

Notification – Proposed electrical work at 43 Phillip Street, St Marys

18 March 2021

Sydney Metro is Australia's biggest public transport project.

RE: Extension of existing Endeavour Energy network to assist with the development of the Sydney Metro – Western Sydney Airport project

Sydney Metro – Western Sydney Airport is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport.

The railway will service the new airport and airport business park, the Western Sydney Aerotropolis, Luddenham, Orchard Hills and St Marys – here customers can connect to the existing Sydney Trains suburban T1 Western Line. The NSW and Australian governments have a shared objective of having Sydney Metro - Western Sydney Airport operational when the airport opens for passenger services.

Proposed electrical work at 43 Phillip Street, St Marys

Sydney Metro is proposing to extend the existing Endeavour Energy electricity network to the proposed construction site at 43 Phillip Street, St Marys to assist with the development of the Sydney Metro – Western Sydney Airport project.

The project is required to notify adjoining landholders under the Electricity Supply Act 1995 and the State Environmental Planning Policy (Infrastructure) 2007.

Sydney Metro has appointed Ultegra to design and construct these electrical works.

Work would involve:

- Decommission indoor substation 18006
- Remove existing 11kv cable between hv switchgear of decommissioned substation 18006 and reference C
- Remove existing 11kv cable between hv switchgear of decommissioned substation 18006 and reference D
- Remove existing 11kv cable between hv switchgear decommissioned substation 18006 and reference A
- Pull back remaining cable from reference C and install a STJ at Reference E.
- Install HV straight through joint at Reference B and joint onto existing 11kv Cable
- Install new HV Ugho on pole 159 and run new 11kv cable to newly established HV TTJ at reference B
- Close existing open point in pillar 29184 to re-instate existing customers from pole substation 1210

These works will involve excavation, trenching and cable installation within Phillip St and may also require excavation, trench and cable installation on surrounding roads which include:

- Blair Avenue

Please see map overleaf for the location of the work.

Construction work and timing

The proposed work will be assessed under Part 5 of the Environmental Planning and Assessment Act 1979 and every effort will be made to minimise disruption to the community.

Subject to approval, installation is scheduled for mid-2022. We will provide further updates to residents and the community as the project progresses.

We are seeking your feedback

We welcome your feedback on the proposed works by **Wednesday 21 April 2021**. Please send all comments to sydneymetrowsa@transport.nsw.gov.au or Sydney Metro – Western Sydney Airport, PO Box K659, Haymarket NSW 1240.

Your feedback is important to us and all comments will be carefully considered before a final decision is made.

If you are not the owner of the property you reside in, we request that you also provide a copy of this notice to your landlord or the property owner.

Thank you for your assistance with this important work.
