Sydney Metro West

Notification – Burwood North Station

9 November 2026

The NSW Government is delivering Sydney Metro West – a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, transforming Sydney for generations to come. Sydney Metro West will target an opening date of 2032.

Gamuda has been awarded the Stations Package West (SPW) contract to design and construct the five new Metro stations at Westmead, North Strathfield, Burwood North, Five Dock, and The Bays.

Sydney Metro has engaged John Holland to deliver the Linewide package. Delivering 60kms of track across the network, installation of rail systems and construction of Sydney Metro West's 38-hectare stabling and maintenance facility in Clyde.

Upcoming out-of-hours work

To minimise interruption to local traffic and to ensure the safety of motorists, pedestrians and workers around the site, some work must be undertaken outside standard construction hours.

Low impact service investigations using hand tools on the road and footpath will be undertaken on Burwood Road, Burton Street, Loftus Street, Neichs Lane and Esher Lane (see map overleaf) between 8pm and 5am on the following nights:

- One night during the week commencing Monday 23 November 2026
- Three nights during the week commencing Monday 30 November 2026

Further information about this work including timing will be provided via email. You can subscribe to these updates by emailing; SPWmetro@transport.nsw.gov.au.

Geotechnical investigations

Geotechnical investigations within the footpath on Burwood Road and Burton Street have been scheduled over five shifts between **9am and 3pm** between **16 November 2026** and **30 November 2026***.

Further information about this work including timing will be provided via email. You can subscribe to these updates by emailing: SPWmetro@transport.nsw.gov.au.

*Weather and site conditions permitting.

Work will include:

- Surveying and marking up of service locations
- Setting up of traffic management near investigation locations to maintain traffic flow
- Drilling bore holes with a drill rig and excavating to assess sub-surface conditions
- Removing excess spoil from site using a vacuum excavation truck and disposing offsite
- Reinstating the area at completion of the work.

Changes to traffic, pedestrian and cyclist routes

To support service and geotechnical investigations, temporary intermittent lane and footpath closures are required in sections on Burwood Road, Burton Street, Neichs Lane, Loftus Street and Esher Lane.

To support concrete works ahead of tower crane installation, a partial footpath closure is required to extend our work area along a section of Parramatta Road between Burwood Road and Loftus Street from **16 November to 30 November 2026 (pending approvals)**.

To support oversize machinery and equipment deliveries an eastbound partial lane closure on Parramatta Road may be required.

Pedestrian and vehicle access in these areas will be maintained, and traffic control and signage will be in place.

What will this mean for you?

You may notice:

- Workers and vehicles
- Noise from machinery and equipment, but this will be minimised as much as possible
- Access to your property will be maintained, unless arrangements are made with you in advance
- Traffic controllers and signage will be used to direct pedestrians and traffic around work areas

Managing our impacts on the community

We aim to manage our work to minimise disruption to the community and the environment and we will:

- Conduct noise and vibration monitoring as required
- Apply dust suppression measures as required

Equipment and machinery used

Equipment for this work will include but is not limited to hand tools, light vehicles, drill rigs, concrete agitators, vacuum excavation trucks, delivery vehicles, temporary fencing, road saw and traffic control devices.

Pop-up information session

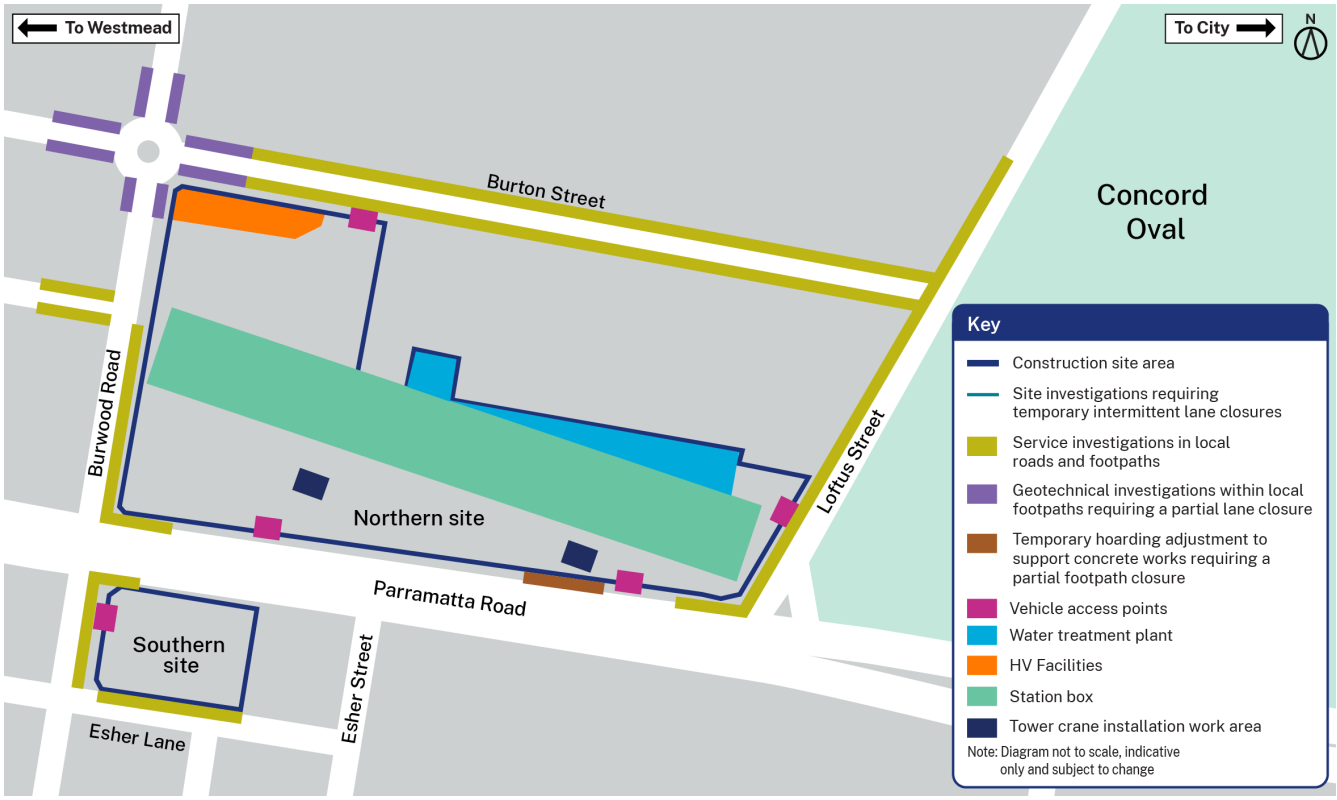

Come and meet our construction team and hear about our activities on site and preparation for the installation of tower cranes:

When: 3pm to 5pm on Wednesday 25 November 2026

Where: Concord Oval, Loftus Street, Concord

Please contact us on **1800 612 173** or email SPWmetro@transport.nsw.gov.au if you have any questions, complaints or would like to provide feedback about the work, including respite periods and lighting during out-of-hours works. Email us to sign up to our mailing list to receive project updates
