

Notification – Aerotropolis Metro Station

5 October 2023

Sydney Metro is Australia’s biggest public transport project.

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. A city-shaping project, the 23-kilometre new railway will connect the Western Sydney Aerotropolis in the south with St Marys in the north – where customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport opens for passenger services.

Parklife Metro consortium was awarded the station, systems, trains, operations, and maintenance contract for Sydney Metro – Western Sydney Airport in late December 2022.

Parklife Metro will deliver 12 new metro trains, six new stations between St Marys and the new Aerotropolis, rail systems and the stabling and maintenance facility to be built at Orchard Hills. Parklife Metro will operate and maintain the Western Sydney Airport line for 15 years after it becomes operational.

October and November work activity includes:

- Site establishment activities, including line marking, fencing and site signage; installation of temporary water and power supply, including service trenching and backfilling
- Minor civil works for the hardstand and parking areas, including foundations, backfilling, and levelling
- Delivery and installation of site sheds and equipment, including constructing new sheds, stairs, decking and awning for the compound
- Surveying work will occur from a vehicle-mounted camera, surveyor on foot with a camera and tripod, and a drone to capture aerial data from construction site to inform project design

- Geotechnical investigation activities, including potholing and testing
- Installing environmental controls across the work site.

Please refer to map overleaf showing work locations.

Out-of-hours work includes:

- Oversized deliveries of plant and equipment.

What to expect:

- Work and equipment used in these work activities may generate some noise, vibration, and dust. Mitigation measures will be in place to minimise these impacts, including noise and vibration monitoring, respite periods during high-noise activities, and water carts on site for dust suppression
- Increased light and heavy vehicle movements on surrounding roads
- Work will be completed during standard construction hours **Monday to Friday, 7am to 6pm** and **Saturday, 8am to 1pm**.
- Some out-of-hours work will be required to mitigate safety risks and to complete any large equipment and machinery deliveries when the road network is at its quietest.

Equipment used:

Equipment used on site includes, but not limited to, excavators, tipper trucks, elevated work platforms, franna cranes, mobile cranes, rollers, vacuum trucks, forklifts and manitoux, concrete mobile pumps, heavy and light site vehicles, watercarts, street sweepers, generators, survey equipment (marker pegs and pickets, flagging) and hand tools.

Aerotropolis work area:

A detailed noise and vibration impact statement (DNVIS) for the area has been prepared, including proposed mitigation measures and strategies to minimise disruption to nearby residents and businesses. This includes switching off equipment when not in use, using non-tonal reversing beepers, and monitoring noise, dust, and vibration throughout the duration of the work based on the DNVIS noise modelling. For further information on the modelling and mitigations, please contact the Parklife Metro on **1800 717 703** or **sydneymetrowsa@transport.nsw.gov.au**.

Contact us:

Please contact Jess, the dedicated Place Manager from the Parklife Metro community team on **1800 717 703** or email **sydneymetrowsa@transport.nsw.gov.au** if you have any questions, or would like to provide feedback about the work, including appropriate respite periods.

If you would prefer to receive updates by email, please send a request to **sydneymetrowsa@transport.nsw.gov.au** and we will add you to the distribution list. Sydney Metro has launched Sydney Metro Connect – a new way to stay informed.

You can download Sydney Metro Connect on the App Store or get it on Google Play.

We value your input regarding our communications approach and engagement.

Thank you for your cooperation while we complete this essential work.
