

Notification – Southwest Metro

Wiley Park – July 2021

Sydney Metro is Australia’s biggest public transport project.

Services started in May 2019 in the city’s North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. There will be new CBD metro railway stations underground at Martin Place, Pitt Street and Barangaroo and new metro platforms at Central.

In 2024, Sydney will have 31 metro railway stations and a 66 km standalone metro railway system – the biggest urban rail project in Australian history. There will be ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre. The upgrade of the T3 Bankstown Line to metro standards between Sydenham and Bankstown received planning approval on 19 December 2018.

In February 2021, a contract was awarded to Downer EDI Works to upgrade Hurlstone Park, Belmore and Wiley Park stations to metro rail standards. You will notice work taking place around the station in the coming months.

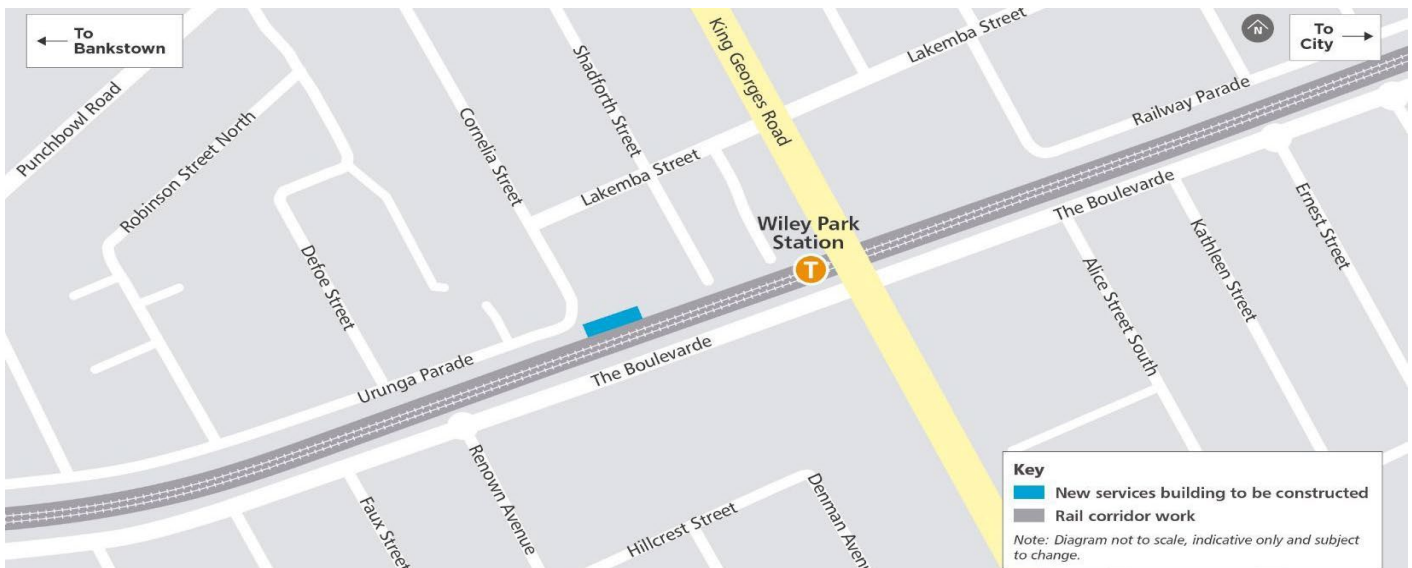

Following the rail shutdown period, work will continue along the rail corridor and at Wiley Park Station throughout July (weather and site conditions permitting). Access to the rail corridor will be via existing rail corridor/pedestrian access gates. **Day work will be undertaken during project standard construction hours Monday to Friday 7am-6pm and Saturday 8am-6pm.** All work activities are subject to relevant approvals. The map on page 2 shows location details.

| Location | Detail of day work |
|--|--|
| Wiley Park (along the rail corridor and around Wiley Park Station) | <ul style="list-style-type: none"> • Various site investigations, service identifications and relocations, and surveys including but not limited to non-destructive digging, potholing, tree and soil assessments, geotechnical investigations and surveys for drainage, utilities, and fencing • Devegetation and tree clearing throughout the rail corridor where required • Cabling work and installation of fencing, drainage, combined service routes and galvanised steel troughing (GST) • Installation and removal of haul roads, access points and temporary fencing throughout the rail corridor |
| Wiley Park Station | <ul style="list-style-type: none"> • Construction of the new platform services building • Commencement of the platform building refurbishment including a temporary closure of the toilet facilities (alternative facilities will be provided) • Asbestos removal where required within the rail corridor and around Wiley Park Station • Commencement of the concourse building refurbishments • Opening of the temporary platform finish following the two-week shutdown • Ongoing works associated with the platform reconstructions • Ongoing construction of the new buildings on Platform 1 and 2 |
| Lakemba substation, north of The Boulevard, west of Taylor Street | <ul style="list-style-type: none"> • Tree removal within the rail corridor • Installing a temporary power connection • Importing materials • Site amenity installation • Traffic controllers to facilitate trucks movements on The Boulevard |

Out-of-hours work

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties in proximity to scheduled works will be notified prior to any additional out-of-hours work starting.

| Date / time | Detail of work and location |
|---|--|
| Mid-week work between 6pm and 7am Monday 12 July and Saturday 31 July 2021 for no more than 3 nights per week (in addition to daytime work) | <ul style="list-style-type: none"> • Installation of signal equipment • Cable pulling activities • Investigation work including non-destructive digging |

Equipment used for all the above work will include excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, sucker trucks, delivery vehicles, borehole drillers, rollers, generators, whacker packers, dump trucks, wood chippers, mulchers, grass cutters, telehandlers, crane trucks, drilling rigs, lifting machinery, elevated work platforms, bobcats, concrete pumps, cable pulling equipment, compactors, lighting towers, forklifts, water carts, chainsaw, vibrating plates, and hand and power tools.

Access to buildings and driveways will be maintained at all times. Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers. We recommend that residents in the area keep their windows closed to further limit noise. **Where temporary footpath changes, car parking removal or lane closures are required for works, traffic control, pedestrian detours and signage will be in place to assist the community.**

Keeping you informed

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24 hour community information line). If you have questions about the **substations** please ask for **Grace** or email LinewideMetro@transport.nsw.gov.au. For all other works please ask for **Klia** or email SouthwestMetro@transport.nsw.gov.au. **Thank you for your cooperation while we complete this essential work.**
