

Notification – Aerotropolis Metro Station

28 November 2023

Sydney Metro is Australia's biggest public transport project.

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. A city-shaping project, the 23-kilometre new railway will connect the Western Sydney Aerotropolis in the south with St Marys in the north – where customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport opens for passenger services.

Parklife Metro consortium was awarded the station, systems, trains, operations, and maintenance contract for Sydney Metro – Western Sydney Airport in late December 2022.

December work activity includes:

- Site establishment activities, including line marking, site signage, installation of temporary water and power supply
- Minor civil works to reconstruct our heavy vehicle haul roads, laydown areas and parking areas
- Delivery and installation of site sheds and equipment, including constructing new sheds, stairs, decking and awning for the compound
- Ongoing deliveries of machinery and equipment, including mobile cranes, excavators, piling rigs and pile reo cages
- Excavations, piling and pile trimming, formwork, steel fixing, and concrete pours inside the station box
- Surveying and geotechnical investigation activities, including potholing and testing
- Site photography, including using drone camera above the construction site
- Installing environmental controls across the work site.

Out-of-hours work includes:

- Ongoing deliveries of over-sized equipment and machinery, between **10pm and 7am, Monday to Friday**.
- Regular maintenance and security checks throughout the holiday period.

Please refer to map overleaf showing work locations.

What to expect:

- Work and equipment used in these work activities may generate some noise, vibration, and dust. Mitigation measures will be in place to minimise these impacts, including noise and vibration monitoring, respite periods during high-noise activities, and water carts on site for dust suppression
- Increased light and heavy vehicle movements on surrounding roads
- Most of our work will be completed during standard construction hours **Monday to Friday, 7am to 6pm and Saturday, 8am to 1pm**.
- Some out-of-hours work will be required to mitigate quality and safety risks, and in line with the project Environmental Protection Licence, Road Occupancy Licences, and Transport for NSW requirements. Surrounding residents will be notified in advance of any out-of-hours work.

Equipment used:

Equipment used on site includes, but not limited to, excavators, tipper trucks, elevated work platforms, franna cranes, mobile cranes, rollers, vacuum trucks, forklifts and manitoux, concrete mobile pumps, heavy and light site vehicles, watercarts, street sweepers, generators, survey equipment (marker pegs and pickets, flagging) and hand tools.

Aerotropolis work area:

Out-of-hours 3-month lookahead activities

Activity	Work hours	Timing
Oversized plant and equipment deliveries	10pm – 7am	December 2023 – March 2024

Happy holidays

Parklife Metro project team will be closing our sites from **Thursday, 21 December 2023**, and returning to site on **Wednesday, 3 January 2024** (inclusive). Throughout this period we will still be conducting routine security and maintenance checks.

We wish you and your family a safe and happy holiday period.

Contact us:

Please contact Jess, the dedicated Place Manager from the Parklife Metro community team. If you have any questions or would like to provide feedback about the work, including appropriate respite periods, please contact the team on **1800 717 703** or email **sydneymetrowsa@transport.nsw.gov.au**.

A Detailed Noise and Vibration Impact Statement (DNVIS) for the area has been prepared, including proposed mitigation measures as a result of noise modelling. We invite your feedback if alternative measures is available online at www.parklifemetro.com.au/SSTOMCCS (community). To provide feedback, please contact the Parklife Metro Community Team.

Thank you for your cooperation while we complete this essential work.
