including upgrades at Sydenham Station and inside the rail corridor. MTR Australia has also been working at the station to install communications systems at the station and platform edge barrier system on platforms 1 and 2.

What work are we doing?

Standard work hours

The following activities will be undertaken during standard construction hours from **Monday to Friday 7am-6pm and Saturday 8am to 1pm**

Location	Work during standard hours
Sydenham Station	<ul style="list-style-type: none">• Installation of cables and equipment in the services buildings and at the station• Testing and commissioning activities of electrical services, including power, communication and signalling equipment and systems• Testing and commissioning of the platform screen doors• Dynamic train testing• Minor finishing works
Rail corridor	<ul style="list-style-type: none">• Installation and testing and commissioning of cables and trackside equipment• Dynamic Train testing

Out-of-hours work hours

The following activities will be undertaken out of standard construction hours in August

Location	Out-of-hours work
6am to 6pm Saturday 26 and Sunday 27 August	<ul style="list-style-type: none">• Finishing work at Sydenham Station and in the rail corridor
24/7 in August	<ul style="list-style-type: none">• Dynamic train testing• Testing and commissioning of new communications and signalling systems at Sydenham Station

What to expect

Equipment will include hi-ab truck, hand tools and power tools. The project team will take every step possible to minimise noise impacts. A range of measures are in place to meet the project's approval conditions and reduce noise, including noise barriers, using only the necessary equipment for each task, turning off equipment when not in use and equipping machinery with non-tonal movement alarms.

Thank you for your cooperation while we complete this essential work. We encourage you to provide a contact email or phone number so we can add you to our distribution list for updates on this work.

To be included on our distribution list for project updates or if you have any questions about this work, please contact **1800 171 386** or email sydneymetro@transport.nsw.gov.au.
