

Notification – Belmore

March 2024

Sydney Metro is Australia’s biggest public transport project.

By 2030, Sydney will have a network of four metro lines, 46 stations and 113km of new metro rail.

Sydney Metro is revolutionising how Australia’s biggest city travels, connecting Sydney’s north west, south west and greater west to fast, reliable turn-up-and-go metro services with fully accessible stations.

Passenger services from Chatswood to Sydenham will commence in mid-2024, then onto Bankstown in 2025.

In March, work will continue along the corridor and at Belmore Station (weather and site conditions permitting).

Work will be undertaken during standard construction hours, **Monday to Friday 7am-6pm** and **Saturday 8am-6pm**.

Location	Details of work during standard construction hours (daytime)
Belmore (along the rail corridor)	<ul style="list-style-type: none"> • Site investigations, surveys, utility locating and associated activities • Delivery of plant and materials • De-vegetation and tree clearing around the rail corridor where required • Work related to security fence installation • Parking removal and lane closures to facilitate plant/truck operation, parking and access at various locations along the corridor, as required • Installation of cables and trackside equipment
Around Belmore Station and at the services building site (off Redman Parade, adjacent to the rail line)	<ul style="list-style-type: none"> • Installation of equipment, cables, cable tray and cabinets in station rooms and buildings • Ongoing termination and cabling work at services buildings • Local cabling, mechanical and electrical fitout and high voltage energisation, finishing work, surface painting and testing of padmounts • Energisation of Metro Services Building low voltage systems via padmount • Parking removal and lane closure to facilitate plant/truck operation, parking and access at various locations along the rail corridor • Temporary footpath closure along Burwood Road for underground utility service locating (traffic management will be in place for the duration of work)
Belmore site compound (Bridge Road)	<ul style="list-style-type: none"> • Delivery and storage of materials, including cables, cable drums, light and heavy vehicles • Ongoing truck and traffic movements in and out of site, occasionally managed by traffic control
Lakemba substation, off The Boulevarde, near Taylor Street	<ul style="list-style-type: none"> • Installation of perimeter fencing • Installation of cables, cable supports, conduits, and transformers as well as mechanical and electrical fitout • Landscaping, including planting and maintenance of new trees and shrubs • Traffic control to facilitate truck movements on The Boulevarde, as required • High voltage energisation of substation • Operation of generators for testing and commissioning of padmount transformers • Cabling, mechanical and electrical fit-out and finishing works for padmounts, including testing

**From time to time we may finish work later than 6pm as we complete concrete pours. This will entail finishing off poured concrete using manual and powered floats and may continue until 10pm. This may occur on up to four separate evenings during the month. The noise impacts from this work will be very low.*

Out-of-hours works

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours, when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties close to scheduled work will be notified prior to work starting. Planned out-of-hours work is detailed in the table below.

Date / time	Details of out-of-hours work
<p>Upcoming rail possession:</p> <p>Saturday 23 March to Sunday 24 March 2024</p> <p>(24/7 work)</p>	<ul style="list-style-type: none"> • Site investigations, surveys and associated activities • De-vegetation and tree clearing throughout the rail corridor where required • Mobilisation and demobilisation of plant and materials including preparatory activities for upcoming out-of-hours work • Work related to overhead wiring upgrades • Work related to the segregation and security fence installation within the rail corridor • Parking removal and lane closures to facilitate plant/truck operation, parking and access at various locations along the corridor, as required • Testing and commissioning of new communications and signalling systems • Operation of generators for testing and commissioning of padmount transformers, 24/7 • Installation of equipment, cables, cable tray and cabinets in station rooms and buildings and along the rail corridor • Utility location and associated activities • Preliminary visual inspections of the underside of bridges and adjacent overhead wiring
<p>Mid-week work between 6pm and 7am (for no more than 3 nights per week)</p>	<ul style="list-style-type: none"> • Site investigations, surveys and associated activities • Mobilisation and demobilisation of plant and materials including preparatory activities for out-of-hours work • Operation of generators for testing and commissioning of padmount transformers, 24/7 • Testing and commissioning of equipment and services • Installation of cables and trackside equipment in the rail corridor

Equipment used for the above work will include heavy machinery (including but not limited to excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, hi-rail vehicles, elevated work platforms, concrete pumps, cranes, cable pulling equipment, road sweeper, compactors, lighting towers, forklifts, chainsaws, and water carts), and hand and power tools.

Access to buildings and driveways will be maintained at all times. Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers.

Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Grace/Alana** or email LinewidthMetro@transport.nsw.gov.au. For all other work please ask for **Julie** or email SouthwestMetro@transport.nsw.gov.au.

Thank you for your cooperation while we complete this essential work.
