

Project Update – Crows Nest Station

Pacific Highway out-of-hours work April 2025

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. On 19 August 2024, services began on the new section of the M1 Line, including 15.5 kilometres of metro rail extending from the existing Metro North West at Chatswood, under the harbour and through the Sydney CBD and onto Sydenham. Commuters can now catch metro services every four minutes in the peak from new stations at Crows Nest, Victoria Cross, Barangaroo, Martin Place, Gadigal and Waterloo, and new metro platforms at Central.

While all city stations are now open, commuters will notice hoarding and minor ongoing work in the precinct areas at most new stations. This work largely involves improvements to roads, footpaths and traffic intersections.

Underground conduit work

As advised in our April 2025 project update, additional work will be required to replace existing underground conduits so that cable pulling work can resume.

Starting **Tuesday 8 April 2025**, work will be carried out at night between **7pm and 5am** the following morning to repair and replace sections of conduit along Pacific Highway between Albany Street and Oxley Street. The work will be carried out over a month as detailed in the table below. **No works will be carried out Wednesday 16 to Saturday 26 April.**

Dates	Location	Work	What to expect
Tuesday 8, Wednesday 9, Thursday 10, Sunday 13 and Monday 14 April (five nights) with contingency Sunday 27, Monday 28, Wednesday 30 April, Thursday 1 and Sunday 4 May	Eastern side of Pacific Highway between Oxley and Albany streets	Unblocking and repairing underground conduits.	This work will involve use of water jets, hand tools, light vehicles and a small vacuum truck and is expected to be of a low impact.
<i>*If the contingency dates are required for the above work, all subsequent work dates will be delayed. A slip with updated dates will be provided to all impacted properties if this occurs.</i>			
Sunday 27 and Monday 28 April (two nights) with contingency Wednesday 30 April and Thursday 1 May	Adjacent to 545-553 Pacific Highway building	Installation of a new services pit.	This work will be noisy as it will involve cutting and digging into the footpath. A vacuum truck will be in use to remove dirt and debris.
Wednesday 30 April, Thursday 1, Sunday 4, Monday 5, Wednesday 7, Thursday 8, Sunday 11 May (seven nights) with contingency Monday 12, Wednesday 14, Thursday 15, Sunday 18, Monday 19, Wednesday 21 and Thursday 22 May	Between 545-553 Pacific Highway and Crows Nest station building	Installation of a new services conduit.	This work will be noisy as it will involve cutting and digging into the roadway. A vacuum truck will be in use to remove dirt and debris.

What to expect

Some of this work will be noisy as it will involve cutting and digging sections of the road and footpath.

Mitigation measures will be in place to reduce noise including stopping certain high-noise activities, such as saw cutting and hammering at **12 midnight**.

Works may continue past 12 midnight, but these will be lower impact activities, such as concrete pouring, trenching with an excavator, road compacting, and the use of a vacuum truck.

Some of these activities will block sections of the footpath and road, and adjacent parking spaces may also be temporarily impacted. Traffic control and signage will be in place to safely direct motorists, pedestrians, and cyclists through these changes.

Work area and access map

Contact us

Thank you for your ongoing cooperation and understanding while we complete this essential work.

A W Edwards have handed over the station buildings to operator MTS. Should you have any operational questions or issues please use the feedback form at transport.nsw.info/contact-us/feedback/metro-feedback

Over-station development contractor Thirdi have commenced works within the station's retail spaces. **This work is not related to Sydney Metro.** For further information about this work please contact 9409 7200.

If you have any questions about remaining work activities, please contact us via the methods below.
