

Notification – Rozelle

6 September 2021

Sydney Metro is Australia's biggest public transport project.

The NSW Government is delivering Sydney Metro West - a new underground metro railway which will double rail capacity between Parramatta and the Sydney CBD, with a target travel time of about 20 minutes between the two centres.

Sydney Metro was granted planning approval to construct twin underground rail tunnels between Westmead and The Bays for Sydney Metro West in March 2021. This includes the construction of a new power supply route from Rozelle substation to the future metro station at The Bays. New cables will be laid underground to provide a dedicated power supply source to the Tunnel Boring Machines (TBMs) for Sydney Metro West.

The contract for the Iron Cove/Rozelle power supply route has been awarded to Quickway.

Gas relocation work – Callan Street

Work on the Iron Cove/Rozelle power supply route began in mid-July and will be undertaken progressively over the coming months.

As part of this work, Jemena will undertake work to relocate the gas main on Callan Street between Manning Street and McCleer Street. The gas relocation work will take place from Monday 13 September and will continue for approximately two weeks, weather and site conditions permitting. Work will take place during standard construction hours Monday to Friday 7am to 6pm and Saturday 8am to 6pm. (Please see map overleaf for locations of work).

Planned service disruptions will be advised directly by the relevant service provider.

The safety of the community and our workforce is top priority. All works will be undertaken in line with NSW Public Health Orders, using a range of COVID-safe measures and plans.

Work will involve:

- Establishing traffic controls and construction areas
- Removing concrete and asphalt with road saw
- Excavating trenches and removing spoil
- Installation of new main & completion of tie-ins and testing
- Backfilling and reinstating the excavated area.

What to expect:

- Construction machinery and equipment operating onsite, inside designated construction sites
- Increased heavy and light vehicle movements in the area
- The work will generate some noise and vibration, the team will minimise impacts where possible
- Traffic management and directional signage will be used to ensure the safety of works and the community
- Parking will be temporarily restricted during construction

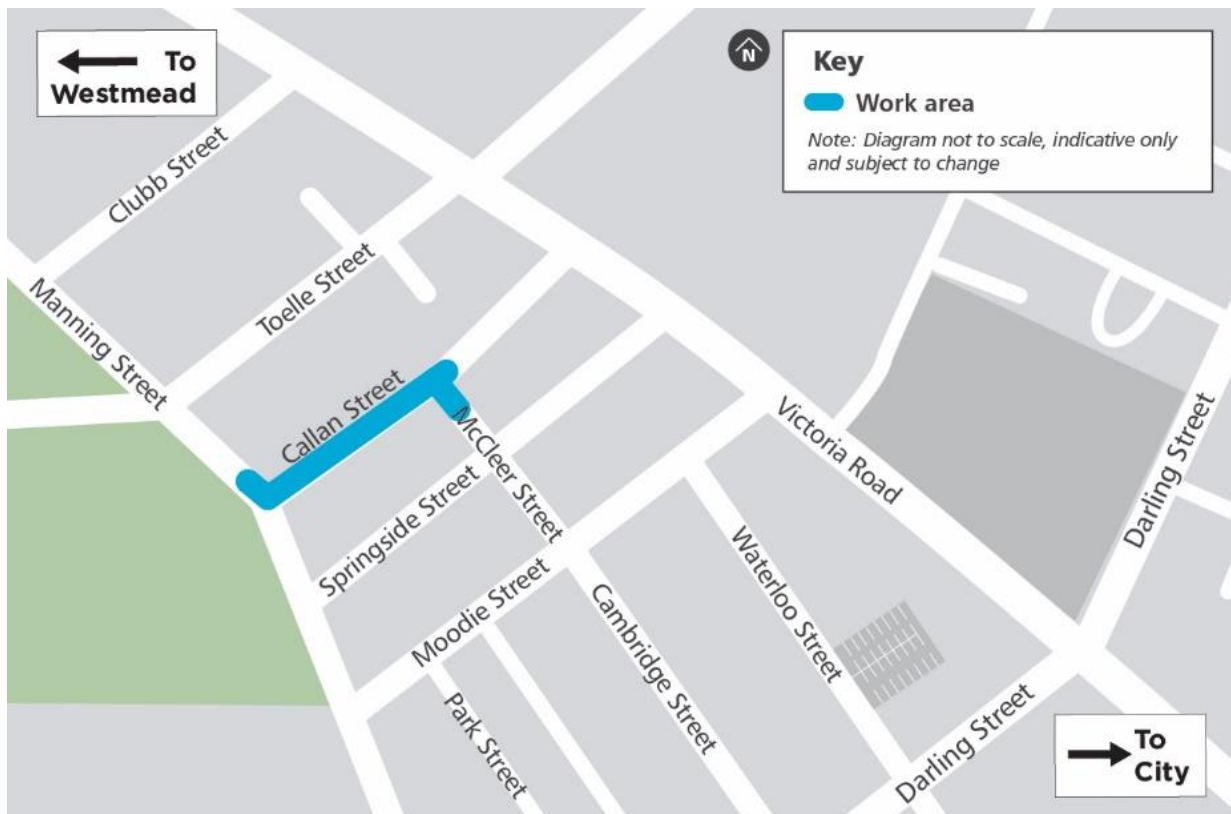

Equipment used:

The equipment used will include but not be limited to: excavators, tipper trucks, sucker trucks, road saws, delivery trucks, traffic control vehicles, lighting towers, hand powered tools and equipment.

Changes to pedestrian and cycle routes:

During the work, changes to traffic conditions for pedestrians, cyclists, parking and motorists will be required and may include stop-slow traffic controls, or temporary full road closures (less than 48 hours). Changes will vary and is dependent on road authority approvals. Traffic control will be in place to assist motorists, pedestrians and cyclists.

Work area on Callan Street

Contact us:

Sydney Metro recognises that our work will have impacts and wherever possible we will work with the community to mitigate these impacts.

We will continue to keep you updated on the progress of works in your area. Sydney Metro has launched Sydney Metro Connect – a new way to stay informed. You can download Sydney Metro Connect on the App Store or get it on Google Play.

Your local Place Manager for the Iron Cove/Rozelle power supply route is Bernice Kelly. Bernice will be your main contact for questions and enquiries regarding the project and can be contacted on 1800 612 173.

If you would like to receive these updates via email, please contact Bernice who can add you to the distribution list. Our email is: sydneymetrowest@transport.nsw.gov.au

Thank you for your cooperation while we complete these essential works.
