

Notification – Belmore

February 2024

Sydney Metro is Australia’s biggest public transport project.

By 2030, Sydney will have a network of four metro lines, 46 stations and 113km of new metro rail.

Sydney Metro is revolutionising how Australia’s biggest city travels, connecting Sydney’s north west, south west and greater west to fast, reliable turn-up-and-go metro services with fully accessible stations.

Passenger services from Chatswood to Sydenham will commence in mid-2024, then onto Bankstown in 2025.

In February, work will continue along the corridor and at Belmore Station (weather and site conditions permitting). Work will be undertaken during standard construction hours, **Monday to Friday 7am-6pm** and **Saturday 8am-6pm**. You may also notice an increase in plant and materials being removed from our sites as contractors change over along the alignment.

| Location | Details of work during standard construction hours (daytime) |
|---|--|
| Belmore (along the rail corridor) | <ul style="list-style-type: none"> • Site investigations, surveys and associated activities • Delivery of plant and materials • De-vegetation and tree clearing around the rail corridor where required • Work related to security fence installation • Parking removal and lane closures to facilitate plant/truck operation, parking and access at various locations along the corridor • Installation of cables and trackside equipment |
| Around Belmore Station and at the services building site (off Redman Parade, adjacent to the rail line) | <ul style="list-style-type: none"> • Ongoing termination and cabling work at services buildings • Defect rectification work as required • Installation of equipment, cables, cable tray and cabinets in station rooms and buildings |
| Belmore site compound (Bridge Road) | <ul style="list-style-type: none"> • Delivery and storage of materials, including cables, cable drums, light and heavy vehicles • Ongoing truck and traffic movements into and out of site, occasionally managed by traffic control |
| Lakemba substation, off The Boulevarde, near Taylor Street | <ul style="list-style-type: none"> • Installation of perimeter fencing • Installation of cables, cable supports, conduits, and transformers as well as mechanical and electrical fit outs • Landscaping, including planting and maintenance of new trees and shrubs • Site amenities relocation • Traffic control to facilitate truck movements on The Boulevarde, if required • Operation of transformers for testing and commissioning purposes, 24 hours/day • Operation of generators for testing and commissioning of padmount transformers during weekdays, standard hours • Cabling, mechanical and electrical fit-out and finishing works for padmounts, including testing |

Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours, when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties close to scheduled work will be notified prior to work starting. Planned out-of-hours work is detailed in the table over the page.

| Date / time | Details of out-of-hours work |
|--|--|
| <p>Upcoming rail possessions:</p> <p>Saturday 3 February to Sunday 4 February 2024</p> <p>Saturday 17 February to Sunday 18 February 2024</p> <p>(24/7 work)</p> | <ul style="list-style-type: none"> • Site investigations, surveys and associated activities • De-vegetation and tree clearing throughout the rail corridor where required • Mobilisation and demobilisation of plant and materials including preparatory activities for upcoming out-of-hours work • Work related to overhead wiring upgrades • Work related to the segregation and security fence installation within the rail corridor • Parking removal and lane closures to facilitate plant/truck operation, parking and access at various locations along the corridor • Testing and commissioning of new communications and signalling systems, including train testing • Operation of generators for testing and commissioning of padmount transformers, 24 hours/day • Installation of equipment, cables, cable tray and cabinets in station rooms and buildings and along the rail corridor |
| <p>Mid-week work between 6pm and 7am (for no more than 3 nights per week)</p> | <ul style="list-style-type: none"> • Site investigations, surveys and associated activities • Mobilisation and demobilisation of plant and materials including preparatory activities for out-of-hours work • Operation of generators for testing and commissioning of padmount transformers, 24 hours/day • Testing and commissioning of new communications and signalling systems, including train testing |

Equipment used for the above work will include heavy machinery (including but not limited to excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, hi-rail vehicles, elevated work platforms, concrete pumps, cranes, cable pulling equipment, road sweeper, compactors, lighting towers, forklifts, chainsaws, and water carts), and hand and power tools.

Access to buildings and driveways will be maintained at all times. Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers.

Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Grace/Alana** or email LinewideMetro@transport.nsw.gov.au. For all other work please ask for **Julie** or email SouthwestMetro@transport.nsw.gov.au.

Thank you for your cooperation while we complete this essential work.

 **1800 171 386** Community information line open 24 hours
