

Notification – St Marys Station footbridge

October to December 2026

Transport for NSW is delivering a new footbridge and northern plaza at St Marys Station as part of the Sydney Metro–Western Sydney Airport project

Work activities until the end of the year

- minor defect and finishing works to the new footbridge, lifts and escalators
- inspections, testing, and minor adjustments to electrical, mechanical, hydraulic, fire and other building services
- minor pavement, fencing, landscaping and public domain work on Harris Street and around the station precinct
- touch-up, cleaning and maintenance works to completed areas.

Work hours

Our standard construction hours are **7am to 6pm, Monday to Friday**, and **8am to 1pm on Saturdays**.

What to expect

As the project nears completion, impacts to the community will decrease, however some outstanding works remain to be completed. These include:

- temporary changes to pedestrian or vehicle access around work areas
- temporary parking restrictions, where required to safely complete works or support deliveries
- minor noise from tools and vehicles
- short-term use of safety fencing, traffic control and signage around active work areas.

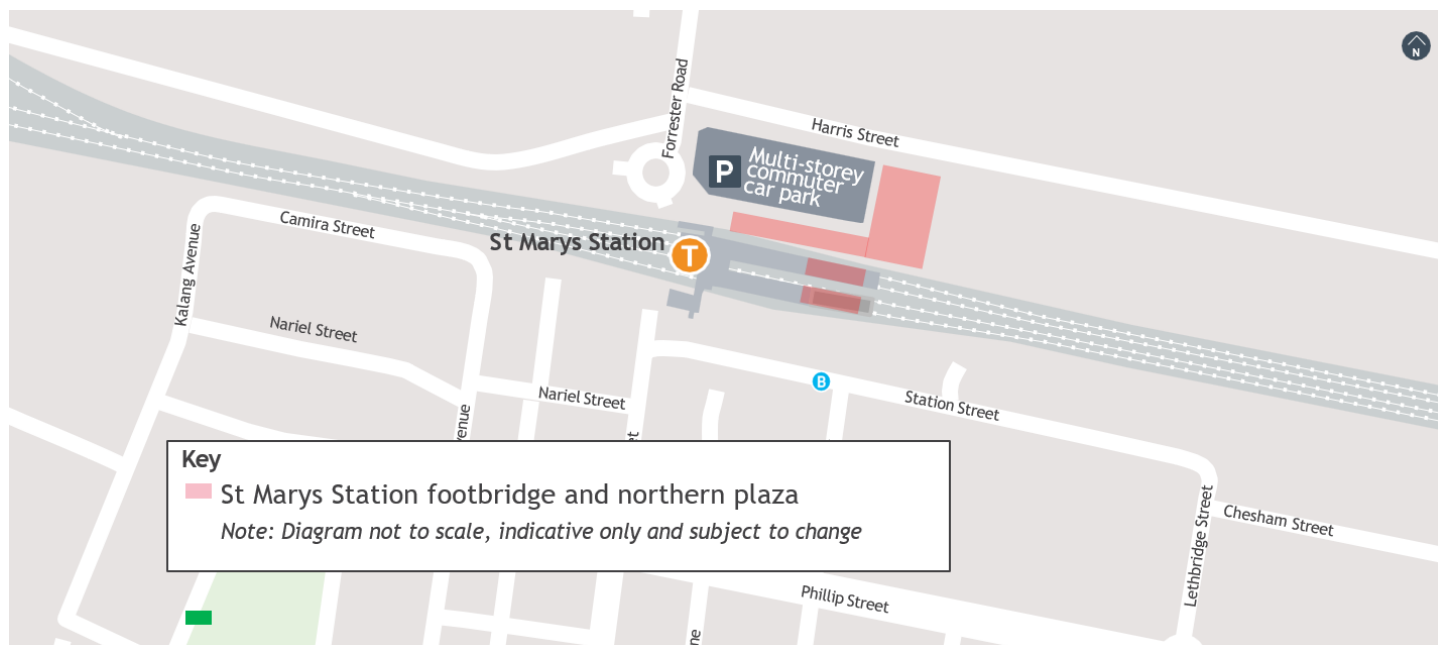

Managing our impacts

With the main construction works due to be completed by the end of September, we thank the community for its patience and support throughout delivery of the new footbridge and northern plaza.

Future out-of-hours work

There is currently no planned out-of-hours work. If work is required outside standard construction hours, we will keep the community informed.

St Marys Station footbridge and northern plaza
