

Gadigal Station – Upcoming work notification

August 2024

Sydney Metro is Australia's biggest public transport program.

Services started in May 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD in 2024, with new metro railway stations at Crows Nest, Victoria Cross, Barangaroo, Martin Place, Gadigal and Waterloo, and new metro platforms at Central, and then onto Bankstown in 2025.

Since January 2021, CPB Contractors have been delivering Gadigal Station (formerly known as Pitt Street Station) in the Sydney CBD.

Systems Connect (an unincorporated joint venture between CPB Contractors and UGL Limited) is delivering Line-wide Work, which includes installing metro rail track, power systems and infrastructure to turn the excavated tunnels into a working railway between Chatswood and Sydenham.

Work planned in August

Work in August continues with installing and upgrading utilities such as gas, sewer, power and stormwater as well as public domain work, façade installation, landscaping and pavement upgrades.

Standard work hours are **Monday to Friday, 7am to 6pm** and **Saturday, 8am to 6pm**.

Some work will be completed outside of standard construction hours:

- between **6pm and 7am, Monday to Friday**
- between **7am and 8am Saturday** and **6pm Saturday and 7am Sunday**
- between **7am and 6pm Sunday** and **6pm Sunday and 7am Monday**.

Note: The Gadigal Station team has planned the removal of a tower crane in August. Weather permitting, the disassembly and transportation of the heavy equipment is scheduled to occur during the second half of August on either 17 and 18 or 24 and 25 August, at the Gadigal Station South site. Temporary road closures and traffic changes will be in place for the duration of this work.

Please subscribe to project email updates to be kept up to date on any changes to the scheduled dates, by providing your email address to PittStreetMetro@transport.nsw.gov.au

Systems Connect work at Gadigal Station

Systems Connect will continue accessing the tunnels and station box 24 hours, seven days a week, to undertake testing, maintenance and commissioning activities of mechanical and electrical services, including power, communications and signalling equipment and systems, ventilation systems and train testing in the tunnels.

Location of work area

Work during August includes, but is not limited to:

- saw-cutting and drilling to remove the site perimeter concrete capping beam/wall
- façade installation, delivery and removal of equipment and material in and out of the sites using a crane
- assembling and dismantling of scaffolding, structures and equipment
- welding, cutting and hammering for the modification and removal of site hoarding
- public domain civil works, including installation of kerb and gutter, footpath paving, pram ramps and permanent driveway, street furniture footings, signage and bollards, bubblers, seats, benches, waste bins and bike racks
- setting up the work zone within the footpath on station street frontage and the pedestrian walkway zone on station street frontage and installing utility services following excavation of road pavements and footpaths around the sites
- landscaping works, including excavation, backfill and planting of trees
- hammering hardstand layer, potholing utility services and underground services upgrade
- use of work zones on Pitt, Park, Castlereagh and Bathurst streets for material and equipment deliveries and concrete pumping
- station, platforms and tunnels fitout, testing and commissioning of equipment and services.

Over station development (OSD) work

Oxford Properties, Investa and Mitsubishi Estate (for Parkline Place), and Oxford Properties and Investa (for Indi Sydney), with CPB Contractors as design and construction contractor, will construct the buildings over the new Gadigal Station entrances.

Construction is progressing to build Parkline Place and Indi Sydney. The work is focused on completing the façade installation and internal fit-out, and site demobilisation activities, including disassembly and removal of structures and equipment.

For more information on the OSD work, please visit the CPB Gadigal Integrated Station Development (ISD) website at bit.ly/CPBPSISD, or scan the QR code above.

Upcoming out-of-hours work

Work taking place outside standard construction hours

Due to the nature of some activities, and for the safety of the community and workers, some work can only take place during road closures outside standard construction hours.

Location	Work may include but is not limited to the following activities:
Within station site	<p>24 hours a day:</p> <ul style="list-style-type: none"> • fit-out in, internal communication rooms, high voltage electrical rooms, ventilation rooms and other basement level rooms/areas • site demobilisation activities, loading and deliveries to the Bathurst, Pitt, Park and Castlereagh streets' work zones, including oversized deliveries • concrete deliveries, pumping into site and vibratory finishing works • internal panel installation and scaffold dismantling work • essential site operation work, including maintenance, testing and commissioning of services and equipment
Streets surrounding Gadigal Station North including: <ul style="list-style-type: none"> • Pitt Street • Park Street • Castlereagh Street 	<p>From 6pm to 7am, Monday to Sunday; 7am to 8am Saturday, 7am to 6pm Sunday:</p> <ul style="list-style-type: none"> • public domain work, removal of existing pavement, ramp, kerb, gutter and installation of permanent pavement, kerb and gutter and landscaping • general landscaping, including tree planting and installation of street furniture, kerb and gutter, footpath paving work, pram ramps and permanent driveway construction • dismantling and removal of a tower crane, involving road closures and traffic detours. More information will be provided via our email updates • concrete deliveries, pumping into site and vibratory finishing works • removal and modifications to site hoarding and hoarding graphics/signage • installing external façade panels on the building.
Streets surrounding Gadigal Station South including: <ul style="list-style-type: none"> • Pitt Street • Bathurst Street 	<p>From 6pm to 7am, Monday to Sunday; 7am to 8am Saturday, 7am to 6pm Sunday:</p> <ul style="list-style-type: none"> • use of a tower crane to move material/plant and workers • public domain work, removal of existing pavement, ramp, kerb, gutter and installation of permanent pavement, kerb and gutter and landscaping • general landscaping, including tree planting and installation of street furniture, kerb and gutter, footpath paving work, pram ramps and permanent driveway construction • dismantling and removal of a tower crane, involving road closures and traffic detours. More information will be provided via our email updates • concrete deliveries, pumping into site and vibratory finishing works • removal and modifications to site hoarding and hoarding graphics/signage • installing external façade panels on the building.

What to expect during out-of-hours work

Equipment used will include but not be limited to excavators (including with rock hammering equipment), concrete trucks and pumps, concrete vibrators, mobile cranes, elevated work platforms, loaders, hammer drill, generators, lighting towers, milling machine, paver, water cart, light and heavy vehicles, tippers, dump and delivery trucks, hand-held and electric tools, demolition and road saws, jack hammers, power drills, vacuum truck, asphalt paver, welding equipment, rail and circular saws and compaction equipment including a roller.

Some of this out-of-hours work will be noisy. We aim to manage our work and apply mitigation measures to avoid impacts to the community and the environment.

This includes:

- completing the noisiest work by 12am
- only using necessary equipment for each task
- turning off equipment when not in use
- equipping all machinery with non-tonal movement alarms (squawkers) instead of beeping alarms
- scheduling breaks between noisy works for respite
- at least one respite night will be provided following every two consecutive nights of noisy work. Some low-noise work may occur during respite nights at certain locations.

There may be changed traffic and pedestrian conditions. Traffic control and directional signage will be in place for the safety of workers and the community. Local access will be maintained at all times.
