

Notification – Belmore

September 2023

The T3 Bankstown Line between Sydenham and Bankstown will be closed from Saturday 23 September to Thursday 5 October for metro upgrade work.

How this impacts you

- Opal buses will replace trains during this time
- Allow extra travel time and plan your trip at transport.nsw.info
- Travel before 7am or after 9pm where possible
- Download the Opal app and turn on trip alerts to keep updated of any changes

Traffic and parking

- Temporary bus zones will be installed
- On street parking will be limited near train stations. Please check signage before parking your vehicle
- Keep a look out for trucks and heavy equipment deliveries near the train stations

Sydney Metro is Australia's biggest public transport project.

By 2030, Sydney will have a network of four metro lines, 46 stations and 113km of new metro rail.

Sydney Metro is revolutionising how Australia's biggest city travels, connecting Sydney's north west, south west and greater west to fast, reliable turn-up-and-go metro services with fully accessible stations.

Passenger services from Chatswood to Sydenham will commence in 2024, then onto Bankstown in 2025.

In September, work will continue along the corridor and at Belmore Station (weather and site conditions permitting). Work will be undertaken during standard construction hours, Monday to Friday 7am-6pm and Saturday 8am-6pm. You may also notice an increase in plant and materials being removed from our sites as contractors change over along the alignment.

Location	Details of work during standard construction hours (daytime)
Belmore (along the rail corridor)	<ul style="list-style-type: none"> • Testing & commissioning at the Station • Minor defect work • Galvanised steel trough (GST) strapping in the rail corridor • Internal works at station platform • Site investigations, surveys and associated activities • De-vegetation and tree clearing throughout the rail corridor where required • Delivery of plant and materials including preparatory activities for upcoming out-of-hours work
Around Belmore Station and at the services building site (off Redman Parade, adjacent to the rail line)	<ul style="list-style-type: none"> • Testing and commissioning at services building • Minor defect work • Ongoing termination work at services building • Local cabling for padmounts • Installation of brackets and contaminants on station platform
Belmore site compound (Bridge Road)	<ul style="list-style-type: none"> • Delivery and storage of materials, including cables, cable drums, light and heavy vehicles • Ongoing truck and traffic movements into and out of site, occasionally managed by traffic control
Lakemba substation, off The Boulevard, near Taylor Street	<ul style="list-style-type: none"> • Installation of perimeter fencing • Traffic control to facilitate truck movements on The Boulevard • Installing cables and cable supports, conduits, transformers, and mechanical and electrical fit out • Landscaping, including planting, maintenance of new trees and shrubs • Site amenities relocation

Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours, when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties close to scheduled work will be notified prior to work starting. Planned out-of-hours work is detailed in the table over the page.

Date / time	Details of out-of-hours work
Upcoming rail possession: Saturday 23 September to Thursday 5 October 2023	<ul style="list-style-type: none"> • Site investigations, surveys and associated activities • Delivery of plant and materials including preparatory activities for upcoming out-of-hours work • Installation of brackets and containments on the station platform • Installing overhead wiring footings and structures • Installation of new underground services around the station and corridor, including excavation, rock breaking and trenching work • Installation of cable service routes and galvanised steel troughing • Security fence post installation • Various works related to the segregation fencing within the rail corridor • Track related construction activities • Parking removal to facilitate parking and access at various rail access gates along the corridor • High voltage cabling and other electrical installation work in the rail corridor and substations • Voltage Limiting Device (VLD) negative cabling works • Deliver and install VMD units and cabling
Mid-week work between 6pm and 7am (for no more than 3 nights per week)	<ul style="list-style-type: none"> • Site investigations, surveys and associated activities • De-vegetation and tree clearing throughout the rail corridor where required • Delivery of plant and materials including preparatory activities for upcoming out-of-hours work • Fit and strap covers to GST along rail corridor

Equipment used for the above work will include heavy machinery (including but not limited to excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, hi-rail vehicles, elevated work platforms, concrete pumps, cranes, cable pulling equipment, road sweeper, compactors, lighting towers, forklifts, chainsaws, and water carts), and hand and power tools.

Access to buildings and driveways will be maintained at all times. Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers.

Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Grace/Alana** or email LinewideMetro@transport.nsw.gov.au. For all other work please ask for **Julie** or email SouthwestMetro@transport.nsw.gov.au.

Thank you for your cooperation while we complete this essential work.
