

Out-of-hours work lookahead – North Strathfield

October – December 2023

Sydney Metro is Australia's biggest public transport project

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro has been granted planning approval to construct twin underground rail tunnels between Westmead and Hunter Street in the Sydney CBD for Sydney Metro West. Acciona Ferrovial Joint Venture (AFJV) has been awarded the contract to deliver 11 kilometres of twin metro rail tunnels between The Bays and Sydney Olympic Park and excavate five new metro stations including a station at North Strathfield.

Out-of-hours work lookahead

Some activities such as utility investigation work or work on busy roads must be carried out at night to minimise impacts on traffic and for the safety of workers, motorists and pedestrians. Please see below an overview of potential out-of-hours construction work at the North Strathfield Metro Station site for the next three months.

Activity	Location	Noise Impact	Oct 2023	Nov 2023	Dec 2023
Crane lifts of oversize equipment into the station box	Queen Street, between Waratah Street and Pomeroy Street	High	3 nights	1 night	3 nights
Installation of graphics on the hoarding, hoarding maintenance	Queen Street, between Waratah Street and Pomeroy Street	Medium	3 nights	3 nights	2 nights
Removal of old power poles	Queen Street, between Waratah and Pomeroy streets	Medium	Up to 2 nights	-	-
Traffic island installation	Intersection of Wellbank and Queen streets	High	-	Up to 10 nights	Up to 10 nights
Pavement restoration	Intersection of Concord Road and Wellbank Street	High	-	-	Up to 10 nights
Oversize plant and equipment deliveries	Construction site	Low	Up to 4 nights	Up to 2 nights	Up to 4 nights
Environmental management and emergency work	Construction site		Only required in case of emergency		

Please note multiple activities will occur on the same nights. We plan to carry out work in one area for no more than three nights per week, with only two consecutive nights per week and no more than ten nights per month.

Mitigation measures

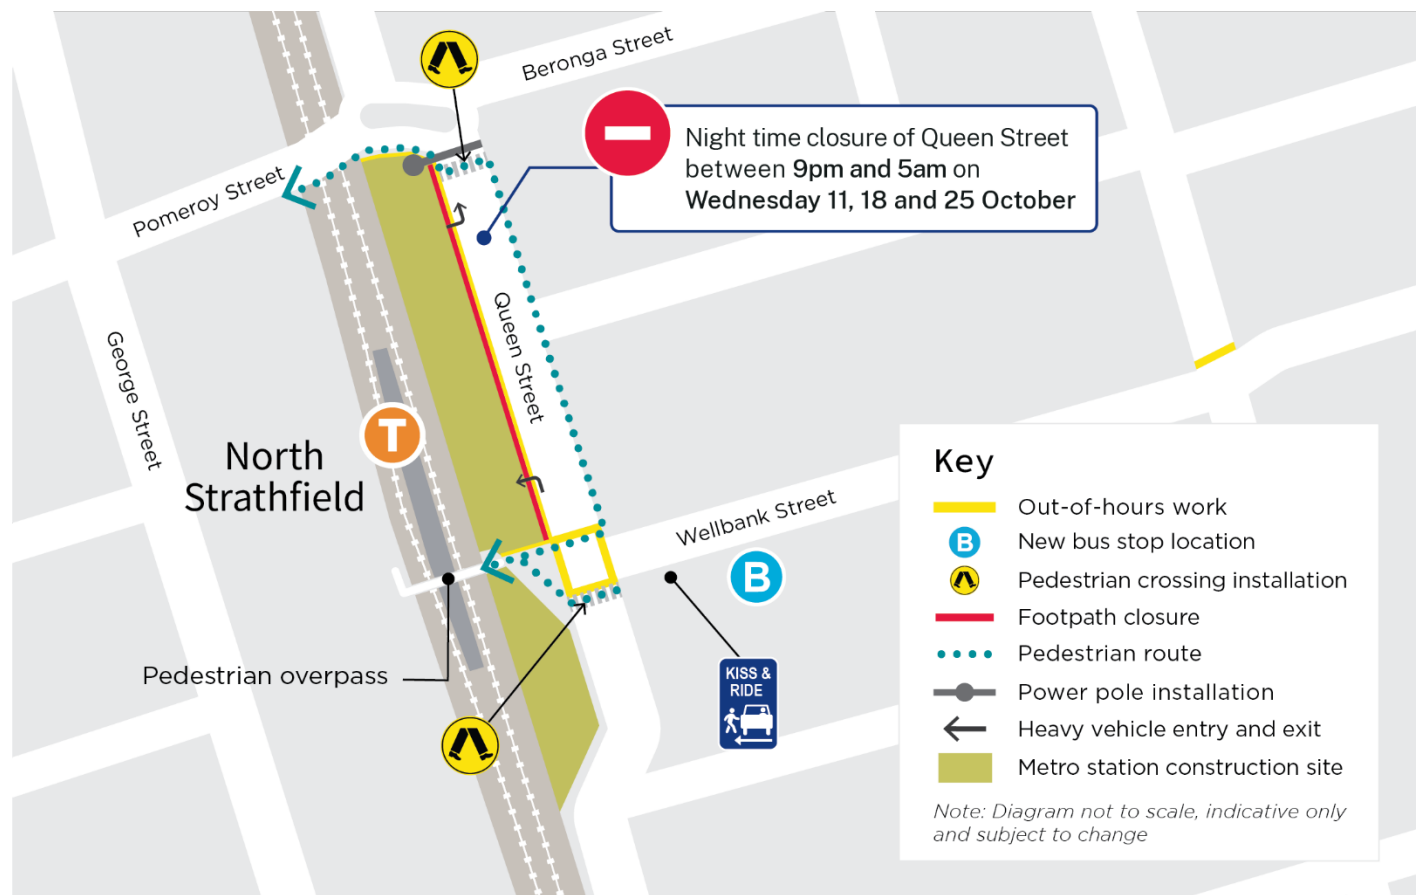

Depending on the type of work and expected impacts, a range of mitigation measures may be used such as completing the noisiest work before midnight, installing noise blankets around the worksite, implementing respite periods or providing alternative accommodation.

The project team will liaise with directly affected residents to provide more information and discuss mitigation options before the work. Separate notifications will be issued for all out-of-hours work activities.

Feedback and enquiries

If you have an enquiry or would like to provide feedback about the work, including appropriate respite periods, please contact Liz from the AFJV community team on [1800 612 173](tel:1800612173) or metrotunnelsAFJV@transport.nsw.gov.au
