

# Notification – Instrumentation and monitoring work, Sydney CBD

24 November 2023

## Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, link new communities to rail services and support employment growth and housing supply.

Sydney Metro has been granted planning approval to construct twin underground rail tunnels between Westmead and Hunter Street in the Sydney CBD for Sydney Metro West. John Holland CPB Contractors Ghella Joint Venture (JCG) has been awarded the contract to deliver 3.5 kilometres of twin metro rail tunnels between The Bays and Hunter Street CBD and excavate the Pyrmont and Hunter Street metro stations.

## Upcoming Instrumentation & Monitoring Work Sydney CBD

JCG will be installing above ground monitoring equipment on streets around Pyrmont to further understand and monitor ground conditions in the area. Installation work will be undertaken during standard construction hours between 7am and 6pm Monday to Friday, 8am and 6pm on Saturdays and out of hours on weekdays between 6pm and 7am from Friday 1 December to Friday 22 December.

Once equipment has been installed, low impact survey monitoring work will be carried out regularly in the area until 2026. There are no noise, traffic or pedestrian impacts associated with survey monitoring work however you may notice workers taking readings around these locations.

Please see the map over page for work locations.

### Work will involve

- Setting up of traffic management near locations to maintain traffic flow
- Installing above ground monitoring equipment for up to one shift per work location

### What to expect

Small crews occupying areas of the road or footpath

Short periods of noise when hand tools are required to secure monitoring equipment

Lane closures and pedestrian detours while installation work is being carried out

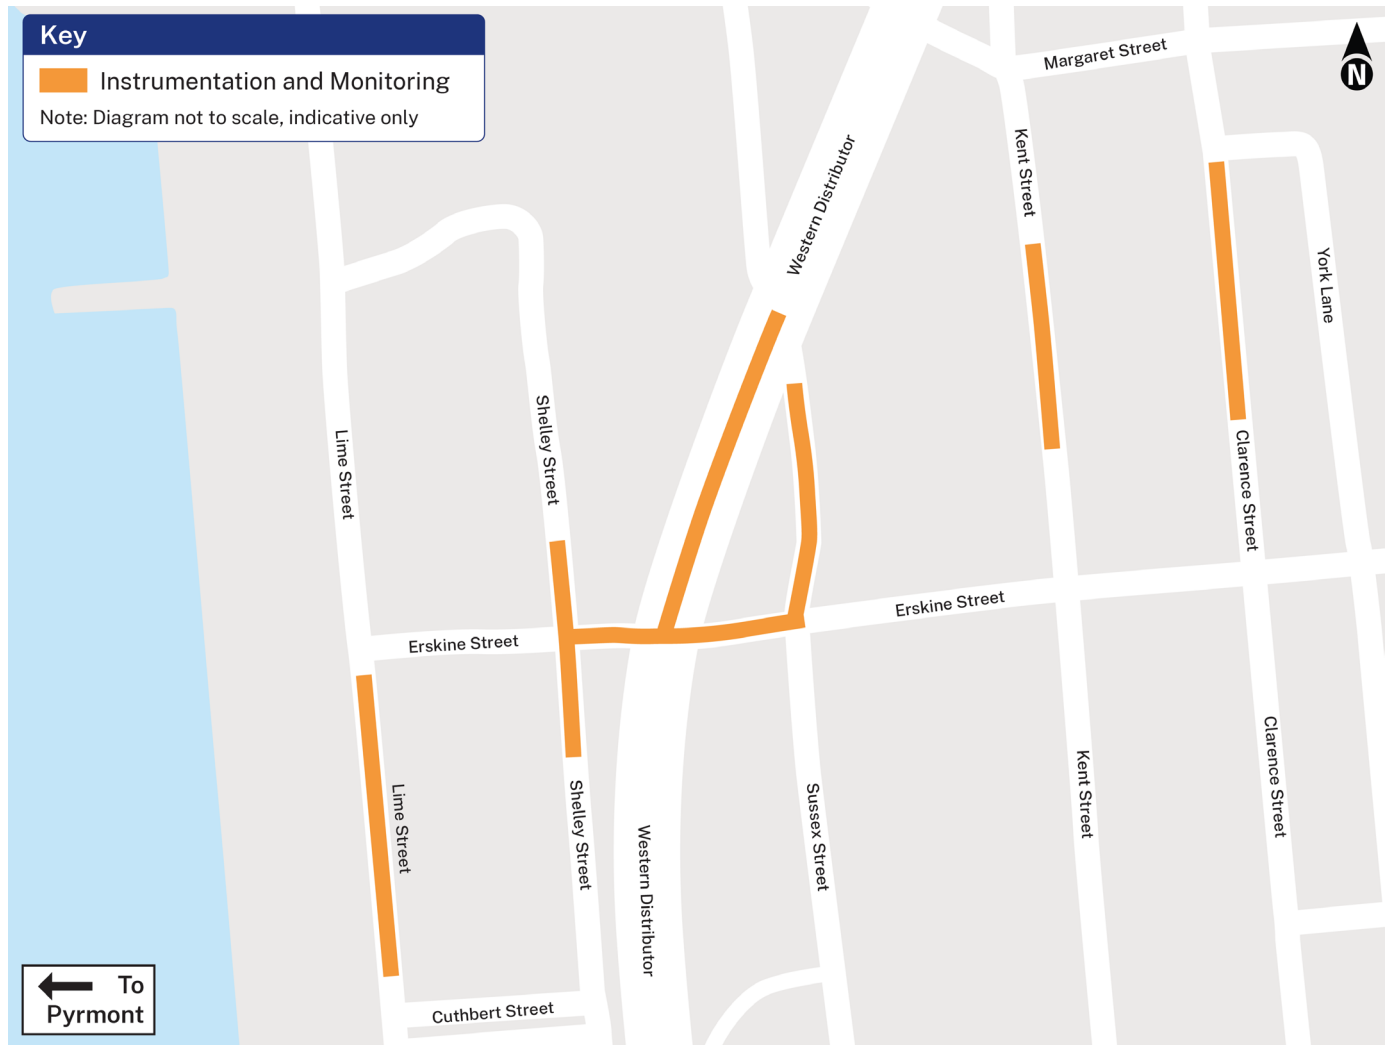

Traffic control and directional signage may be used for the safety of workers and the community

Ongoing low impact survey monitoring in the area

### Equipment used

Equipment used for works include but is not limited to; hand tools including drills, elevated work platforms, temporary fencing, light and heavy vehicles, traffic control equipment, lighting.
