

Sydney Metro West

Burwood North Station out-of-hours work

15 October 2026

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, transforming Sydney for generations to come. Sydney Metro West will target an opening date of 2032.

Gamuda has been awarded the Stations Package West (SPW) contract to design and construct the five new Metro stations at Westmead, North Strathfield, Burwood North, Five Dock, and The Bays.

Sydney Metro has engaged John Holland to deliver the Linewide package. Delivering 60kms of track across the network, installation of rail systems and construction of Sydney Metro West's 38-hectare stabling and maintenance facility in Clyde.

Out-of-hours work

To minimise interruption to local traffic and to ensure the safety of motorists, pedestrians and workers around the site, some work must be undertaken outside standard construction hours.

Due to scheduling changes out-of-hours utility investigations and delivery of machinery and equipment has been rescheduled to:

- **9pm Thursday 22 October to 5am Friday 23 October 2026**
- **9pm Monday 26 October to 5am Tuesday 27 October 2026**
- **9pm Tuesday 27 October to 5am Wednesday 28 October 2026**

*Weather and site conditions permitting.

Work will include:

- Delivery of oversize machinery and equipment to site
- Surveying and marking up of service locations
Setting up of traffic management and signage
- Jet cleaning and CCTV investigations of sewer lines
- Non-destructive digging using a vacuum truck may be required at times for cleaning and clearing utility pits
- Reinstating the area at completion of the work.

Temporary traffic changes on Parramatta Road, Concord

To support these activities, temporary intermittent lane closures are required in sections of Parramatta Road between Neichs Lane and Concord Oval around work areas (see map overleaf).

Pedestrian and vehicle access in these areas will be maintained, and traffic control and signage will be in place.

What will this mean for you?

You may notice:

- Workers and vehicles
- Noise from machinery and equipment, but this will be minimised as much as possible
- Access to your property will be maintained, unless arrangements are made with you in advance
- Traffic control and signage will be in place in surrounding streets to assist motorists, pedestrians and cyclists with changes to traffic conditions on Parramatta Road during planned traffic changes at night. Please keep to the speed limits, follow detours and allow some extra time for your journey when travelling near these areas.

Managing our impacts on the community

We aim to manage our work to minimise disruption to the community and the environment and we will:

- Conduct noise and vibration monitoring as required
- Direct lighting towards work areas and away from neighbouring properties
- Apply dust suppression measures as required

Equipment and machinery used

Equipment for this work will include but is not limited to jet truck, vac truck, hand tools, CCTV equipment, heavy vehicles, traffic management and signage.

Contact us

Please contact us if you have any questions, complaints or would like to provide feedback about the work, including respite periods.
