

# Monthly Notification – Dulwich Hill Station

June 2025

The NSW Government recently announced that the extension of Sydney Metro services from Sydenham to Bankstown will now be completed in 2026.

**Fare free Southwest Link buses will replace trains between Sydenham and Bankstown during this time.**

You can plan your trip at [transportnsw.info](https://transportnsw.info) and on real time apps. Kerbside changes may also be in place around the affected train stations for temporary bus zones. Please check signage before parking your car.

## Sydney Metro work during June and July

Work will continue during and outside of standard construction hours within and around Dulwich Hill Station during June and July. The main activities will include:

- Modification of cable service routes, cables, wires and equipment in the rail corridor, at substations and the station
- Mobilisation and demobilisation of plant and materials
- Delivery of materials and equipment using light and heavy vehicles
- Installation of cables and communications equipment in station platforms, buildings and the concourse
- Energisation of equipment in stations, service buildings and corridor boundary gates
- Adjustments to corridor boundary gates and track signal equipment
- Testing and commissioning activities along the corridor and at station and service buildings
- Low speed dynamic train testing, with trains travelling up to 25 kilometres per hour
- Installation, testing and commissioning of rail corridor security systems including CCTV, foundations, poles, outdoor equipment cabinets, solar panels, cable pits and cable containment. This work may include excavation of soil using a vacuum truck, which will cause some noise.
- Site investigations, surveys and associated activities
- De-vegetation and tree clearing throughout the rail corridor where required
- Work related to security and segregation fence installation and signalling
- Parking removal and lane closures to facilitate plant and truck operations around the station and in the rail corridor
- Work at station buildings and platforms including mechanical gap fillers and platform screen doors
- Track related construction activities
- Work related to overhead wiring, high and low voltage wiring and local utilities
- Work on various bridges along the corridor
- Landscaping and civil works outside Dulwich Hill Station on Wardell Road
- Landscaping work outside the Dulwich Hill Light Rail stop entrance on Bedford Crescent (access maintained)
- Bridge remediation work (including night work) involving workers accessing the rail corridor at Wardell Road
- Associated footpath and pedestrian crossing closures, partial lane closures and pedestrian detours on the Wardell, Albermarle and Garnet Street overbridges
- Concreting work for barriers on the southern side of Albermarle Street overbridge
- Installation of anti-throw screens at Albermale Street overbridge (including work at night)
- Concreting work for barriers on Wardell Road overbridge
- Installation of bollards and barriers near station entrance
- Asphaltting, line marking and remediation to Wardell Road
- Parking removal on the Garnet Street overbridge
- Investigations and installation of fencing along the rail corridor requiring temporary parking removal
- Defect rectification works as required

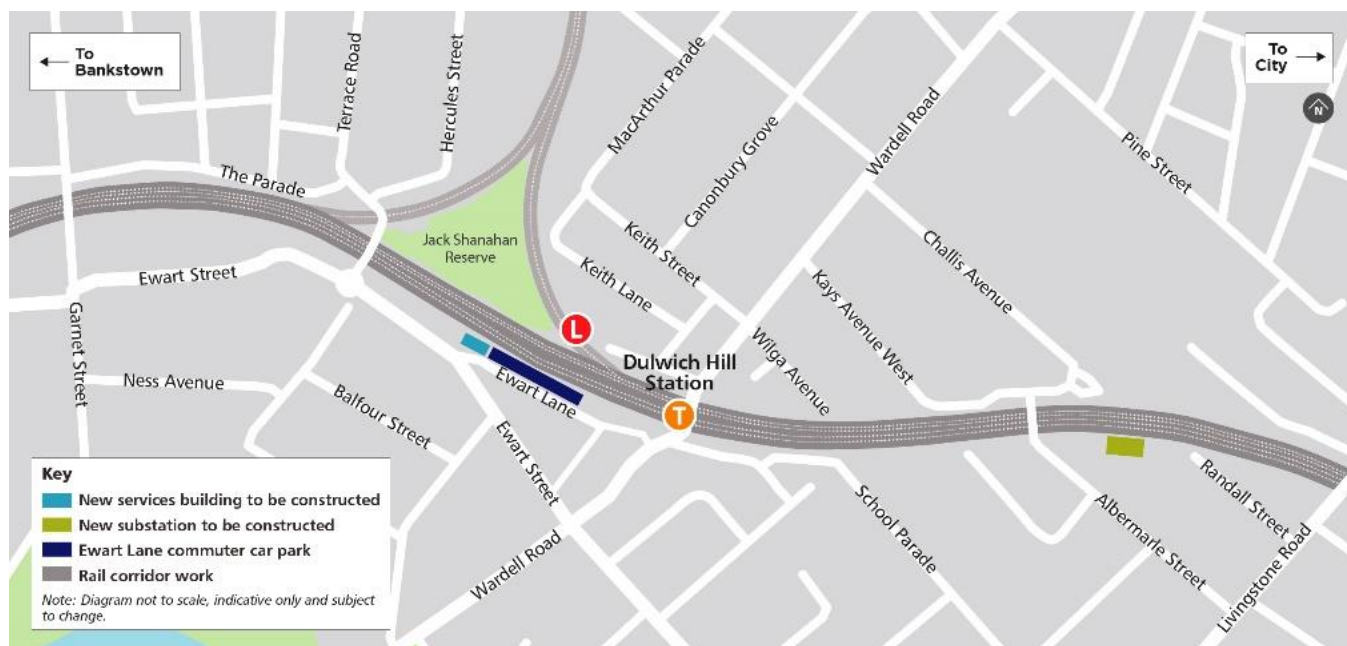

## Hours of work

Standard construction hours are Monday to Friday 7am – 6pm and Saturday 8am – 6pm excluding Public Holidays and Sundays. Some activities must be undertaken outside standard construction hours to minimise impacts on traffic and to ensure the safety of motorists, pedestrians and workers. Respite hours will be implemented in line with the project's approvals. Highly impacted residents will be notified separately.

## What to expect

- Equipment used includes, but is not limited to excavators (including rock hammering equipment), concrete trucks and pumps, concrete vibrators, mobile cranes, elevated work platforms, loaders, rail tamper, hammer drill, rail grinder, hi-rail vehicles, generators, lighting towers, milling machine, paver, water cart, light and heavy vehicles, tippers, dump and delivery trucks, hand-held and electric tools, demolition and road saws, jack hammers, power drills, vacuum truck, asphalt paver, welding equipment, rail and circular saws and compaction equipment including a roller.
- The project team will take every step possible to minimise noise impacts, however some of this work will be noisy. A range of measures are in place to reduce noise and meet the project's approval conditions, including noise barriers, using only the necessary equipment for each task, turning off equipment when not in use and equipping machinery with non-tonal movement alarms.
- Some construction and testing activities will take place **at night and on weekends**, depending on the program schedule and worker safety considerations.
- Some equipment may be transported outside of standard construction hours in line with Transport for NSW requirements for transporting oversized vehicles.
- Access to buildings and driveways will be maintained at all times.
- We will park our vehicles along the rail corridor where possible however, please be aware that on-street parking may be limited near worksites, particularly during planned rail possessions.

Thank you for your cooperation and understanding while we complete this essential work.
