

# Monthly update – Westmead

23 December 2025

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, link new communities to rail services and support employment growth and housing supply.

Gamuda Australia and Laing O'Rourke Consortium (GLC) has been awarded the contract to deliver nine kilometres of twin metro rail tunnels between Westmead and Sydney Olympic Park, excavation for two new metro stations, a stabling and maintenance facility at Clyde and a precast facility at Eastern Creek.

## Construction activities on site: January 2026

Tunnelling contractor, GLC will continue major construction at the Westmead metro station site during January.

### What work we are doing?

- Installing waterproofing, formwork and service pipes, fixing steel, saw cutting and coring rock, spraying shotcrete, excavating and pouring concrete for the station box and caverns.
- Inspecting, maintaining and decommissioning monitoring equipment within local streets and around site.
- Delivering and removing oversized machinery, material and equipment via Hassall Street and Hawkesbury Road access gates\*.
- Dismantling and demobilising the tunnel boring machines (TBMs)#.

Work will be conducted during standard working hours, **7am – 6pm Monday to Friday, 8am – 6pm, Saturdays.**

\*Tunnelling support activities will be **24 hours, six days a week, excluding public holidays.**

#Dismantling and demobilising the TBMs will be **24 hours, seven days a week, excluding public holidays.**

Out-of-hours work, deliveries and movement of oversized machinery will also be required. Work activities are subject to ground and weather conditions and may be rescheduled. Updates to the construction program, out-of-hours work, and deliveries are provided in our weekly Westmead email updates. You can subscribe by emailing; **MetroTunnelsGLC@transport.nsw.gov.au.**

## Upcoming temporary parking changes

To support oversized machinery being removed from the site, there will be some temporary impacts to car parking spaces on Hassall Street in January 2026. **A detailed notification about these works will be distributed to the community separately.**

### Changes to traffic, pedestrian and cyclist routes include:

To facilitate access to these work areas and safely operate machinery, there will be traffic control in place to provide pedestrian access around the work activities. Access to public transport will be maintained.

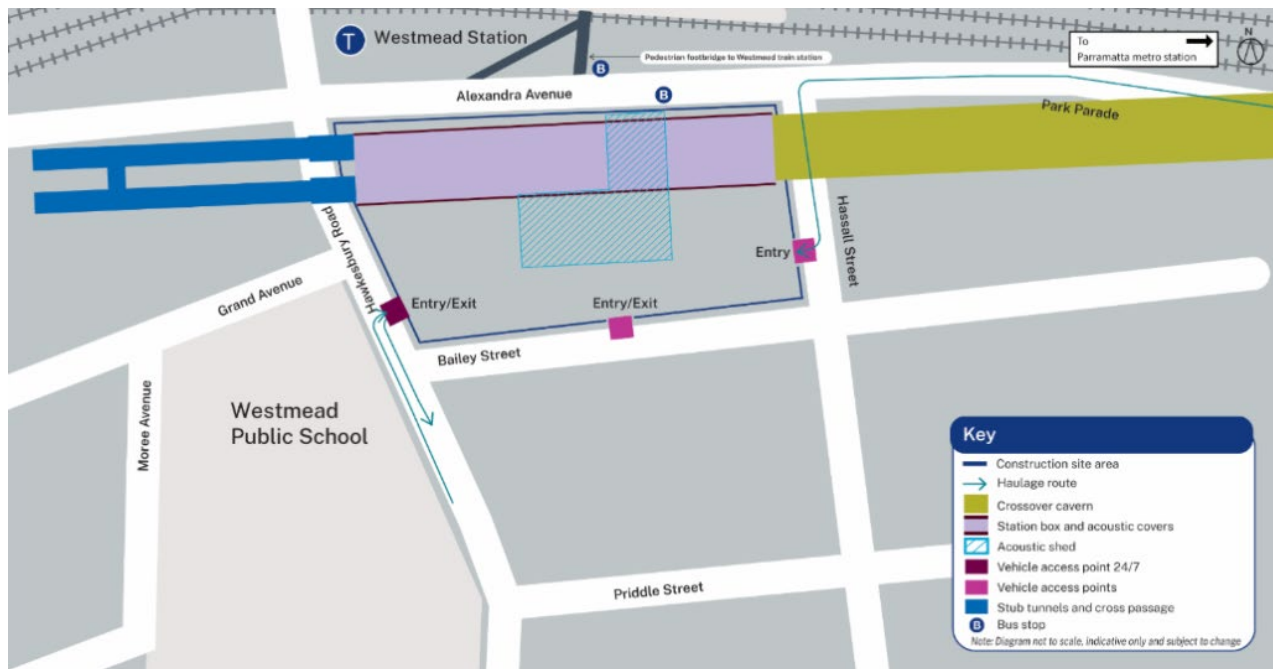

### What to expect:

- Noise blankets are used during night work where possible to minimise disturbance.
- Lighting will be directed to the work areas and away from residential properties.
- Noise, vibration and dust monitoring will be conducted.

### Equipment used:

Includes (but is not limited to) jack hammers, rock breakers, rock corer, concrete saw, vacuum trucks, grinders, excavators, concrete trucks and pumps, compressors, concrete vibrators, plate compactors, dump trucks, cranes, semi-trailers, lighting towers and light vehicles.
