

Notification - Bringelly Services Facility

Station Boxes and Tunnelling

20 June 2024

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. A city-shaping project, the

23-kilometre new railway will connect the new Western Sydney Bradfield City Centre in the south, with St Marys in the north – where customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport opens for passenger services.

CPB Contractors Ghella are delivering the Station Boxes and Tunnelling (SBT) works for Sydney Metro – Western Sydney Airport.

Out-of-hours work:

The project's standard construction hours are **Monday to Friday 7am to 6pm** and **Saturday 8am to 1pm**. Most work is carried out between these hours, however some work activities including tunnelling and tunnel support may be carried out after-hours to mitigate quality and safety risks. This is in accordance with the project Environment Protection Licence (EPL), Conditions of Approval, Road Occupancy Licences, and Transport for NSW requirements.

Concrete deliveries and concrete pours during extended hours will start on **Thursday 27 June 2024** and be carried out for **six months, 24 hours a day, seven days a week**. This work is to support cross passage construction from the Bringelly shaft.

What to expect:

- Work activities will generate noise impacts above background levels. Mitigation measures will be implemented to minimise noise emissions. Additional verification monitoring will also be undertaken to ensure noise levels are within predicted levels
- Increased work and vehicle movements in and around the work site during the extended hours.

Equipment used:

Includes (but is not limited to) concrete agitators, concrete pumps, mobile cranes, air compressors, heavy and light vehicles, lighting towers, powered hand tools and traffic control devices.

Changes to traffic, pedestrian and cyclist routes:

During these works, traffic control will be in place to assist motorists, pedestrians, and cyclists with any changes to traffic conditions. This may include contraflow and stop-slow traffic controls. The times of these changes will vary and are dependent on road authority approvals. Access to driveways and buildings will be maintained at all times. Residents will be separately notified if access to driveways will be affected or access to private property is requested.

Bringelly Services Facility work location:

Feedback:

Detailed Noise and Vibration Impact Statements (DNVIS) have been prepared, including proposed mitigation measures based on noise modelling.

We invite your feedback on appropriate respite periods or mitigation measures that may be required to your specific circumstances.

Food Activities Project tours

Sunday 7 July 2024
10am to 2pm

Learn about the Sydney Metro – Western Sydney Airport project and hear from our staff!

Come join us for an exclusive insider's tour highlighting the ongoing construction of the new metro railway line. This rare chance allows you to witness firsthand the development of the new metro bridge over the future M12 motorway and the progress at Luddenham and Bradfield Metro Stations.

Our knowledgeable tour guides will be members from our construction teams, ready to provide detailed insights and answer any questions you have about the project.

Be sure to register for the day via the [QR code](#) or visit [Sydney Metro – Western Sydney Airport Community Open Day | Register](#)

Contact us:

Please contact the community team on **1800 717 703** or sydneymetrowsa@transport.nsw.gov.au if you have any questions, complaints or would like to provide feedback about the work. We will continue to keep you updated on the progress of work in your area.

If you would prefer to receive updates by email, please contact us and we will add you to the distribution list.

Thank you for your cooperation while we complete this essential work.

Sydney Metro has launched Sydney Metro Connect – a new way to stay informed.
