

Construction update – Claremont Meadows Services

Sydney Metro is Australia’s biggest transport project.

December 2024

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. A city-shaping project, the 23-kilometre new railway will connect the Western Sydney Aerotropolis in the south with St Marys in the north – where customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport open for passenger services.

CPB Contractors Ghella (CPBG) are completing the station boxes and tunnelling works for Sydney Metro – Western Sydney Airport.

December work activity includes:

- Commencing demobilisation works in preparation of handover to the SSTOM contractor
- work within the tunnels between the future Orchard Hills Station and St Marys Station.
- concreting works for the tunnel base slabs and various structures, including waterproofing, steel fixing, formwork and concrete pours
- works on the surface and within the shaft for the Claremont Meadows Services Facility shaft walls, including waterproofing, steel fixing, formwork and concrete pours
- ongoing deliveries of plant, equipment and materials, including crane operations
- site photography, including using drone cameras over the construction site.

Please see map overleaf for work locations.

Most work will be carried out during standard construction hours **Monday to Friday 7am to 6pm** and **Saturday 8am to 1pm**. Some out-of-hours work activities will be carried out to mitigate quality and safety risks, and in line with the project Environment Protection Licence, Road Occupancy Licences, and Transport for NSW requirements. Surrounding residents and businesses will be notified in advance of any out-of-hours work.

Tunnelling support works are ongoing, **24 hours a day, seven days a week**.

Out-of-hours work in December includes:

- Tunnel and cross-passage support works
- Concrete works, including installation of steel reinforcement, formwork and concrete lining to build the tunnel base slab and various structures
- Crane and water treatment plant operations
- Oversized plant and equipment deliveries

Three monthly out-of-hours lookahead activities:

Activity	Equipment	Work hours	Timing
SBT works			
Concrete works, including steel fixing, formwork and concrete lining to build the tunnel base slab and various structures	Concrete trucks, shotcrete pumps, forklifts, elevated work platform towers, hand tools and heavy and light vehicles	24 hours a day, seven days a week	Ongoing – December 2024
Oversized plant and equipment deliveries	Forklifts, mobile cranes, elevated work platforms, lighting towers, heavy and light vehicles	24 hours a day, seven days a week	Ongoing – December 2024

What to expect:

- Work activities will generate noise, vibration, dust. Mitigation measures will be in place to minimise these impacts including noise and vibration monitoring, respite periods and dust suppression
- Worker and heavy vehicle movements in and around the work site.

Equipment used:

Includes (but is not limited to) traffic management devices, drone cameras, vacuum excavation vehicle, excavators with hydraulic attachment, heavy vehicles and trailers, drilling rig, bolting rig, shotcrete rig, roller, concrete agitators, concrete pumps, shotcrete pump, water carts, pneumatic drills, concrete saws, mobile cranes, elevated work platforms, bobcats, chain saws, power generators, compaction rammers, survey equipment, light vehicles, speciality survey vehicles, spoil trucks and earthworks equipment.

Changes to traffic, pedestrian and cyclist routes:

When required, traffic controllers and signage will be in place to assist motorists, pedestrians and cyclists safely around work areas. Traffic changes may include lane closures, contraflow traffic flow and stop-slow traffic controls along Gipps Street. The times of these changes will vary and are dependent on road authority approvals. Property owners will be separately notified if access to driveways will be affected.
