

Project update – Barangaroo Station

November 2020

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 kilometre standalone metro railway system. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

John Holland CPB Ghella (JHCPBG) is building the 15.5 kilometre long twin railway tunnels between Chatswood and Sydenham and excavating six new metro stations, including one at Barangaroo.

Barangaroo Station – upcoming work

Last month, 98 pre-cast concrete beams were installed to form the concourse level of Barangaroo Station. Over the next few weeks the concourse will be completed by installing steel reinforcement and pouring a concrete slab on top. There will be increased concrete deliveries during November and December to finish this section of work.

At the foreshore, reinstatement of the pedestrian walkway between Nawi Cove and Barangaroo South is ongoing and progressing well. Current work involves installing drainage and building retaining walls. The walkway is expected to be reopened to pedestrians in the first quarter of 2021, weather and site conditions permitting.

The under harbour tunnel inverts and cross passages are almost finished as the final sections of concrete are poured. Concrete deliveries to the acoustic shed on Hickson Road will continue this month to support this work.

The table below provides more information about construction hours and activities planned for November 2020, weather and site conditions permitting (see map overleaf).

Location	24/7 activities
Inside acoustic shed – Hickson Road	<ul style="list-style-type: none"> Deliveries of concrete, materials, machinery and equipment
Crossover cavern - under Hickson and Dalgety roads	<ul style="list-style-type: none"> Waterproofing, tying steel and concreting activities
Barangaroo Station - Hickson Road (between Dalgety Road bridge and High Steps)	<ul style="list-style-type: none"> Deliveries of materials, plant and equipment Concrete finishing work Formwork, tying steel and concreting activities (4am to 10pm, Monday to Saturday)
Location	Activities during standard construction hours (Monday to Sunday, 7am–6pm)
Barangaroo Station - Hickson Road (between Dalgety Road bridge and High Steps)	<ul style="list-style-type: none"> Tower crane operations Formwork, tying steel and concreting activities
Nawi Cove and foreshore	<ul style="list-style-type: none"> Reinstatement work involving earth works, tying steel, installing drainage, concreting and landscaping

What to expect

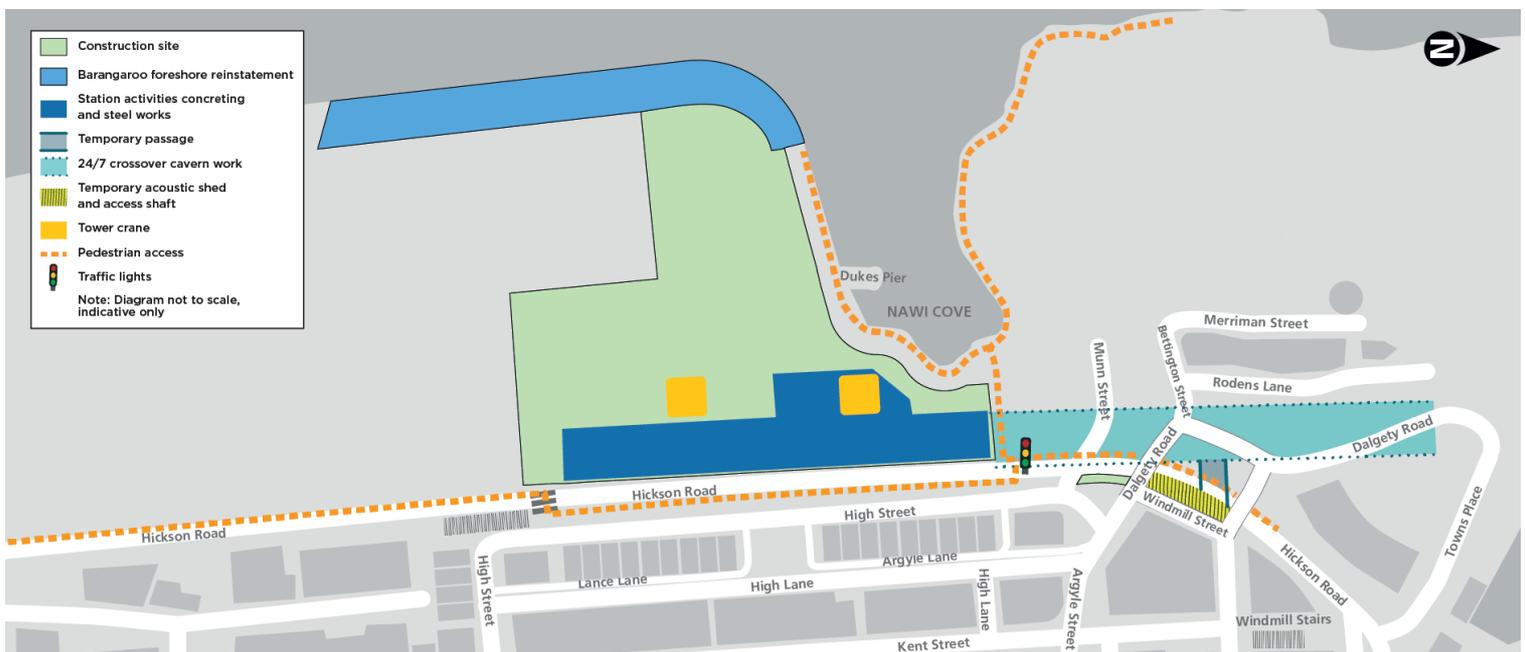

- There will be intermittent periods of noisy work. If any high impact noise activities such as saw cutting and hammering are required at night, they will be carried out as early as possible and will cease before midnight.

- Non-tonal reversing beepers will be used and workers will be instructed to keep noise to a minimum.
- Temporary lighting may be used to ensure a safe work site and will be directed away from properties.
- There will be increased light vehicle and truck movements.
- Equipment used includes drills, tower cranes, vacuum excavation trucks, mobile cranes, elevated work platforms, remote-controlled trailers, concrete saws, grinders, concrete pumps, excavators and compactors.
- There will be temporary single lane closures on Hickson Road during out-of-hours work. Traffic control and directional signage will be in place for the safety of workers and the community.
- Access to the High Steps, Nawi Cove and Barangaroo Reserve will be maintained at all times.
- Access to properties will be maintained at all times.
- Permanent restoration of roads and footpaths affected by the works will be undertaken at the end of the project.

Thank you for your cooperation while we complete this essential work.
