

# Cross passage work: Bowman Street, Pyrmont

23 June 2025

## Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, link new communities to rail services and support employment growth and housing supply.

John Holland CPB Contractors Ghella Joint Venture (JCG) has been awarded the contract to deliver 3.5 kilometres of twin metro rail tunnels between The Bays and Hunter Street and excavate the Pyrmont and Hunter Street metro stations.

## Cross passage work: near Bowman Street

The first stage of the underground cross passage works near your property is progressing well.

Installation of ground and steel support has been completed, which will allow the concrete tunnel lining to be removed to commence excavation.

Excavation works will commence in June with completion expected late August.

*The image below was taken inside the tunnel and shows the progress of the cross-passage works*

## Cross passage construction activities

- Drilling, saw cutting and installing ground support
- Excavating the cross passage using a rock hammer
- Installing waterproofing and concrete lining
- Removing excavated material via The Bays site

## Work hours

- Cross passage construction work will occur 24 hours a day, 7 days per week.
- Cross passage excavation work including rock hammering will occur **from 8am to 10pm Monday to Sunday.**

## What to expect

- Some vibration and ground borne noise may be experienced during cross passage excavation work
- You may notice tunnelling surveyors taking readings from ground monitoring devices previously installed, located on roadways, footpaths and buildings in your area

## Equipment and machinery

May include but is not limited to: excavators with rock hammers, drills, saws, elevated work platform, concrete trucks and equipment.
