

# Project Update – Crows Nest Station

## Hume Street out-of-hours work Thursday 24 October

As advised in our October monthly notification, A W Edwards is carrying out completion and rectification works on all streets surrounding the three station buildings.

On **Thursday 24 October 2024**, work will be carried out at night between **7pm and 5am** the following morning to remove and replace a section of roadway on Hume Street between Pacific Highway and Nicholson Place. This work is expected to take one night to complete with contingency **Sunday 27 October 2024**.

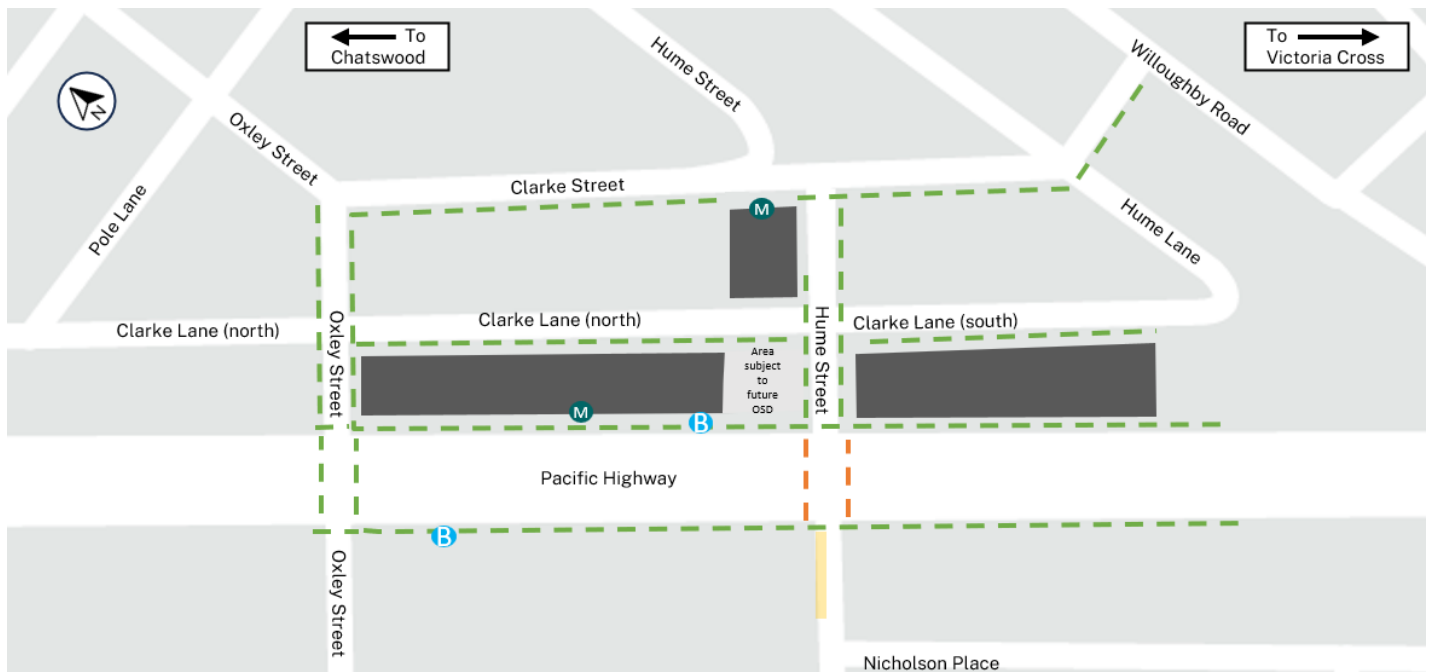

### What to expect

Some of this work will be noisy as we will be using jackhammers and road saws. To minimise impact, noise mitigation measures will be in place including stopping saw cutting and hammering at midnight. Noise barriers will also be used where feasible. Lower impact activities, such as road compacting, will then continue until 5am.

Vehicle access on Hume Street will be maintained throughout the work, however lane capacity will be reduced. Pedestrians may be directed to use the southern crossing at the Hume Street intersection. Signage and traffic control will be in place to safely manage pedestrian and vehicle movements around the work.

Please contact us via the methods below with any questions.
