

Notification – Southwest Metro

Dulwich Hill - March 2021

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre. The upgrade of the T3 Bankstown Line to metro standards between Sydenham and Bankstown received planning approval on 19 December 2018.

In March, work will continue along the T3 Bankstown Line at Dulwich Hill, weather and site conditions permitting. Access to the rail corridor will be via existing corridor/pedestrian access gates. Day work will be during **project standard construction hours Monday to Friday 7am-6pm and Saturday 8am-6pm**.

Location	Detail of day work
Dulwich Hill (at the station and along the rail corridor)	<p>Activities will include:</p> <ul style="list-style-type: none"> • Topographic scanning and drainage surveys in the rail corridor, at stations and in nearby public areas • Non-intrusive survey of fencing along the railway corridor • Geotechnical investigations, utilities surveys, tree and soil assessments inside the rail corridor and in nearby public areas • Installation and removal of haul roads and temporary fencing throughout the rail corridor • Devegetation and clearing throughout the rail corridor where required • Site compound establishment including installation of site sheds, subject to approval • Installation of temporary fencing, new cable routes, cabling and galvanised steel troughing (GST) • Transportation of earthworks material via the rail access gate near Ewart Street, Dulwich Hill • Visual inspections of station buildings and roads adjacent to the rail alignment • Locating underground services including non-destructive digging close to and inside the rail corridor • Installation of signal equipment and cabling
Substation site (off Randall Street behind Albermarle Street, Marrickville)	<p>Activities at the substation site will include:</p> <ul style="list-style-type: none"> • Installation of pole for temporary power connection • Installation of tree protection on Randall Street • Temporary water and sewer connection for the work site • Installation of water filled barriers, site sheds and temporary fencing • Increasing the height of cables on Randall Street • Excavation works including installation of electrical conduits

Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles.

Date / time	Detail of work
<p>During the scheduled rail shutdown weekend:</p> <p>Between 10:30pm Friday 19 March to 2am Monday 22 March 2021</p>	<ul style="list-style-type: none"> • Potholing and geotechnical investigations including non-destructive digging, soil testing and survey inside the rail corridor • Installing temporary fencing around work sites • Non-intrusive inspections and surveys at Dulwich Hill station and surrounds, including rail corridor fencing surveys and radio pole surveys • Potholing on the tracks near Dulwich Hill substation • Installing signal equipment and cabling inside the rail corridor <p>Subject to approval, work over the weekend to support the station upgrade will include:</p> <ul style="list-style-type: none"> • Piling works between the tracks at Dulwich Hill Station • Installation of hoarding

Equipment used for all the above work will include excavators, jack hammers, vacuum trucks, slasher, motorised saws, concrete trucks, delivery vehicles, borehole driller, rollers, generators, whacker packer, dump trucks, wood chipper, mulcher, grass cutters, telehandler, piling rig, crane trucks, drilling rig, lifting machinery, elevated work platform, bobcats, concrete pumps, cable pulling equipment, compactors, lighting towers, forklift, water cart, hand and power tools.

Access to buildings and driveways will be maintained at all times. Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers. **Where temporary footpath changes, car parking removal or lane closures are required for works, traffic control, pedestrian detours and signage will be in place to assist the community.**

Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Grace** or email LinewideMetro@transport.nsw.gov.au. For all other works please ask for **Klia** or email SouthwestMetro@transport.nsw.gov.au. **Thank you for your cooperation while we complete this essential work.**
