

Monthly update – North Strathfield

24 February 2026

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, link new communities to rail services and support employment growth and housing supply.

Sydney Metro has engaged Syscon to install a new kiosk substation and undertake associated civil works, as part of ongoing construction for Sydney Metro West.

Site maintenance and demobilisation work will continue to be undertaken by Acciona Ferrovia Joint Venture (AFJV).

Construction activities: March 2026

Electrical kiosk installation work, site demobilisation and maintenance work within the North Strathfield metro station site and site compound will continue during March. These activities will be carried out during standard construction hours:

- **Monday to Friday** between **7am to 6pm**, and **Saturday** between **8am to 6pm**

Work will involve:

- removal of redundant overhead cabling on Queen Street
- removal of utility pole within site compound
- testing and commission of switchboard and generator within site compound
- setting up traffic management
- demobilisation and modification of hoarding at the site compound

Sydney Metro station site maintenance and demobilisation work may involve:

- delivery and removal of machinery, equipment, and spoil from site
- traffic management for oversized deliveries and collections
- lifting operations in station box
- maintenance and upkeep of station, tunnel and local areas
- dewatering and water treatment
- facilities decommissioning
- crane mobilisation and demobilisation

Changes to traffic and pedestrian routes:

To facilitate access to work areas and safely operate machinery, there will be:

- Traffic controllers and signage to direct vehicles and pedestrians
- Access to businesses and driveways will be maintained unless prior arrangements are made with affected stakeholders

Equipment used: includes (but is not limited to) elevated work platforms, lighting towers, surveying equipment, excavator, tipper truck, roller, concrete pump, compressors, grinders, rattle guns, welding equipment, water cart, sweeper truck, anchoring rig, vac trucks, concrete saws, generators, tilt trays, bobcats, forklifts, hand tools, trucks, light vehicles and crane (when required).
