

Monthly update – Five Dock Station

August 2026

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, transforming Sydney for generations to come. Sydney Metro West will target an opening date of 2032.

Gamuda has been awarded the contract to design and construct the five new Metro stations at Westmead, North Strathfield, Burwood North, Five Dock, and The Bays.

Sydney Metro has engaged John Holland to deliver the Linewide package. Delivering 60kms of track across the network, installation of rail systems and construction of Sydney Metro West's 38-hectare stabling and maintenance facility in Clyde.

What work are we doing?

Early works will continue at the Five Dock Station site in August 2026, including site set up, investigations and survey works.

Piling activities will be undertaken ahead of tower crane installation at both the Western and Eastern sites.

Standard construction hours are **Monday to Friday from 7am to 6pm and Saturday 8am to 6pm.**

Tunnel operation and maintenance will be undertaken **24 hours per day, seven days a week.**

What will this mean for you?

You may notice

- Workers and vehicles
- Traffic controllers and signage
- Noise from machinery and equipment

Changes to traffic, pedestrian and cyclist routes

To support utility survey and investigation work in August, temporary intermittent footpath diversions are required in sections on East Street, Great North Road, Second Avenue and Waterview Street.

Pedestrian and vehicle access in these areas will be maintained via traffic control and signage to direct pedestrians and traffic around work areas.

Access to property will be maintained, unless arrangements are made with you in advance.

Managing our impacts on the community

We aim to manage our work to minimise disruption to the community and the environment and we will:

- Conduct noise and vibration monitoring as required

Location of work area

- Direct lighting towards work areas and away from neighbouring properties
- High impact noise works will commence after 8am, and will include respite periods

Equipment and machinery used

Includes (but is not limited to) hand tools, small machinery, mobile cranes, loaders, survey equipment, piling rig, elevated work platforms, telehandlers, concrete pumps, light towers, fork lifts, generators, buggies, trolleys, delivery trucks, truck and dogs, mobile cranes, street sweepers, bobcats, concrete saws, circular saws, excavators, jackhammers, concrete agitators, vacuum trucks, light vehicles, delivery vehicles, fencing, traffic control devices and other tunnel and material transport equipment.
