

# Monthly Notification – Hurlstone Park Station

April 2025

The NSW Government recently announced that the extension of Sydney Metro services from Sydenham to Bankstown will now be completed in 2026.

Fare free Southwest Link buses will continue to replace trains between Sydenham and Bankstown during this time.

You can plan your trip at [transportnsw.info](https://transportnsw.info) and on real time apps. Kerbside changes may also be in place around the affected train stations for temporary bus zones. Please check signage before parking your car.

## Sydney Metro work during April and May

Work will continue during and outside of standard construction hours within and around Hurlstone Park Station during April/May. The main activities will include:

- Modification of cable service routes, cables, overhead wires and equipment in rail corridor, at substations and at the station
- Delivery and storage of materials, including cable drums and equipment using light and heavy vehicles
- Installation of containment, cables and communications equipment in station platforms and buildings, and the rail corridor
- Energisation of equipment in stations and service buildings
- Testing, commissioning and maintenance of services and equipment across the train sub-systems in stations, and along the track corridor, including dynamic train testing activities and trackside inspections
- Installation, testing and commissioning of rail corridor security systems including CCTV, foundations, poles, outdoor equipment cabinets, solar panels, cable pits and cable containment (involving use of a vacuum truck)
- Site investigations, surveys and associated activities and building and containment works
- De-vegetation and tree clearing throughout the rail corridor where required
- Mobilisation and demobilisation of plant and materials
- Work related to security and segregation fence installation and signalling
- Parking removal and lane closures to facilitate plant and truck operation around the station and at various locations
- Work at station buildings and platforms installing electrical works, mechanical gap fillers and platform screen doors
- Track related construction activities and work related to high and low voltage wiring
- Protection screen installation on Melford Street overbridge
- Installation of panels at the Garnet Street overbridge
- During the last weekend in March there will be oversized deliveries, crane lifts, impacts to parking and access changes at Duntroon Street overbridge and Melford Street overbridge
- Oversized delivery of off-structure beam and installation of screen barriers and guardrails at the overbridge
- Installation of weathering steel off-structure beam with steel and mesh safety screen barriers at the overbridge
- Continuing operation of site laydown at the Floss Street carpark for preparation and installation of off-structure beam
- Temporary bus stop relocation, parking removal on surrounding streets and in local carparks
- Testing and commissioning of services and electrical works within the metro services building
- Defect rectification work

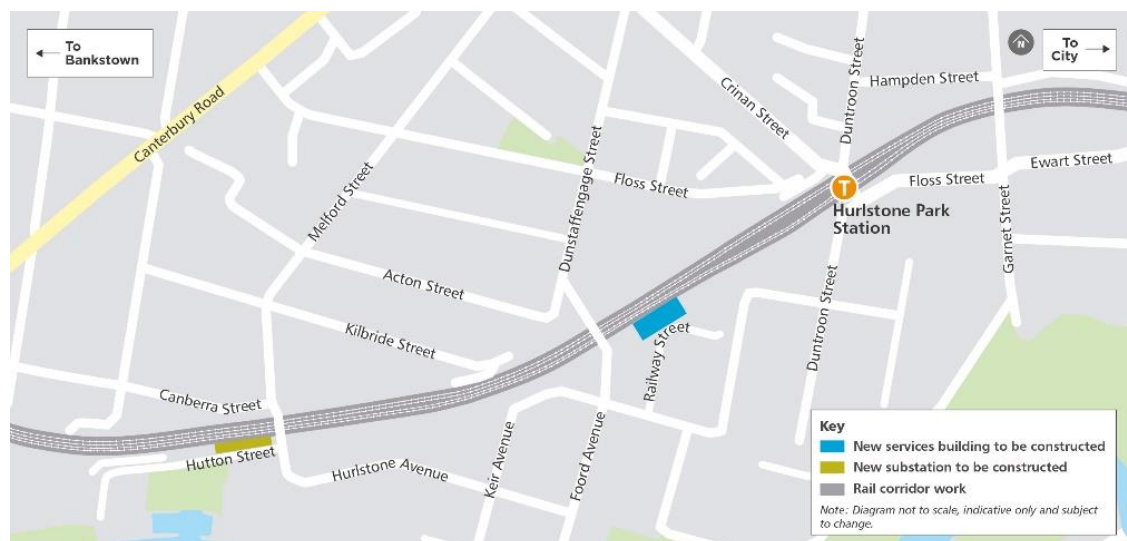

## Hours of work

Standard construction hours are Monday to Friday 7am – 6pm and Saturday 8am – 6pm excluding Public Holidays and Sundays. Some activities must be undertaken outside standard construction hours to minimise impacts on traffic and to ensure the safety of motorists, pedestrians and workers. Respite hours will be implemented in line with the project's approvals. Highly impacted residents will be notified separately.

## What to expect

- Equipment used includes, but is not limited to excavators (including rock hammering equipment), concrete trucks and pumps, concrete vibrators, mobile cranes, elevated work platforms, loaders, rail tamper, hammer drill, rail grinder, hi-rail vehicles, generators, lighting towers, milling machine, paver, water cart, light and heavy vehicles, tippers, dump and delivery trucks, hand-held and electric tools, demolition and road saws, jack hammers, power drills, vacuum truck, asphalt paver, welding equipment, rail and circular saws and compaction equipment including a roller.
- The project team will take every step possible to minimise noise impacts, however some of this work will be noisy. A range of measures are in place to reduce noise and meet the project's approval conditions, including noise barriers, using only the necessary equipment for each task, turning off equipment when not in use and equipping machinery with non-tonal movement alarms.
- Train testing activities will be undertaken during the day and at night.
- Some equipment may be transported outside of standard construction hours in line with Transport for NSW requirements for transporting oversized vehicles.
- Access to buildings and driveways will be maintained at all times.
- We will park our vehicles along the rail corridor where possible however, please be aware that on-street parking may be limited near worksites, particularly during planned rail possessions.

## Thank you for your cooperation and understanding while we complete this essential work
