

Notification – Airport Business Park and Airport Terminal Metro Stations

Sydney Metro is Australia's biggest transport project.

July 2025

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. A city-shaping project, the new 23-kilometre metro railway will connect Bradfield city centre with St Marys in the north – where customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport opens for passenger services.

Parklife Metro consortium is delivering the Stations, Systems, Trains, Operations and Maintenance (SSTOM) works. See the list below for the work activities at Airport Business Park and Airport Terminal Stations during July.

Ongoing activities include:

Airport Terminal and Airport Business Park Station works:

- tower and mobile crane operations at Airport Terminal and Airport Business Park sites
- ongoing deliveries of machinery, materials, and equipment
- delivery and installation of precast beams, planks and platforms
- formwork, steel fixing and concrete pours for internal, perimeter walls and suspended slabs
- site photography, including using drone camera above construction sites.

Linewide works:

- ongoing deliveries of materials, machinery and equipment to the dive site compound at Gate 11 Badgerys Creek Road and Elizabeth Drive site compound areas
- formwork, reinforcement and concrete pour work in the tunnels
- installation of overhead catenary system structure (OCSS) and installation of the combined service route (CSR) and all electrical, communication and signalling conduit
- installation of cable containment, ventilation fans, hydrant pipes and rail track in the tunnels.

Out-of-hours work includes:

- delivery and installation of precast beams, planks and platforms to Airport Terminal site
- ongoing deliveries of over-sized equipment, machinery and materials
- rail track installations
- concrete pours
- service installations and surveying
- steel fixing and formwork installation
- activities associated with tunnelling **24 hours a day, 7 days per week.**

Impacted surrounding residents and businesses will be notified in advance of any out-of-hours work.

Work hours:

Some work will be required to take place outside standard construction hours to minimise traffic impacts or to ensure the safety of pedestrians, motorists, and our workers. Out-of-hours work activities will be carried out in line with the project Environmental Protection Licence, Road Occupancy Licences, and Transport for NSW requirements.

What to expect:

- there may be some noise associated with the work, but we will try to minimise this as much as possible
- strict safety and environmental controls will be in place for all work
- vehicles will be parked within the construction site.

Changes to traffic, pedestrian and cyclist routes:

During these works, traffic control will be in place to assist motorists, pedestrians and cyclists with any changes to traffic conditions. This may include contraflow and stop-slow traffic controls. The times of these changes will vary and are dependent on road authority approvals. Access to driveways and buildings will be maintained at all times. Residents will be separately notified if access to driveways will be affected or access to private property is requested.

Three monthly out-of-hours lookahead activities:

Activity	Equipment	Work hours	Timing
Oversized plant and equipment deliveries to the Airport Business Park and Airport Terminal sites	Traffic management, light and heavy vehicles, generators, lighting towers, tower cranes and mobile cranes.	24 hours a day, seven days a week	Ongoing - February 2026
Steelfixing, waterproofing, and finishing works for station walls, suspended slabs and columns at the Airport Business Park and Airport Terminal sites	Tower and mobile crane operation, elevated working platforms (EWP's) generators, and lighting towers.	24 hours a day, seven days a week	Ongoing - February 2026
Delivery and installation of Structural steel at the Airport Business Park	Tower and mobile crane operation, elevated working platforms (EWP's) generators, and lighting towers.	As required – 7am to 12am (midnight), Monday to Friday	August 2025 – October 2025
Linewide: concreting and tunnel fit out works in the tunnels Rail track installations	Drill rigs, bolting rig excavators, concrete agitator, concrete pump, powered hand tools, survey equipment, light vehicles, forklifts, telehandlers, powered hand tools.	24 hours a day, seven days a week	Ongoing - February 2026
Linewide: Concreting and formwork Oversized deliveries of plant and materials Rail track installations Service utility installations and surveying <small>*This work scope is for the above-ground section of the project alignment from Luddenham Road, Luddenham to the Western Sydney Airport Land.</small>	Excavators, cranes, dump trucks, water carts, heavy and light site vehicles, generators, traffic management devices, concrete agitators, pneumatic drills, concrete tools and hand tools.	7am Mondays through to 6pm Saturdays (24 hours) 7am to 6pm Sundays	July 2025 – February 2026

**Activities associated with the Airport stations and Linewide works will operate 24 hours a day, 7 days per week*

Feedback:

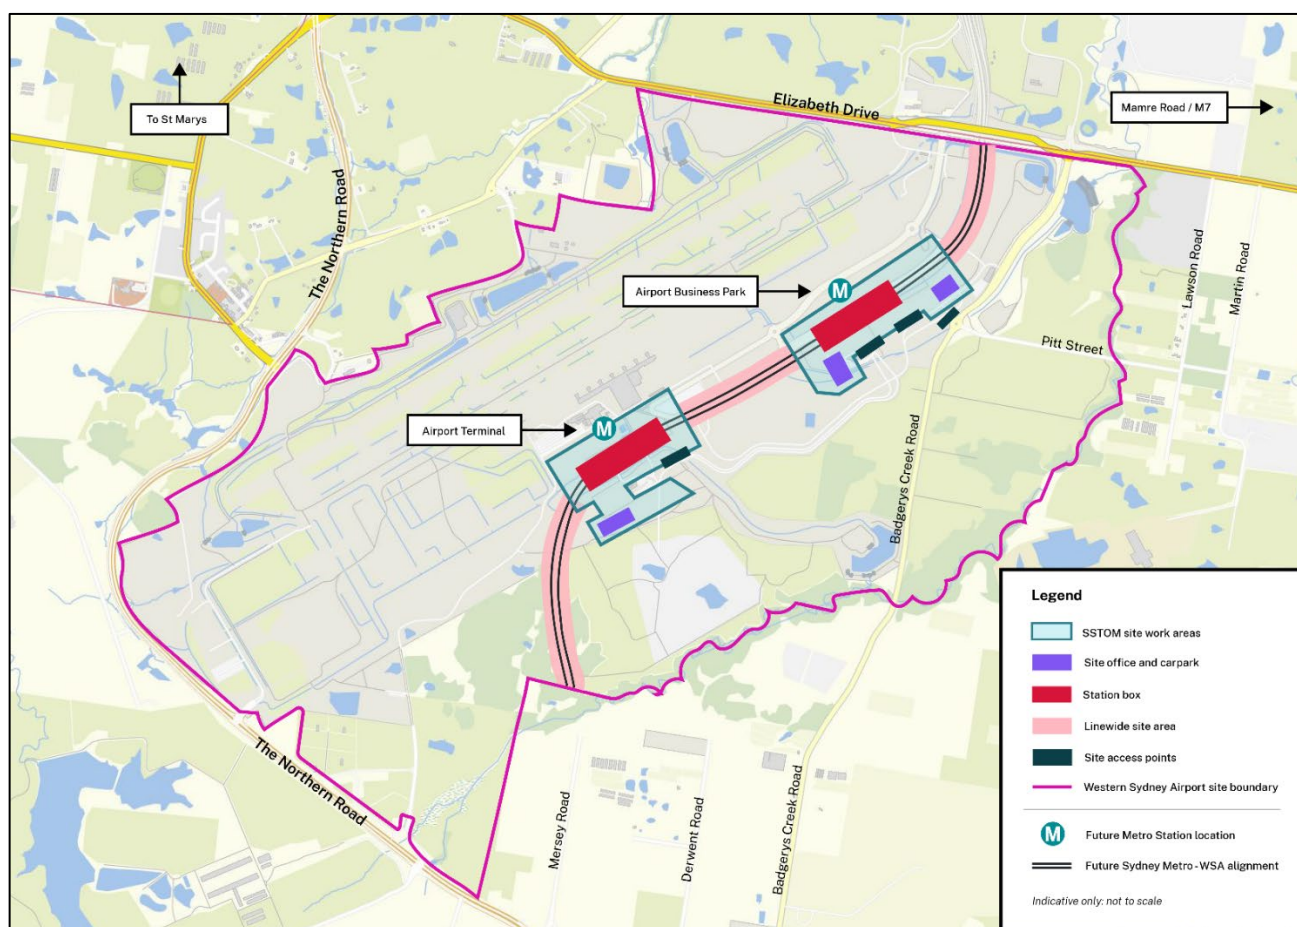

Detailed Noise and Vibration Impact Statements (DNVIS) have been prepared, including proposed mitigation measures based on noise modelling. Your feedback on appropriate respite periods or mitigation measures is encouraged. The SSTOM Community Communications Strategy is online.

Please visit www.parklifemetro.com.au to view these documents and contact us to provide any feedback.

If you would prefer to receive updates by email, please let us know via sydneymetrowsa@transport.nsw.gov.au and we will add you to the distribution list.

Thank you for your cooperation while we complete this essential work.
