

Project update – Victoria Cross

January 2024

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD in 2024, with new metro railway stations at Crows Nest, Victoria Cross, Barangaroo, Martin Place, Pitt Street and Waterloo, and new metro platforms at Central, and then onto Bankstown in 2025.

Lendlease will deliver the new Sydney Metro Victoria Cross integrated station development at North Sydney, including the metro station, over station development (OSD) and enhancements to pedestrian connections, retail and public spaces.

What work are we doing?

Upcoming work – Victoria Cross construction sites

Below is an indicative table of activities scheduled at the Victoria Cross construction sites in January.

Location	Works in January
Victoria Cross Station and OSD South site	Works may include but are not limited to: <ul style="list-style-type: none">• structural steel installation, formwork and steel fixing• concrete pouring via concrete pumps at Miller and Berry streets work zones• footpath closure on Miller Street• installing or removing scaffolding used for safe worker access• tower crane and hoist access operations• deliveries at the Miller, Berry and Denison streets work zones• delivery and installation of services and internal fit-out components• façade waterproofing and installation.
Miller Street Stormwater Works - Miller Street adjacent to South site	Works may include but are not limited to: <ul style="list-style-type: none">• establishing traffic control set up and work zone on Miller Street footpath• excavation, saw cutting, hammering and hand tools• small vehicles and deliveries.
Victoria Cross Station North site	Works may include but are not limited to: <ul style="list-style-type: none">• delivery and installation of services, internal fit-out of components• public domain works including landscaping and paving• facade installation.

Location	Works in January
Adjoining tunnels	<p>The following works are being completed by Systems Connect and MTR Corporation in the cavern and adjoining tunnels:</p> <ul style="list-style-type: none"> • completing mechanical and electrical works in the tunnels, installation and testing of tunnel ventilation system and drainage equipment, cables and terminations, trackside equipment in the tunnels and platform • testing and commissioning activities of electrical services, including power, communications and signalling equipment and systems, and dynamic train testing in the tunnels.

Upcoming out-of-hour work – Victoria Cross

The table below is an indicative schedule of out-of-hours work for January. These hours are in addition to standard working hours of 7am to 6pm Monday to Saturday.

Dates and times	Location(s)	Work
Monday to Friday mornings, 3 January to 31 January, up to three mornings a week, 4am to 7am	South site	<p>Delivery of over-size loads, including:</p> <ul style="list-style-type: none"> • removal of formwork material from site • delivery of structural steel to site • partial lane closure and footpath/pedestrian closures on Miller Street.
Monday to Friday nights, 3 January to 31 January, 6pm to 5am Sunday 7am to 6pm	South site	<p>Work involves:</p> <ul style="list-style-type: none"> • tower cranes, lighting towers, hoist operation and hand-held tools • deliveries at Miller and Berry streets work zones • concrete placing and finishing • services installation and architectural fit-out • Miller Street stormwater tank construction • footpath closure on Miller Street.
Monday to Friday nights, 1-2 nights between 11-22 January, 6pm to 3am	North site	<p>Work involves:</p> <ul style="list-style-type: none"> • placing jersey kerb barriers along Miller Street and McLaren Street, and footpaths • pedestrian diversion around site to enable landscaping completion.

What to expect

- Equipment used will include concrete pumps, elevated working platforms, mobile cranes, tower cranes, trucks, hand-held drills and light vehicles.
- Traffic, street parking and pedestrian changes to surrounding streets. Access to buildings and driveways will always be maintained.
- Traffic control and directional signage will be in place for the safety of workers, pedestrians and the community.
- Some of these activities will be noisy. The project team will limit these impacts where possible. Non-tonal reversing beepers will be used. Workers will be instructed to keep noise to a minimum.

Extended work hours

Lendlease will continue working extended hours at both Victoria Cross Station sites on Saturdays and Sundays. During the extended hours on **Saturday 7am to 8am and Sunday 7am to 6pm**, there will be no high noise activities such as rock breaking, rock hammering, sheet piling and pile driving occurring. These extended working hours are reviewed and approved under the standard out-of-hours works approval process.

Systems Connect work at Victoria Cross Station

Systems Connect (an unincorporated joint venture between CPB Contractors and UGL Limited) is delivering line-wide work including installing metro rail track, power systems and infrastructure to turn the excavated tunnels into a working railway between Chatswood and Sydenham.

Systems Connect will continue accessing the tunnels and station box via the North and South Station sites 24 hours, seven days a week, to undertake testing, maintenance and commissioning activities of mechanical and electrical services, including power, communications and signalling equipment and systems, ventilation systems and dynamic train testing in the tunnels.

For questions about the Systems Connect work please contact Hubavina Barbolova on 1800 171 386 (24-hour community information line) or email linewidemetro@transport.nsw.gov.au.

MTR Corporation work at Victoria Station

MTR Corporation is delivering the Trains, Systems, Operations and Maintenance (TSOM) work, which includes testing and commissioning activities of electrical services, including power, communications and signalling equipment and systems, ventilation systems and dynamic train testing in the tunnels between Chatswood and Sydenham. MTW Corporation will continue accessing the tunnels and station box via the North and South Station sites 24 hours, seven days a week

Thank you for your cooperation and understanding while we complete this essential work.

If you have any questions about the Victoria Cross integrated station development, please contact Elizabeth Kookarkin on **1800 171 386** (24-hour community information line) or email victoriacrossmetro@transport.nsw.gov.au.
