

Notification – Hurlstone Park

October 2023

Sydney Metro is Australia’s biggest public transport project.

By 2030, Sydney will have a network of four metro lines, 46 stations and 113km of new metro rail.

Sydney Metro is revolutionising how Australia’s biggest city travels, connecting Sydney’s north west, south west and greater west to fast, reliable turn-up-and-go metro services with fully accessible stations.

Passenger services from Chatswood to Sydenham will commence in 2024, then onto Bankstown in 2025.

In October, work will continue along the corridor and at Hurlstone Park Station (weather and site conditions permitting). Work will be undertaken during standard construction hours, **Monday to Friday 7am-6pm** and **Saturday 8am-6pm**. You may also notice an increase in plant and materials being removed from our sites as contractors change over along the alignment.

Location	Details of work during standard construction hours (daytime)
Hurlstone Park (along the rail corridor):	<ul style="list-style-type: none"> • Installation of fencing, cables and cable service route (CSR) including cable pulling • Site investigations, surveys and associated activities. • Delivery of plant and materials including preparatory activities for upcoming out-of-hours work
Around Hurlstone Park Station	<ul style="list-style-type: none"> • Utilisation of access gates and laydown areas at Keir Avenue, The Parade, Ewart Street, Railway Street and Foord Avenue • Delivery of construction plant and materials • Footpath closures for footpath works with pedestrian and traffic detours in place under the direction of traffic control (residential access will be maintained) • High level containment work for electrical and communication services • Ceiling work at concourse and on stairs • Platform equipment installation • Site shed layout adjustments as required to facilitate ongoing construction works, including the resulting traffic impacts • Landscaping work • Defect rectification works • Installation of brackets and contaminants on the station platform
Services building site off Railway Street	<ul style="list-style-type: none"> • Site investigations, surveys and associated activities • Delivery of construction plant and materials • Installation of fencing, cables, and cable service route (CSR) and troughing • Work associated with installation of future boundary fencing • Minor roofing and wall cladding works • Services connections for chiller units • Services installation within building structures including cladding and doors to progress building works • Landscaping work • Site shed layout adjustments as required to facilitate ongoing construction works, possibly resulting in local traffic impacts • Ongoing termination work at services building • Local cabling, mechanical and electrical fit out works for padmounts • Operation of generators for testing and commissioning of padmount transformers, 24 hours/day • Ongoing termination and cabling work at the services buildings
Substation site, off Hutton Street	<ul style="list-style-type: none"> • Installing cables, cable supports, and mechanical and electrical fitout inside Traction Substation Building • Landscaping including planting, maintenance of new trees and shrubs • Traffic controllers to facilitate truck movements on Hutton Street, if required • Operation of transformers for testing and commissioning purposes, 24 hours/day

Out-of-hours works

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours, when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties close to scheduled work will be notified prior to work starting. Planned out-of-hours work is detailed in the table below.

Date / Time	Details of out-of-hours work
<p>Upcoming rail possession:</p> <p>Saturday 21 October to Sunday 22 October 2023</p>	<ul style="list-style-type: none"> • Site investigations, surveys and associated activities • Delivery of plant and materials • Installation of brackets and containments on the station platform • Parking removal and lane closures to facilitate plant/truck operation, parking and access at various rail access gates along the corridor • Installing overhead wiring footings and structures • Various activities related to the segregation fence installation within the rail corridor • High voltage cabling and other electrical installation work in rail corridor and at substations • Voltage limiting device (VLD) negative cabling works • Deliver and installation of VMD units and cabling • Operation of transformers at the substation site for testing and commissioning purposes, 24 hours/day • Operation of generators for testing and commissioning of padmount transformers, 24 hours/day • Install of display cantilever arms
<p>Mid-week between 6pm and 7am (for no more than 3 nights per week)</p>	<ul style="list-style-type: none"> • Site investigations, surveys and associated activities • Delivery of plant and materials including preparatory activities for upcoming out-of-hours work • Operation of transformers at the substation site for testing and commissioning purposes, 24 hours/day • Operation of generators for testing and commissioning of padmount transformers, 24 hours/day

Equipment used for the above work will include heavy machinery (including but not limited to excavators, jack hammers, vacuum trucks, hi-rail vehicles, slashers, motorised saws, concrete trucks, elevated work platforms, concrete pumps, cranes, cable pulling equipment, road sweeper, compactors, lighting towers, forklifts, chainsaws, and water carts), and hand and power tools.

Access to buildings and driveways will be maintained at all times. Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers.

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Grace/Alana** or email linewideMetro@transport.nsw.gov.au. For all other works please ask for **Julie** or email SouthwestMetro@transport.nsw.gov.au.

Thank you for your cooperation while we complete this essential work.

If you need an interpreter, contact TIS National on **131 450** and ask them to call **1800 171 386**
