

Project update

April 2021

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 kilometre standalone metro railway system. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

Lendlease will deliver the new Sydney Metro Victoria Cross integrated station development at North Sydney, including the metro station, commercial building above and enhancements to pedestrian connections, retail and public spaces.

Upcoming work – Victoria Cross Station sites

Site establishment with the installation of hoarding and site accommodation, along with detailed excavation and concrete pouring within both the North and South site continues during April.

All works will cease over the Easter long weekend from **12am Friday 2 April to 7am Tuesday 6 April**.

Below is an indicative table of activities scheduled at the two Victoria Cross Station sites in April.

Location	Work in April
Victoria Cross Station South site	<p>Work may include but is not limited to:</p> <ul style="list-style-type: none"> • detailed excavation works including saw cutting rock and jackhammering • spoil removal from Denison Street via trucks • installing hoardings and site accommodation surrounding the project site bordering Miller and Berry streets • installing scaffolding within the site to create safe access for onsite workers • delivering and modifying site accommodation • waterproofing works within sites • installation of tower cranes and hoists including ground improvement piling works • mobile and tower crane and hoist operations • concrete pouring via concrete pumps within project work zones • material deliveries within work zones
Victoria Cross Station North site	<p>The following works will be conducted within the project site and may include but is not limited to:</p> <ul style="list-style-type: none"> • detailed excavation works including saw cutting rock and jackhammering • concrete pouring via concrete pump • mobile and tower crane and hoist operations • installing and amending hoardings within the site • site shed installation • delivery and crane operations for precast concrete platform elements and structure works • installation of working platforms and wall formwork within the site

Some of this work will be out-of-hours. Please see overleaf for more detail.

Standard work hours: Standard work hours are Monday to Friday, 7am to 6pm and Saturday, 8am to 1pm.

Upcoming out-of-hours work – Victoria Cross Station sites

Victoria Cross North and South site location

What to expect

- Equipment used will include concrete pumps, elevated working platform, mobile cranes, a tower crane, trucks, hand held drills and heavy vehicles.
- Traffic control and direction signage will be in place for the safety of workers, pedestrians and the community.
- Some of these activities will be noisy. The project team will limit these impacts where possible. Non-tonal reversing beepers will be used. Workers will be instructed to keep noise to a minimum.
- Access to buildings and driveways will be maintained at all times.

Thank you for your cooperation and understanding while we complete this essential work.

If you have any questions about the Victoria Cross integrated station development, please contact Emily Hargreaves on **1800 171 386** (24-hour community information line) or email vicoriacrossmetro@transport.nsw.gov.au.
