

Monthly update – The Bays Station

Stations Package West

June 2026

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, link new communities to rail services and support employment growth and housing supply.

Gamuda have been awarded the contract to design and construct the five new metro stations at Westmead, North Strathfield, Burwood North, Five Dock, and The Bays.

Sydney Metro has engaged John Holland to deliver the Linewide project. Delivering 60kms of track across the network, installation of rail systems and construction of Sydney Metro West's 38-hectare stabling and maintenance facility in Clyde.

What work are we doing?

Gamuda will continue maintenance and investigation works at The Bays Station site during June 2026, before construction of the new station continues later this year.

Work includes:

- Delivery of machinery and equipment
- Site investigations of sub-surface conditions under the existing concrete
- Setting up a temporary work site, including site offices and facilities
- Shotcreting (smoothing layer) inside the station box

- Utility survey, investigations and connections within site
- Installation of environmental controls and monitoring equipment to mitigate construction impacts
- Survey works
- Setting up traffic management and signage installation
- Maintenance and upkeep of the station site.

Linewide work activities at The Bays Station site will include:

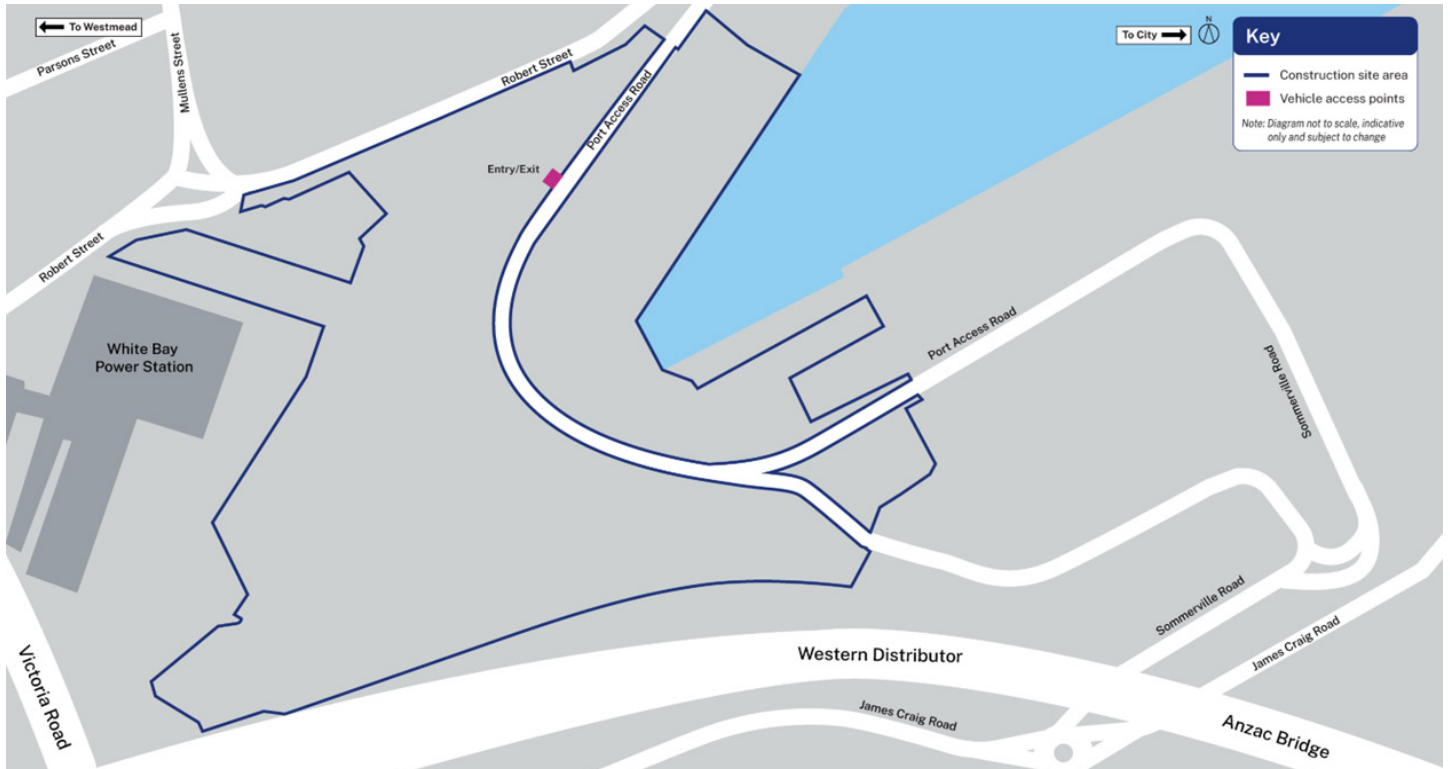

- Operation and maintenance activities within the construction site and tunnel
- Site investigations, including surveying, locating and relocation of existing services
- Operations and maintenance of the water treatment plant
- Delivery and removal of machinery, equipment and materials.

When and where we'll be working

All works will take place during standard construction hours, **Monday to Friday between 7am and 6pm and Saturday between 8am and 6pm, excluding public holidays.**

Tunnelling operation and maintenance activities within the tunnel will be undertaken **24 hours per day, seven days a week.** This includes operation and maintenance of the water treatment plant.

Location of work area

What will this mean for you?

You may notice:

- Workers and construction plant/vehicles
- Traffic controllers and signage
- Noise from machinery and equipment.

Managing our impacts on the community

We aim to manage our work to minimise disruption to the community and the environment and we will:

- Conduct noise and vibration monitoring where required
- Direct lighting towards work areas and away from neighbouring properties.

Equipment list

Equipment for this work will include but is not limited to hand tools, mobile cranes, elevated work platforms (EWPs), drill rig, vac truck, light vehicles, concrete saw, excavator, bobcat, survey equipment, delivery vehicles, fencing and traffic control devices.

Contact us

Please contact us if you have any questions, complaints or would like to provide feedback about the work, including respite periods.
