

Notification – Southwest Metro

Dulwich Hill - September 2021

Sydney Metro is Australia’s biggest public transport project.

Safety of the community and workers is Sydney Metro’s top priority. Covid-19 safety measures include the wearing of masks, sites working to 50% capacity, separation of workforce, vaccination and compliance testing, and a COVID marshal to check for compliance and to support workers.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre. The upgrade of the T3 Bankstown Line to metro standards between Sydenham and Bankstown received planning approval on 19 December 2018.

In September, work will continue along the corridor and at Dulwich Hill Station (weather and site conditions permitting). Access to the rail corridor will be via existing rail corridor/pedestrian access gates. **Day work will be undertaken Monday to Friday 7am-6pm and Saturday and Sunday 7am-6pm** in accordance with *Environmental Planning and Assessment (COVID-19 Development– Construction Work Days) Order (No. 3) 2021*. All work activities are subject to relevant approvals. The map on page 2 shows location details.

Location	Detail of day work
Dulwich Hill (along the rail corridor)	<ul style="list-style-type: none"> • Various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities and fencing • Devegetation and tree clearing throughout the rail corridor where required • Installation of fencing, cable service routes and galvanised steel troughing (GST) • Delivery of materials and preparations for upcoming out of hours work
Around Dulwich Hill Station	<ul style="list-style-type: none"> • Earthworks, foundations work and concrete works for construction of the new footbridge. Traffic controllers will be on duty throughout the works to assist vehicles and pedestrians • Service relocations and electrical work (to be undertaken by Ausgrid) • Delivery of materials and preparations for upcoming out-of-hours works • Wardell Road bridge lane closure. Pedestrian detours will be in place as required
Services building site at Ewart Lane	<ul style="list-style-type: none"> • Earthworks and concrete works • Service relocations and electrical work (to be undertaken by Ausgrid) • Construction of the services building • Car park reconstruction (Ewart Lane car park will be closed from 2 August 2021 until early 2022) • Delivery of materials and preparations for upcoming out-of-hours works. Vehicles will be using Ewart Lane to access the worksite for deliveries. • Pruning and tree removal work. Traffic controllers will be on duty throughout the works to assist vehicles and pedestrians.
Substation site (off Randall Street behind Albermarle Street, Marrickville)	<ul style="list-style-type: none"> • Bulk excavation including jackhammering and rock sawing • Traffic control to facilitate truck movements from Livingstone Road • Installing conduits and drainage • Formwork reinforcement and concrete pouring. <p>From time to time we may finish work later than 6pm as we complete concrete pours.</p>

Out-of-hours work

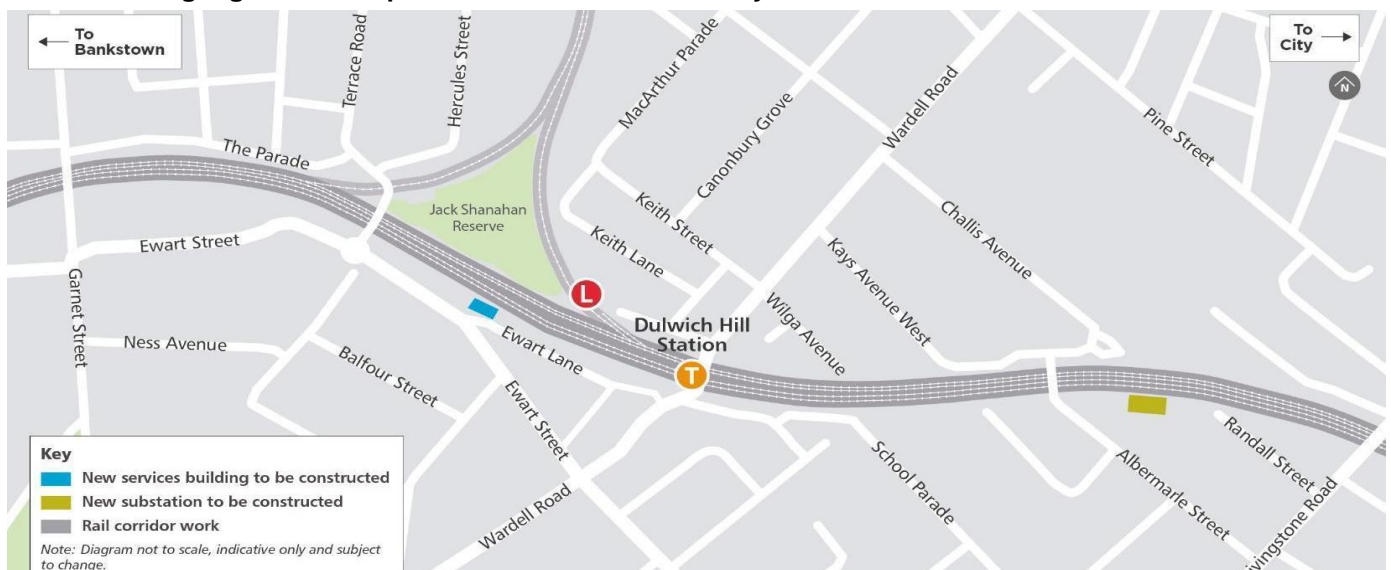

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties in proximity to scheduled works will be notified prior to works starting. More information about this work is provided over the page.

Date / time	Detail of out-of-hours work and location
Mid-week works between 6pm and 7am Monday 6	<ul style="list-style-type: none"> • Installation of signal equipment

<p>September to Friday 1 October 2021 for no more than 3 nights (in addition to daytime work)</p>	<ul style="list-style-type: none"> • Various site investigations and surveys including but not limited to non-destructive digging, soil assessments, geotechnical investigations and surveys for drainage, utilities, and fencing
<p>Around the clock work from 6am Friday 17 September to 6pm Sunday 19 September 2021</p>	<ul style="list-style-type: none"> • Installing high voltage cables inside the rail corridor from city side of Dulwich Hill Station to Dulwich Hill substation site
<p>Around the clock work from 7am Friday 24 September to 6pm Sunday 26 September</p>	<p>At the Dulwich Hill Substation site (off Randall Street behind Albermarle Street):</p> <ul style="list-style-type: none"> • Excavating a trench and removing spoil • Installing conduits, drainage and undertaking conduit testing • Backfilling the trench and restoring the surface • Installing high voltage cables inside the rail corridor from Wooley Lane Marrickville to the Dulwich Hill substation site

Equipment used for the above work will include excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, sucker trucks, delivery vehicles, borehole drillers, rollers, generators, whacker packers, dump trucks, wood chippers, mulchers, grass cutters, telehandlers, drilling rigs, lifting machinery, elevated work platforms, bobcats, concrete pumps, cranes, cable pulling equipment, road sweeper, compactors, lighting towers, forklifts, water carts, chainsaw, vibrating plates, and hand and power tools.

Access to buildings and driveways will be maintained at all times. There may be some noise, dust and vibration impacts associated with these works which at times will be loud and disruptive. We will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers. **Where temporary footpath changes, car parking removal or lane closures are required for works, traffic control, pedestrian detours and signage will be in place to assist the community.**

Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Grace** or email LinewideMetro@transport.nsw.gov.au. For all other works please ask for **Klia** or email SouthwestMetro@transport.nsw.gov.au. **Thank you for your cooperation while we complete this essential work.**

<p>Planned 24/7 Rail Possessions*, Sep-Nov 2021* More detail will be provided closer to the date (*subject to change)</p>	<ul style="list-style-type: none"> • 16-22 October • 23-24 October • 6-7 November
