

# Notification – Claremont Meadows Services Facility

Sydney Metro is Australia's biggest transport project.

September and October 2025

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. A city-shaping project, the 23-kilometre new railway will connect the Western Sydney Aerotropolis in the south with St Marys in the north – where customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro – Western Sydney Airport operational when the airport open for passenger services.

Parklife Metro consortium is delivering the Stations, Systems, Trains, Operations and Maintenance (SSTOM) works. See the list below for the work activities at Claremont Meadows Services Facility in September and October

## September and October work activity includes:

- work within the tunnels between the future Orchard Hills Station and St Marys Station
- concreting works for the tunnels and shaft
- works on the surface and within the shaft for the Claremont Meadows Services Facility
- ongoing deliveries of plant, equipment and materials
- use of a gantry crane
- operation of ventilation fans inside the tunnels
- site photography, including using drone cameras over the construction site.

## Work hours:

Most work will be carried out during standard construction hours **Monday to Friday 7am to 6pm** and **Saturday 8am to 1pm**. Some work will be required to take place outside our standard construction hours to minimise traffic impacts or to ensure the safety of pedestrians, motorists, and our workers. Out-of-hours work activities will be carried out in line with the project Environmental Protection Licence, Road Occupancy Licences, and Transport for NSW requirements.

Surrounding residents and businesses will be notified in advance of any out-of-hours work.

Tunnelling support works are ongoing, **24 hours a day, seven days a week**.

## Out-of-hours work in September and October includes:

- work within the tunnels between the future Orchard Hills Station and St Marys Station
- concreting works for the tunnels and shaft
- works on the surface and within the shaft for the Claremont Meadows Services Facility
- ongoing deliveries of plant, equipment and materials delivery, installation and use of a gantry crane.

## What to expect:

- non-tonal reverse alarms on machinery (squawkers used)
- low tonal alarm from crane work
- intermittent noise from hand tools
- low constant noise from ventilation fans
- worker and heavy vehicle movements in and around the work site at low speed
- measures will be in place to minimise these impacts including noise and vibration monitoring, respite periods and dust suppression.

## Equipment used:

Includes (but is not limited to) traffic management devices, drone cameras, vacuum excavation vehicle, excavators with hydraulic attachment, heavy vehicles and trailers, drilling rig, telehandlers, bolting rig, shotcrete rig, roller, concrete agitators, concrete pumps, shotcrete pump, water carts, pneumatic drills, concrete saws, mobile cranes, elevated work platforms, bobcats, chain saws, power generators, compaction rammers, survey equipment, light vehicles, speciality survey vehicles, spoil trucks and earthworks equipment.

## Three monthly out-of-hours lookahead activities:

Activity	Equipment	Work hours	Timing
<b>SSTOM works</b>			
<b>Concrete works</b>	Concrete trucks, shotcrete pumps, forklifts, elevated work platform towers, hand tools and heavy and light vehicles	<b>24 hours a day, seven days a week</b>	Ongoing
<b>Oversized plant and equipment deliveries</b>	Forklifts, concrete placement unit, mobile cranes, elevated work platforms, lighting towers, heavy and light vehicles,	<b>24 hours a day, seven days a week</b>	Ongoing
<b>Use of a gantry crane</b>	Light and heavy vehicles, cranes, hand and powered tools, generators, and lighting towers	<b>24 hours a day, seven days a week</b>	Ongoing

## Feedback:

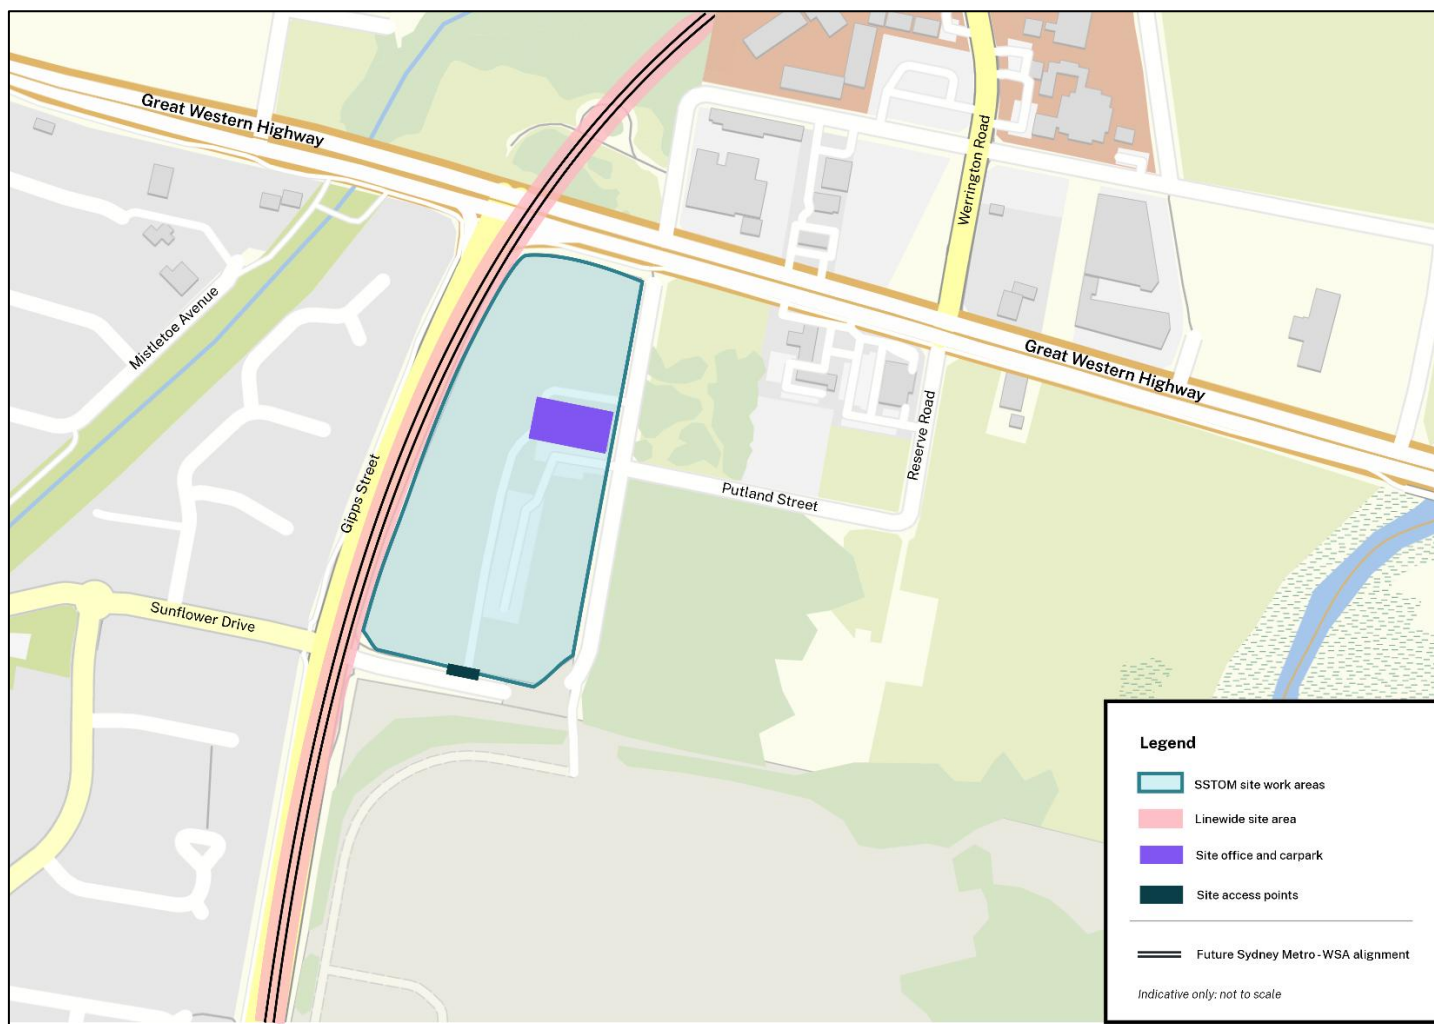

Detailed Noise and Vibration Impact Statements (DNVIS) have been prepared, including proposed mitigation measures based on noise modelling. Your feedback on appropriate respite periods or mitigation measures is encouraged. The SSTOM Community Communications Strategy is online.

Please visit [www.parklifemetro.com.au](http://www.parklifemetro.com.au) to view these documents and contact us to provide any feedback.

If you would prefer to receive updates by email, please let us know via [sydneymetrowsa@transport.nsw.gov.au](mailto:sydneymetrowsa@transport.nsw.gov.au) and we will add you to the distribution list.

Thank you for your cooperation while we complete this essential work.
