

# Out-of-hours work notification – Pacific Highway

November 2023

Sydney Metro is Australia's biggest public transport project.

Services started in May 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD in 2024, with new metro railway stations at Crows Nest, Victoria Cross, Barangaroo, Martin Place, Pitt Street and Waterloo, and new metro platforms at Central, and then onto Bankstown in 2025.

A W Edwards is building the new Crows Nest Station. Rail track installation and the stations main structural works are now complete and fit out and exterior works are progressing.

## Pacific Highway out-of-hours-work

Work to upgrade the two existing Pacific Highway intersections at Oxley and Hume streets has been paused while we resolve issues encountered with multiple underground services.

Work is now planned to re-start **Sunday 19 November**, and will be re-sequenced as follows, to ensure multiple service clashes are avoided:

1. New in-ground services will be laid along the footpath on Pacific Highway on both the east and west sides (new power cables and potable water) and connected across the roadway.
  - a. This involves saw cutting and hammering into the footpath and roadway, excavating trenches, and installing new pipes and cables.
  - b. Road crossings and some of the work on the western footpath will occur at night and is expected to take the remainder of the year to complete.
2. Once most of the in-ground services are installed, work at the Oxley Street and Hume Street traffic intersections will resume. This work is expected to continue until March 2024.

Work to install the new in-ground services will occur between **7pm and 5am** the following morning for up to **three nights per week**, for a total of 10 nights per month, weather permitting. We will work for **two consecutive nights followed by a one-night break, then return to complete a third night of work each week**. This is expected to continue for the remainder of the year.

From January to March 2024, we will return to working two consecutive nights at each intersection for a total of four nights per week.

## What to expect

These works will **be noisy** as we will be cutting and digging into the footpath and road pavement and cutting and installing underground pipes and cables. **High noise works will stop at midnight**. Vacuum trucks will be used to remove dirt and debris.

An out-of-hours work calendar highlighting planned work nights for the month and work area and access map has been provided overleaf.

**Out-of-hours work calendar** (subject to service issues being resolved)

**Please note:** exact work locations will be confirmed in our weekly e-news. We will also advise of any cancellations via email communications. If you would like to subscribe to receive this information, please contact us.

	Contingency work nights
	No work on these nights

November 2023 work area and access map (diagram not to scale, indicative only)

The map shows the Crows Nest Station site work area (A, B, C) and associated delivery lane work areas. Clarke Lane (north) and Clarke Lane (south) are highlighted in blue. Clarke Street, Oxley Street, Pole Lane, Hume Street, Hume Lane, and Willoughby Road are also shown. Pacific Highway is at the bottom. A legend explains the symbols: blue for site work area, light blue for delivery lane work area, green dashed lines for service installation work areas, and red lines for parking removal.

Legend	
	Crows Nest Station site work area
	Delivery lane work area and associated lane and footpath closures
	service installation work areas
	Parking removal required for this work

**Thank you for your cooperation and understanding while we complete this essential work.**

If you have any questions about Crows Nest Station, please call 1800 171 386 (24-hour community information line) and ask for the **Crows Nest Station team** or email [crowsnestmetrostation@transport.nsw.gov.au](mailto:crowsnestmetrostation@transport.nsw.gov.au)

**Translating and interpreting service**
